19TH YEAR. NO. 199. EAST LIVERPOOL, O., SATURDAY, AUGUST 23, 1902. TWO CENTS.

THE LABOR PEOPLE ARE IN CONFERENCE AT ALLIANCE TODAY

Thomas J. Duffy, East Liverpool's Sole Representative There—Bell Is the Favorite For Congress.

Alliance, August 23.—(Special)—The convention being held at Alliance today by representatives of labor throughout the Eighteenth district was called to order in Bradbury hall at 10:30 this morning, with Fred A. Johnson, of Alliance, as temporary chairman.

Mr. Johnson stated the object of the meeting, and Ed Hageman, of Canton, was made temporary secretary.

After a credential committee had been named it was decided that the committee on credentials should do its work during a short intermission, and that a permanent organization be formed during the afternoon. The motion prevailed.

At 11:15 the session reconvened and the credentials committee reported as follows:

Alliance, 23; Youngstown, 5; Wellsville, 3; Beloit, 3; Salem, 17; Massillon, 2; Washingtonville, 2; Canton, 4; Sebring, 6; East Liverpool, 1; a total of 72.

The delegates were armed with a considerable number of proxies, but as the credentials presented by them did not entitle them to cast the vote, it was decided to allow the convention to decide the question later on.

The credentials committee recommended that T. J. Duffy, of East Liverpool, be allowed a voice in the convention. Mr. Duffy is the only man present from East Liverpool, the strongest union town in the district. This fact is frequently remarked upon. R. H. McDowell, of Salem, prepared a motion that, inasmuch as Mr. Duffy carried no credentials, but was present as the secretary of the N. B. of O. P., he be seated as a delegate.

Mr. Duffy secured the floor and stated that he had no desire to be present as a delegate, but thought he was entitled to a voice as the representative of labor. The motion was adopted.

On motion of S. S. Carnahan, of Wellsville, the temporary officers were made permanent. A motion prevailed that the sessions be open to the public. At this point the primary object of the convention, the consideration of the advisability of placing a congressional candidate in the field, was brought up. A motion carried that each of the 72 delegates express their opinion on the subject, and vote to determine the course of the convention. At 12:10 two Wellsville delegates had been heard, both favoring making a nomination. The convention then adjourned till 1 o'clock.

The candidates so far named are: Chas. Bonsall, of Salem; T. J. Duffy, of East Liverpool, and Mayor Bernard Bell, of Massillon.

While Duffy appeared to have a majority of the delegates a week ago, at 1 o'clock today it was evident that Bernard Bell, of Massillon, had sprung into first place.

To an outsider it looks as though, should a nomination be made, Bell will be the man. Bonsall, of Salem, is probably second choice, and Duffy third.

NEW RURAL ROUTE

FREE MAIL SERVICE BETWEEN THIS CITY AND ROGERS.

Postoffice Inspector Coming to East Liverpool Next Week to Arrange For It.

The new rural mail route will soon be established from the East Liverpool postoffice. Postmaster Suries has received notification that George Pate, special agent and examiner for the postoffice department, will be in the city Tuesday for the purpose of holding an examination for a carrier on the new route.

The route will be between this city and Rogers. The carrier will leave Rogers at 9 a. m and will pass through East Camel, Clarkson, Azelda, Park and Cannon's Mills. He is expected to arrive in this city at 3 p. m., and leave with the mail on the return trip at 3 p. m. The route will be covered daily.

COMMITTED SUICIDE

Prominent Physician With Relatives Here Took His Life at Bridgeport.

Dr. E. N. Riggs, aged 60, one of the most prominent physicians of Belmont county, committed suicide by shooting at Bridgeport, where he had lately moved from Powhatan. He had been ailing for some time and it is thought he was temporary deranged. He leaves a wife and one son.

Dr. Riggs had a number of relatives in this city, who were shocked to learn of his tragic death. Dr. Riggs married a daughter of Captain William Abrams, a noted Pittsburg riverman.

LOOKING FOR A MATCH

Spike Hennessy in Town And Eager to Meet Some Pugilist.

Joe, better known as "Spike" Hennessy, of Louisville, Ky., is in the city visiting relatives. He is a machinist by trade, but he has another occupation, that of fighting. Hennessy called at this office this morning and left a challenge to fight any man in this part of the state at 110 pounds and for a purse of any size. Hennessy has quite a record. He has had 30 fights, of which he won 26, lost 1 and 3 were draws. The fight he lost was at New Orleans when he fought Walter O'Brien, about a year ago. O'Brien also recently met Terry McGovern and lost that fight.

Hennessy's fight with O'Brien lasted four rounds and was stopped by the police. Another notable fight Hennessy had was at Chicago a short time ago, when he met Jimmie Barry, who was at that time the echampion bantamweight fighter of the United States. This went on for six rounds and was a draw. Hennessy has a fight on at Louisville on October 2, but desires an engagement in this part of the country before he returns to his southern home.

BRITTLE BRICK

Consignment Not Up to the Mark Which Will Not Be Used for Paving.

Contractor Thomas McLaughlin, who received the contract for the paving of College street, is having trouble in regard to the character of the brick which he has already placed on the ground for the work. The contractor has already unloaded one car of brick which does not meet with the approval of the city engineer or the street committee, and it is not probable that this brick will be used.

The contractor states that the brick are not of the class that he ordered and that he will return them to the manufacturer. Engineer Kelly was the first to discover the nature of the brick which was being placed along the street and he called the attention of the street committee to them. The brick are very brittle and give the appearance of having been fired too fast, which causes them to be very easily broken.

The manufacturer of the brick has been notified of the defect and he has an attorney looking the matter up. The street committee states that they will not allow the brick to be put in the street, as they are not according to the specifications, and the contractor will no doubt send them back to the manufacturer.

Brother Will Be Plaintiff.

Robert Slack, foreman at McNicol's pottery, has returned from Trenton, where he had been called by the death of his father. Mr. Slack states that the suit which has been instituted in regard to the division of his father's estate will be in the hands of his brother, who resides in Trenton. It was necessary for Mr. Slack to return to his work in this city, and he gave his brother the power of an attorney.

CITY WILL ACT ON IMPROVEMENT

Much Needed Work on Calcutta Road Is to Be Hastened.

SPECIAL MEETING CALLED

City Council Will Convene Monday to Legalize the Letting of Contracts in a Way That No Objection Can Be Raised.

The city will fill in the necessary amount of earth to bring the pavement in front of the Stewart property on Calcutta road up to the established grade. This decision was arrived at by City Solicitor McGarry and Engineer Kelly, at a conference held yesterday.

The taxpayers on the Calcutta road who have been assessed for the improvement of the thoroughfare have secure legal advice and refused to pay the assessment until the sidewalk in front of this property was constructed.

It was learned by the city officials that an injunction was to be asked for about the last of August, which would prevent the city clerk from certifying the amount of the assessment to the county auditors. If this were done, it would mean that the general fund of the city would have to carry the assessment for another year, as it is necessary for the assessment to be certified to the county auditor by the first of September.

The city has now taken the matter in hand and the fill on the sidewalk of the property will be put in immediately, so that the parties who are objecting to the improvement have received and are receiving the benefit of, will have no opportunity to object to the collection of the assessment for it.

It is understood that all the property owners want is that the contract be finished to the specifications and the city will overcome, the difficulty of dealing with an administrator with a limited power by putting the work through and looking after the payment afterwards.

A special meeting of the city council will be held Monday afternoon for the purpose of taking legal action in regard to the letting of the contract for the filling in and paving of the sidewalk in front of the Stewart property.

Solicitor McGarry looked up the actions of the previous councils in regard to the improvement. As the other residents appear to be looking for some loop hole to escape the payment of the assessment for the improvement the solicitor has been called upon to figure the matter out for the council. The outcome of the investigation is the calling of the special meeting.

YOUNG PUGILIST

East Liverpool Pottery Worker Knocked Out Steubenville Man With Ease.

Harry Watkins, a 17-year-old employe of the Buckeye pottery, is gaining something of a reputation as a pugilist. This week, before a crowd of perhaps 800 at Steubenville, he met Schaffer, a well known boxer of that city, and knocked him out in the third round, breaking Schaffer's nose.

Watkins has fought nine bouts and has never lost one.

POTTERS VOTING ON GIVING MONEY

Question of Extending Financial Aid to Striking Miners Meets Approval.

PROSPERTY IN TRENTON

Both in Sanitary And General Ware. Factory Inspector of New Jersey Under Fire—New N. B. of O. P. Local.

From a Staff Correspondent.

Trenton, N. J., Aug. 23.—The Trenton locals of the National Brotherhood of Operative Potters this week are voting upon the request sent to President A. S. Hughes from President Mitchell, of the United Mine Workers, for financial aid for the striking miners. The request of President Mitchell, which means the appropriation of the funds of the Brotherhood to aid another organization, is a question which is not covered by the constitution. For this reason, notices were received from Secretary Duffy by the Trenton locals calling for an individual vote, the result of which, is being forwarded by each local to East Liverpool.

The question thus far has met with the approval of all the locals and Tuesday night, Sanitary workers' local No. 15, besides voting for an appropriation from the National treasury, sent $50 to President Mitchell out of its own funds. Similar requests for assistance have been received by the other labor unions in this city and last Friday night, the Mercer County Central Labor union headed the list, with a donation of $25.

The sanitary plants are experiencing the biggest boom that has been known in years.

All of the shops are working full time and many are behind in their orders. About this time of the year, beginning about September 1, reaching up to Christmas, what is known to Trenton manufacturers as the dull season, begins. For the first time in the history of the sanitary trade, this period will be passed without notice this year, as most of the plants have orders which will keep them busy during the next six months.

A similar condition but not of such great proportions exists among the potteries manufacturing general ware. These plants at present are getting out new shapes for the holiday trade. Nearly all the salesmen have returned from their vacations and will probably be put on the road not later than the middle of September. In the general ware line, there is a decided falling off in toilet articles which market is fast becoming the property for the sanitary manufacturers.

This condition, together with the increasing demand for sanitary, has been the result of the big booms in building, which have, during the past few months, been launched all over the east. In preparing for a busy season, several of the potteries have placed large orders with the Crossley Machine company for pottery machinery.

In the line of organization, Vice-President Hutchins, of the Brotherhood of Operators, is still devoting his efforts toward getting the warehousewomen into line. Several preliminary meetings have been held and a membership committee was appointed to make a canvass of all the shops with the result, that thirty additional members have been received. An attempt was made some time ago to start an organization among the warehouse girls. No attempts of late have been made in this direction as Mr. Hutchins is desirous of completing his work with the men before an attempt is made to affiliate the women.

State Factory Inspector John C. Ward, against whom the potters of this city have a grievance for permitting children to work in the local plants, was the target of the New Jersey State Federation of Labor, which held its annual sessions in this city last Monday and Tuesday. The cumulative eveidence, which the labor organizations of the state, and particularly in the South Jersey glass blowing district, have been piling up against the inspector, took definite shape in the adoption of a resolution making sweeping charges of mal-administration and demanding his removal at the hands of Governor Murphy. The governor has promised the Federation that he will submit the charges against Ward to rigid investigation.

With the $1,000 donation of John L. Cadwalader made at the time of the dedication of the Trenton Free Public Library, the directors have secured several valuable works on ceramics which were opened to the public this week.

The trustees intend to make these works a distinct help to students of the Trenton Art School, decorative potters and makers of pottery ornamentation. The plates are the perfecion of color work and many of he designs shown are world famous.

The old Greenwood pottery meets with great difficulty in getting hard coal to fire the kilns. Soft coal will not answer the purpose infiring vitrified china as it does in general ware.

Harry E. Barlow, former mayor of Wilbur and one of the superintendents of the Mercer pottery, leaves in a few days for an extended tour through Canada.

The Mercer pottery company is getting out a new toilet set which it will soon have ready for the toilet trade.

POTTERY WORKERS ELOPE AND MARRY IN YOUNGSTOWN

Lucy Todd until last Wednesday evening was employed as a rubber in the decorating department at the Wallace & Chetwynd pottery, and now she has quit working. That is not all. She has also changed her name. This was done at Youngsgtown Thursday when she told all her friends that she was going on her vacation, and proposed going to Niagara Falls to spend a few weeks. This plant was not followed, but instead Miss Todd, whose home is in Wellsville, eloped to Youngstown, where she was married to Charles Krausse, who is employed in the Canonsburg (Pa.) pottery. The young couple went to Canonsburg immediately, where they will make their home.

It is said there was some objection to the marriage on the part of the parents of the groom, as they thought he was too young to get married and so told them. However, the plans of the young man were not changed, and on Thursday he also went on a vacation which landed him at Youngstown.

While all this was going on the facts of the marriage were known to a shopmate of the bride, Miss Gertis Golding, also a resident of Wellsville and also employed at the Wallace & Chetwynd plant. Last evening Miss Golding received a letter from Mrs. Krause, announcing her marriage, and today the fact was made known all over the pottery.

AFTER SEPARATION SINCE CHILDHOOD SISTERS ARE UNITED

The Romantic Meeting of Two Women, One of Whom Had Sought the Other For Twenty Years.

Owing to the persistent efforts of Mrs. P. Lane, 5138 Parker street, Pittsburg, to locate a little sister who was separated from her nearly 20 years ago the lost one has been found and the sisters are again happy. At the time the divorce proceedings of J. H. Luker and his wife were being tried, 19 years ago, Luker left hurriedly for Scottdale, taking his younger daughter, Myrtle, with him. She was left in charge of a family named Miller, who afterwards moved to Canton, in order to adopt the child.

Myrtle lived with the Millers until a year ago, when her foster-mother died. Mrs. Lane has since searched for her, missing her in East Liverpool, as she was away on a vacation.

Miss Miller has had an experience which does not fall to the lot of one person in 10,000. She was but 2 years of age when the courts separated the parents. She was adopted by the Millers, and when they removed to Canton Mrs. M. A. Calhoun, of this city, met Miss Miller. They became very warm friends, and when Mrs. Miller died several years ago and the girl's adopted father married again, Myrtle came to live with Mrs. Calhoun in East Liverpool.

Miss Miller secured employment in one of the local potteries as a transferer in the decalcomania department. Meantime Mrs. Lane, of Pittsburg, through a diligent search at last succeeded in locating the Millers, only to find that she had left them and come to this city. Several weeks ago Mrs. Lane took advantage of one of the excursions to come to this city. She again met with disappointment, as her sister was out of town.

As soon after as possible the two women arranged for a meeting at Pittsburg. The meeting took place, and the sisters have resolved that they will never again be separated.

RED STAR COMMANDERY

Officers Elected for the New Uniform Rank K. of P. Organization.

At a meeting of the recently organized Uniform Rank, Knights of the Golden Eagles, of this city, the following officers were elected: Captain, Joseph Smith; first lieutenant, J. H. Bardow; second lieutenant, William Ellis; first sergeant, Arthur Owens; second sergeant, Thomas Simpson; third sergeant, Joseph Pollock; ensign, James Burkheimer.

A charter has been applied for and this application was forwarded yesterday to the adjutant general of the national commandery at Newark, N. J. The character is expected here in a few days. The name of the local commandery will be Red Star, but the number has not yet been assigned, and will not be known until the charter is received.

Will Filed for Probate.

Lisbon, August 23. — (Special) — The will of the late Jessie Black, of Washington township was filed for probate this morning. The application to probate will be for hearing September 2.

PRIZE FOR G. A. R.

Handsome Flags to Be Presented Posts Showing Largest Increase.

Post Commander Daniel McLane, of the local G. A. R., is in receipt of a circular from Department Commander Walton Weber, outlining a plan for the awarding of two flags to the posts of the state.

A handsome stand of colors is to be given to the post showing the largest percentage of net increase on December 31, 1902, over its report for the term ending June 30, 1902. The other flag is to go to the post making the largest gain in the number of members in good standing for the same period.

The flags are the handsomest and most costly that can be procured. The local post will be found well up in the list when the competition ends.

AN APPEAL ENTERED

Salem Woman Objects to the Forcible Collection of a Judgment.

Lisbon, August 23. — (Special) — John and Irene Rudisill, of Salem, appealed a case to common pleas court in which Elizabeth Plohr, of Teegarden, recovered a judgment in Justice Lease's court at Salem. About 18 months ago, the Rudisills went to the home of Elizabeth Plohr and, after making a forcible entry, carried away household furniture, consisting of bedding, silver spoons, and in fact everything which they could convert to their own use.

The plaintiff entered suit for $75 damages and when the case was set for hearing the Rudisills failed to appear and judgment was entered by default.

Special Notice.

On account of the interest shown in the special church services held at Springs Park last Sabbath afternoon, it has been decided to contiue the service until the close of the season. Service tomorrow afternoon at 3 conducted by Rev. Edwin Weary, of the Episcopal church. Special song service by the vestry choir. The pavilion will be seated. You are welcome. Come and enjoy the service with us.

Wanderers' Return.

Two of the four boys who ran away from their homes in this city and took a trip to Salineville, returned to their homes last evening. It is stated that the boys had enough of begging life by the time they reached Irondale and later two of them turned back, it is reported, and the other two continued on their way to Salineville.

Out of the Hospital.

Edgar Roe, of Third street, who has been confined to a Wheeling hospital for four weeks, taking treatment for a disease that has been troubling him for quite a long time, is expected to return to his home either tomorrow or Monday. His ultimate recovery is now assured.

The Mercer pottery company is getting out a new toilet set which it will soon have ready for the toilet trade.

POTTERY WORKERS ELOPE AND MARRY IN YOUNGSTOWN

Lucy Todd until last Wednesday evening was employed as a rubber in the decorating department at the Wallace & Chetwynd pottery, and now she has quit working. That is not all. She has also changed her name. This was done at Youngsgtown Thursday when she told all her friends that she was going on her vacation, and proposed going to Niagara Falls to spend a few weeks. This plant was not followed, but instead Miss Todd, whose home is in Wellsville, eloped to Youngstown, where she was married to Charles Krausse, who is employed in the Canonsburg (Pa.) pottery. The young couple went to Canonsburg immediately, where they will make their home.

It is said there was some objection to the marriage on the part of the parents of the groom, as they thought he was too young to get married and so told them. However, the plans of the young man were not changed, and on Thursday he also went on a vacation which landed him at Youngstown.

While all this was going on the facts of the marriage were known to a shopmate of the bride, Miss Gertis Golding, also a resident of Wellsville and also employed at the Wallace & Chetwynd plant. Last evening Miss Golding received a letter from Mrs. Krause, announcing her marriage, and today the fact was made known all over the pottery.

AFTER SEPARATION SINCE CHILDHOOD SISTERS ARE UNITED

The Romantic Meeting of Two Women, One of Whom Had Sought the Other For Twenty Years.

Owing to the persistent efforts of Mrs. P. Lane, 5138 Parker street, Pittsburg, to locate a little sister who was separated from her nearly 20 years ago the lost one has been found and the sisters are again happy. At the time the divorce proceedings of J. H. Luker and his wife were being tried, 19 years ago, Luker left hurriedly for Scottdale, taking his younger daughter, Myrtle, with him. She was left in charge of a family named Miller, who afterwards moved to Canton, in order to adopt the child.

Myrtle lived with the Millers until a year ago, when her foster-mother died. Mrs. Lane has since searched for her, missing her in East Liverpool, as she was away on a vacation.

Miss Miller has had an experience which does not fall to the lot of one person in 10,000. She was but 2 years of age when the courts separated the parents. She was adopted by the Millers, and when they removed to Canton accompanied them. It was while a resident of Canton that Mrs. M. A. Calhoun, of this city, met Miss Miller. They became very warm friends, and when Mrs. Miller died several years ago and the girl's adopted father married again, Myrtle came to live with Mrs. Calhoun in East Liverpool.

Miss Miller secured employment in one of the local potteries as a transferer in the decalcomania department. Meantime Mrs. Lane, of Pittsburg, through a diligent search at last succeeded in locating the Millers, only to find that she had left them and come to this city. Several weeks ago Mrs. Lane took advantage of one of the excursions to come to this city. She again met with disappointment, as her sister was out of town.

As soon after as possible the two women arranged for a meeting at Pittsburg. The meeting took place, and the sisters have resolved that they will never again be separated.

RED STAR COMMANDERY

Officers Elected for the New Uniform Rank K. of P. Organization.

At a meeting of the recently organized Uniform Rank, Knights of the Golden Eagles, of this city, the following officers were elected: Captain, Joseph Smith; first lieutenant, J. H. Bardow; second lieutenant, William Ellis; first sergeant, Arthur Owens; second sergeant, Thomas Simpson; third sergeant, Joseph Pollock; ensign, James Burkheimer.

A charter has been applied for and this application was forwarded yesterday to the adjutant general of the national commandery at Newark, N. J. The character is expected here in a few days. The name of the local commandery will be Red Star, but the number has not yet been assigned, and will not be known until the charter is received.

Will Filed for Probate.

Lisbon, August 23. — (Special) — The will of the late Jessie Black, of Washington township was filed for probate this morning. The application to probate will be for hearing September 2.

PRIZE FOR G. A. R.

Handsome Flags to Be Presented Posts Showing Largest Increase.

Post Commander Daniel McLane, of the local G. A. R., is in receipt of a circular from Department Commander Walton Weber, outlining a plan for the awarding of two flags to the posts of the state.

A handsome stand of colors is to be given to the post showing the largest percentage of net increase on December 31, 1902, over its report for the term ending June 30, 1902. The other flag is to go to the post making the largest gain in the number of members in good standing for the same period.

The flags are the handsomest and most costly that can be procured. The local post will be found well up in the list when the competition ends.

AN APPEAL ENTERED

Salem Woman Objects to the Forcible Collection of a Judgment.

Lisbon, August 23. — (Special) — John and Irene Rudisill, of Salem, appealed a case to common pleas court in which Elizabeth Plohr, of Teegarden, recovered a judgment in Justice Lease's court at Salem. About 18 months ago, the Rudisills went to the home of Elizabeth Plohr and, after making a forcible entry, carried away household furniture, consisting of bedding, silver spoons, and in fact everything which they could convert to their own use.

The plaintiff entered suit for $75 damages and when the case was set for hearing the Rudisills failed to appear and judgment was entered by default.

Special Notice.

On account of the interest shown in the special church services held at Springs Park last Sabbath afternoon, it has been decided to contiue the service until the close of the season. Service tomorrow afternoon at 3 conducted by Rev. Edwin Weary, of the Episcopal church. Special song service by the vestry choir. The pavilion will be seated. You are welcome. Come and enjoy the service with us.

Wanderers' Return.

Two of the four boys who ran away from their homes in this city and took a trip to Salineville, returned to their homes last evening. It is stated that the boys had enough of begging life by the time they reached Irondale and later two of them turned back, it is reported, and the other two continued on their way to Salineville.

Out of the Hospital.

Edgar Roe, of Third street, who has been confined to a Wheeling hospital for four weeks, taking treatment for a disease that has been troubling him for quite a long time, is expected to return to his home either tomorrow or Monday. His ultimate recovery is now assured.

WITH THE WORKMEN IN THE CLAY PLANTS

LABOR OF YOUTH.

During the summer months, and especially during the vacation of the public schools there are as a rule many positions in a pottery filled by school children. Now that the school term is about to again be opened, there will be many vacancies in the potteries of this city, such as mould runners and the like. After the schools open, if any boys or girls of school age are found to be working in a pottery, they are subject to the truant officer, and their parents are liable to a fine. A well known manager of a hill pottery, speaking of the child labor question, today said: "The grandest institution in this country is compulsory education, and would you believe it there are scores of persons working in the East Liverpool potteries who are today unable to write their own names ,and many of these have resided in this city practically all of their life. A workman only the other day inquired of me:'How do you get to be a member of that bank? Will you introduce me to the president of it? I told him I could not do that, but I could arrange it so that he could meet the cashier. That was done, and now he wants me to sign his checks. I of course could not do that, but I educated him a little in the art of banking. Early education would do much to overcome all this ignorence of banking methods, and this can now be learned in the public schools. Education of the youth also tends to help the pottery workmen in his work about the shop. He is enabled to work out little details and all that sort of thing. I am firmly convinced that too many children are employed under the lawful age."

NOTES FROM SEBRING.

Ralph Coppock, a presser at the Sebring, has gone to Bunker Hill, three miles east of Snodes for a two weeks' stay with his parents "down on the farm."

Homer Tritt, liner at Sebring, is now off duty on account of sickness.

Will Murphy, of East Palestine, has taken a position as kilndrawer at the French.

Bernard Curtis has moved to East Liverpool, where he will still continue to push the saw and plane.

George Turner, who has been employed as presser in the Lisbon pottery, is now at his home in this city.

Robert Finley, the well known kilnman, who has been unable to work for quite a time on account of suffering with typhoid fever, is now able to be out. He is well known in East Liverpool, having once been a member of the police force of this city.

WHAT HE DESERVED.

Because he was a good fellow, always kind to the men under him, William Tritt, formerly a resident of this city, and until recently, one of the managers of the Sebring pottery, at Sebring, was presented a handsome gold watch a few days ago by the employes of the pottery. This certainly shows good will. Mr. Tritt, it will be remembered, had tendered his resignation with that firm, and will leave Sebring soon to associate himself with the new pottery in course of erectinon at Crooksville. His resignation took effect the day the watch was presented to him.

A NEW SAMPLE ROOM.

The Thomas china company, of Lisbon, has opened handsome sample rooms in this city, and every character of ware made at the new shop is shown there. The rooms are on the second floor of the R. Thomas & Sons' plant, on Seventh street. The samples are tastefully arranged and the display is one of the neatest to be found anywhere in the city. The room in charge of a competent salesman, who is there daily. Quite a trade is being secured by this new firm by having a sample room in this city, and the move proved to be a wise one.

QUITS RESTAURANT.

Harvey Badgley, who for a numer of years was employed as night watchman for the West End pottery company, but who during the past few months has been conducting a restaurant in the Midway, has disposed of that business. Within a week or so he will go the Thompson pottery, wher he will take charge of the decorating kilns at that plant. Mr. Badgley was formerly employed in the potteries in this department, but not of recent years.

A HIGH OFFICIAL.

Thomas Price, general manager of the Cheslea pottery at New Cumberland, was in the city yesterday for a short time, and spent a few hours at the office of the Union. He was accompanied by H. L. Snively, auditor of the Union potteries company, at Pittsburg. The visit of these gentlemen to this city had no special significance, as it was just an ordinary business trip. Frank W. Fowler, vice-president of this company, is now spending a few days in Cleveland, taking a much needed rest.

MRS. DEVON ILL.

The many friends of William Devon, kiln foreman at the D. E. McNicol pottery, will be sorry to learn of the serious illness of his wife. Mrs. Devon has been suffering at her home on Thompson Hill with muscular spasms, and her condition is such that just as soon as possible, she will be removed to Pittsburg, where, if found necessary, she will undergo an operation. Mrs. Devon has suffered four attacks within the past two weeks.

OUT AT BARBERTON.

It is evident that the Barberton pottery is almost in full operation, and that it will be but a few days until the packing department will be able to start. Within the last few days about 16 decorators were started, and that is speaking very well for a new shop. Everything at this shop is running smoothly, and the first ware will be shipped from the new factory some time next week.

BUSINESS AT SEBRING.

The several potteries operated at Sebring by the Sebring Bros. seem to be enjoying an excellent trade, and judging from reports, the factories there are being given their share of the fall trade. Numerous cars of ware are sent from this town every week, and this is speaking well for the firm, who always had the name of being among the most progressive in the business.

AN IMPORTING MEETING.

The packers and warehousemen of the Trenton potteries were to have held an important meeting in the Eastern headquarters last evening, when some business other than that of a routine nature was to be considered. This is one of the latest locals to be organized in Trenton since the convention held there last May, and it is in a flourishing condition.

BUSINESS ALL RIGHT.

Eugene Bradshaw, of the Bradshaw pottery company, at Niles, has been spending a few days in this city on business. Mr. Bradshaw stated today that business with his firm was better than ever, and that orders were coming in as fast as they could fill them.

INCREASING THEIR LIST.

At the meeting of Warehousewomens 'local No. 62, which was held Thursday evening, eight new members were received. The membership of this local is now over 300, and is constantly increasing. A number of applications will also be presented at the next meeting of this local.

BACK TO WORK.

Jack Hancock, Charles Martin and Ralph Turner, who have been spending about ten days at Buffalo and other New York towns on a vacation trip, have returned to the city, and are now to be found at their benches on the glost end at the D. E. McNicol pottery.

EXPECTED HOME SOON.

Will L. Smith and Daniel E. McNicol, of the pottery firm of that name, who have been spending a fortnight in the east visiting several summer resorts, are expected to return to this city next week. They are now reported at New York.

PROBABLY A MISTAKE.

A Sebring paper stated last week that Local No. 44, of that town, had voted $1,000 from the defense fund to the striking miners. The writer probably meant either $10 or $100.

RESIGNED POSITION.

Miss May Terrence, who has been employed as a rubber at the Wallace & Chetwynd, for many months, working for Edward Hatton, has resigned her position. She will enter another branch of the decorating department, that of filling in.

TO BE MARRIED.

It was stated last evening that a popular finisher employed at the Union pottery would soon be married to a well known kilndrawer employed at the same plant. The date of the wedding has not been set.

LITTLE PAY.

Today was little pay, and quite a large amount of money was distributed by the plants among their workmen. Little pay is beginning to become a sort of big pay.

TAFT WELCOMED

GOVERNOR GIVEN WARM RECEPTION AT MANILA.

Received an Enthusiastic Popular Demonstration — Many Natives From Provinces Participated.

Manila, Aug. 23.—Civil Governor Taft reached here yesterday morning at daylight on board the United States gunboat General Alava, from Singapore, Straits Settlement. He was welcomed with an enthusiastic popular demonstration.

The day had been made a holiday and the city was decorated. Eight large arches had been erected on the streets. Twenty thousand natives from adjoining provinces participated in the demonstrations in honor of the governor's arrival. There was a parade of vessels in the bay and 30 decorated craft carrying members of the civil commission, military officers and the reception committee, met the General Alava down the bay and escorted Governor Taft to the entrance of the Pasig river. The governor was escorted by a large procession to the palace in the walled city, where a public reception was held.

Responding to an address of welcome Governor Taft outlined the progress and the result of his negotiations at Rome in the matter of the Philippine friars, and said that all church questions were progressing toward a satisfactory settlement. The governor said the action taken by congress concerning the Philippine islands showed that the American people honestly desired to help the Filipinos. The Americans were determined the islands should not be exploited by Americans at the expense of the Filipinos. Governor Taft predicted that eventually the archipelago would have practically free trade, and he congratulated the Filipino people upon the restoration of peace. He advised the Filipinos to till the soil and restore their country rather than wsate time in useless political agitation. He promised personally to labor for the natives and asked for their confidence and support.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials

MATTERS MUCH TO EAST LIVERPOOL

City Should Have Representatives at River Improvement Meeting.

BENEFITS WILL BE GREAT

To This Town When Navigation Is Possible at All Seasons And Every Effort Should Be Used to Bring About This Result.

To the Editor of the News Review.

There is a matter to which I wish to call attention, which, it seems to me, strongly appeals to the interests of East Liverpool's business men and to every public spirited citizen for that matter. That is the proposed governmental improvement of the Ohio river. These improvements contemplate the establishment of a nine-foot stage of water from Pittsburg to Cairo all the year around by the construction of 11 dams, two of which are to be located within a radius of less than half a dozen miles of our city.

The annual convention of the Ohio River Improvement association will be held in Parkersburg early in October, and it is proposed that the chambers of commerce and boards of trade of all the more important cities and towns along the river send delegates to the convention to urge the immediate inauguration of the work and that the work be done continuously and simultaneously until its completion.

It is proverbial that government contracts are never completed. It is proposed to make this a notable exception. A number of cities have already taken action with reference to the matter. Pittsburg's chamber of commerce at a recent session decided to send a strong delegation both in numbers and ability, the same to include Congressman John Dalzell.

If there is any city along the Ohio river that ought to be interested in this enterprise it is East Liverpool. She is about the only important city between Pittsburg and Cairo that has no competing line of railway. The opening of the Ohio river to continual navigation for ten or eleven months of the year would afford a competing commercial thoroughfare the importance of which to East Liverpool's manufacturing and other interests it would be hard to overestimate. Why then should our city not take some action in the matter of the proposed convention? It seems we have no board of trade—more's the pity—but this need not prevent the city from being represented.

City councils are expected to look after the interests of the city. Why could they not in conjunction with the mayor send able representatives to the Parkersburg convention, or in some way make their influence felt in so important a matter? If our city could be represented at the Parkersburg meeting by at least three strong men—six or more would be better—she would not only make her influence felt, but would only be doing what as a matter of justice eshe owes to so important a cause.

Let us keep it before the world that we are a wideawake city, alive to our own interests and know a good thing when we see it.

PIN YOUR FAITH TO ENK'S

TO PROLONG HUMAN LIFE

Albert Matthews, Ph. D., assistant professor of Physiological Chemistry in the University of Chicago, in summing up the practical results of the discoveries of Prof. Jacques Loeb and himself, says: "There is apparently no inherent reason why a man should die, except our ignorance of the conditions governing the reaction going on in his protoplasm."

When Dr. Joseph Enk, nine years ago, reached this conclusion as the result of scientific pathological experiments, he did not desire to run the risk of being considered a mad man or a fool, and kept his opinion to himself. But in preparing the Enk Preparations for the cure of disease, the startling facts which he had uncovered were incorporated in the theory upon which the remedies are based.

The possibility of prolonging the life of the cells has become a certainty, and the substances which will accomplish this best are known to Dr. Enk; also, the secret of presenting them in a form acceptable to the human body, which is most important. The people who use Enk Preparations for their ailments have no need for other medicines, and even now we can insure longevity and good health.

Research into the problem of life is going on steadily in the Enk laboratory and is rapidly dissolving the clouds which cover this most momentous question.

For information about the Enk Preparations, write for our booklets or obtain them of your druggist.

Jack Hancock, Charles Martin and Ralph Turner, who have been spending about ten days at Buffalo and other New York towns on a vacation trip, have returned to the city, and are now to be found at their benches on the glost end at the D. E. McNicol pottery.

EXPECTED HOME SOON.

Will L. Smith and Daniel E. McNicol, of the pottery firm of that name, who have been spending a fortnight in the east visiting several summer resorts, are expected to return to this city next week. They are now reported at New York.

PROBABLY A MISTAKE.

A Sebring paper stated last week that Local No. 44, of that town, had voted $1.000 from the defense fund to the striking miners. The writer probably meant either $10 or $100.

RESIGNED POSITION.

Miss May Terrence, who has been employed as a rubber at the Wallace & Chetwynd, for many months, working for Edward Hatton, has resigned her position. She will enter another branch of the decorating department, that of filling in.

TO BE MARRIED.

It was stated last evening that a popular finisher employed at the Union pottery would soon be married to a well known kilndrawer employed at the same plant. The date of the wedding has not been set.

LITTLE PAY.

Today was little pay, and quite a large amount of money was distributed by the plants among their workmen. Little pay is beginning to become a sort of big pay.

General Debility

Day in and out there is that feeling of weakness that makes a burden of itself.

Food does not strengthen.

Sleep does not refresh.

It is hard to do, hard to bear, what should be easy,—vitality is on the ebb, and the whole system suffers.

For this condition take

TAFT WELCOMED

GOVERNOR GIVEN WARM RECEPTION AT MANILA.

Received an Enthusiastic Popular Demonstration — Many Natives From Provinces Participated.

Manila, Aug. 23.—Civil Governor Taft reached here yesterday morning at daylight on board the United States gunboat General Alava, from Singapore, Straits Settlement. He was welcomed with an enthusiastic popular demonstration.

The day had been made a holiday and the city was decorated. Eight large arches had been erected on the streets. Twenty thousand natives from adjoining provinces participated in the demonstrations in honor of the governor's arrival. There was a parade of vessels in the bay and 30 decorated craft carrying members of the civil commission, military officers and the reception committee, met the General Alava down the bay and escorted Governor Taft to the entrance of the Pasig river. The governor was escorted by a large procession to the palace in the walled city, where a public reception was held.

Responding to an address of welcome Governor Taft outlined the progress and the result of his negotiations at Rome in the matter of the Philippine friars, and said that all church questions were progressing toward a satisfactory settlement. The governor said the action taken by congress concerning the Philippine islands showed that the American people honestly desired to help the Filipinos. The Americans were determined the islands should not be exploited by Americans at the expense of the Filipinos. Governor Taft predicted that eventually the archipelago would have practically free trade, and he congratulated the Filipino people upon the restoration of peace. He advised the Filipinos to till the soil and restore their country rather than wsate time in useless political agitation. He promised personally to labor for the natives and asked for their confidence and support.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

MATTERS MUCH TO EAST LIVERPOOL

City Should Have Representatives at River Improvement Meeting.

BENEFITS WILL BE GREAT

To This Town When Navigation Is Possible at All Seasons And Every Effort Should Be Used to Bring About This Result.

To the Editor of the News Review.

There is a matter to which I wish to call attention, which, it seems to me, strongly appeals to the interests of East Liverpool's business men and to every public spirited citizen for that matter. That is the proposed governmental improvement of the Ohio river. These improvements contemplate the establishment of a nine-foot stage of water from Pittsburg to Cairo all the year around by the construction of 11 dams, two of which are to be located within a radius of less than half a dozen miles of our city.

The annual convention of the Ohio River Improvement association will be held in Parkersburg early in October, and it is proposed that the chambers of commerce and boards of trade of all the more important cities and towns along the river send delegates to the convention to urge the immediate inauguration of the work and that the work be done continuously and simultaneously until its completion.

It is proverbial that government contracts are never completed. It is proposed to make this a notable exception. A number of cities have already taken action with reference to the matter. Pittsburg's chamber of commerce at a recent session decided to send a strong delegation both in numbers and ability, the same to include Congressman John Dalzell.

If there is any city along the Ohio river that ought to be interested in this enterprise it is East Liverpool. She is about the only important city between Pittsburg and Cairo that has no competing line of railway. The opening of the Ohio river to continual navigation for ten or eleven months of the year would afford a competing commercial thoroughfare the importance of which to East Liverpool's manufacturing and other interests it would be hard to overestimate. Why then should our city not take some action in the matter of the proposed convention? It seems we have no board of trade—more's the pity—but this need not prevent the city from being represented.

City councils are expected to look after the interests of the city. Why could they not in conjunction with the mayor send able representatives to the Parkersburg convention, or in some way make their influence felt in so important a matter? If our city could be represented at the Parkersburg meeting by at least three strong men—six or more would be better—she would not only make her influence felt, but would only be doing what as a matter of justice eshe owes to so important a cause.

Let us keep it before the world that we are a wideawake city, alive to our own interests and know a good thing when we see it.

PIN YOUR FAITH TO ENK'S

TO PROLONG HUMAN LIFE

Albert Matthews, Ph. D., assistant professor of Physiological Chemistry in the University of Chicago, in summing up the practical results of the discoveries of Prof. Jacques Loeb and himself, says: "There is apparently no inherent reason why a man should die, except our ignorance of the conditions governing the reaction going on in his protoplasm."

When Dr. Joseph Enk, nine years ago, reached this conclusion as the result of scientific pathological experiments, he did not desire to run the risk of being considered a mad man or a fool, and kept his opinion to himself. But in preparing the Enk Preparations for the cure of disease, the startling facts which he had uncovered were incorporated in the theory upon which the remedies are based.

The possibility of prolonging the life of the cells has become a certainty, and the substances which will accomplish this best are known to Dr. Enk; also, the secret of presenting them in a form acceptable to the human body, which is most important. The people who use Enk Preparations for their ailments have no need for other medicines, and even now we can insure longevity and good health.

Research into the problem of life is going on steadily in the Enk laboratory and is rapidly dissolving the clouds which cover this most momentous question.

For information about the Enk Preparations, write for our booklets or obtain them of your druggist.

SEBRING RACE TRACK

A Fine Half Mile Course to Be Laid Out Near the Town.

Sebring is to have a race track of her own, the plat for the purpose having already been selected and surveyed. It is located just north of the city, out Fifteenth street, and will be a half mile course. The location selected for the purpose is said to be an ideal one. B. F. James has been chosen as president of the association, A. E. Mitzel, secretary, and H. R. Ewing treasurer. It is the intention to have the track completed by September 15.

The base ball ground which is now located south of the potteries will then be removed to these grounds and the lovers of the race and the leagues will have a fine place for amusements of every kind. A tri-county fair will probably come next.

EAST END

SIX NEW HOUSES

Modern in Every Particular to Be Erected on Pennsylvania Avenue, East End.

Quite an improvement will be commenced in the East End Monday morning when a company which has been formed in the East End recently will commence the erection of six new residences. In this company is Dr. R. J. Marshall and several other prominent business men of that part of the city. These houses will be erected on Pennsylvania avenue on the north side of the street, and almost opposite the alley leading to Chafinville.

These houses will be modern in every particular, and each will cost from $1,500 to $2,000. Work excavating for the foundation for these houses will commence Monday morning, and it is thought the contract will be completed within 90 days. These houses will be for rent, and will doubtless be quickly taken. There never was such a scarcity of houses in the East End as at present.

LIGHT DOES NOT SHINE

Pennsylvania Company Leaves the Lamp at Ralston Crossing to Rust Away.

Many months ago the Pennsylvania Railroad company placed a light at the Ralston crossing, but not for weeks has that light been lighted at nights. The lamp is now rusting away, and is useless while in its present condition. It is rusting away, and the only part of the fixture that is of any value is the pole upon which the light was placed. It seems that the railroad company, through a loose state law, is not compelled to keep lights at crossings, although there is a city ordinance in this city touching upon this point.

If the company does not propose to use the light at Ralston crossing, it would be better for the pole to be taken down, for it is no good in its present state.

Pastor Crowe Still Absent.

Owing to the absence from the city of Rev. N. M. Crowe, of the Second Presbyterian church, the services at this church tomorrow, both morning and evening, will be in charge of G. C. Fisher, a student at the Allegheny Theological seminary. A letter was received in the East End yesterday afternoon from Rev. N. M. Crowe, in which the fact was stated that he would return to the East End from his two weeks' vacation next week, and would conduct the usual services at the Second Presbyterian church one week from tomorrow.

Evening Up the Tracks.

During the past week the East Liverpool Railway company has had several men at work on the track between the Thompson pottery and the East End, raising the rail joints, and making other needed changes in the tracks. By so doing the cars were enabled to run over a portion of the road without jolting the passengers, as has been the case since the summer cars were placed on the road some months ago.

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

IMPORTANT MEETING

Of the Street Railway Employes of This City to Be Held Tonight.

A meeting of division No. 52, street railway employes, of this vity, will be held this evening in the hall on First avenue. Some very important business matters are to be considered. Some word is expected to be made known at this session relative to the conditions prevailing at Steubenville, which local there was organized by President Charles Kontnier and Mr. Calhoun, of No. 52.

Several applications for membership will be considered at this session and several applications, which were passed upon at the meeting last month, will be initiated this evening.

Back at Work.

After an absence of about 10 days, Thomas Reed, superintendent of the East Liverpool Railway company, has returned to the city and is now back at work. William Pelly, who looked after the work of Mr. Reed during his absence, has returned to his former position, that of motorman on the freight car.

Hard to Find a House.

Mr. and Mrs. Hanna, for many years residents of Marietta, will move to the East End, their household goods expecting to be received there next Wednesday. The family have spent several days in the East End looking for a house, but so far they have been unsuccessful.

Prohibition Alliance.

The regular monthly business meeting of the East End branch of the Prohibition Alliance will be held Monday evening of next week at the residence of John Schmelzenbach on Pennsylvania avenue. Members of the branch state that some important matters are to be talked over at this meeting.

Funeral of an Infant.

An infant child of Mr. and Mrs. William G. Chafin, who died Thursday, was buried at Riverview cemetery Thursday. Mr. Chafin is a brother of Alex Chafin, well known in the East End.

EAST END AFFAIRS.

A little child of Mr. and Mrs. George Martin, of Ohio avenue, is very ill.

Rev. J. N. Swan, of the East End, will occupy the pulpit of the First Baptist church, in Toronto Sunday.

Mrs. Fred Riley, of the East End, has returned to her home after a pleasant stay of two weeks at Atlantic City.

Miss Ethel Ruddick, of McDonald, Pa., is a pleasant guest at the home of Mr. and Mrs. William Brandt, of Pennsylvania avenue.

Mrs. William McCormick has left for Gallipolis, where she was called to the bedside of her sister, who is reported to be quite ill.

Mrs. M. McElhaney and daughter, of the East End, have gone to St. Mary's, W. Va., where they will remain several weeks visiting friends.

Another livery barn is to be opened in the East End. Its capacity will be eight horses and a number of rigs, and it is expected that the new business will be opened to the public within a month. Above the barn door will be a sign bearing the name, Alex Chafin.

There was no change in the condition of Harold, the little son of Mr. and Mrs. Lot Haney, of First avenue, who was taken suddenly ill yesterday with pneumonia.

A Sure Cure for Diarrhoea.

Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used, as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by Alvin H. Bulger.

Women and Jewels.

Jewels, candy, flowers, men—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insiduous consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Charles F. Craig's.

Quite an improvement will be commenced in the East End Monday morning when a company which has been formed in the East End recently will commence the erection of six new residences. In this company is Dr. R. J. Marshall and several other prominent business men of that part of the city. These houses will be erected on Pennsylvania avenue on the north side of the street, and almost opposite the alley leading to Chafinville.

These houses will be modern in every particular, and each will cost from $1,500 to $2,000. Work excavating for the foundation for these houses will commence Monday morning, and it is thought the contract will be completed within 90 days. These houses will be for rent, and will doubtless be quickly taken. There never was such a scarcity of houses in the East End as at present.

LIGHT DOES NOT SHINE

Pennsylvania Company Leaves the Lamp at Ralston Crossing to Rust Away.

Many months ago the Pennsylvania Railroad company placed a light at the Ralston crossing, but not for weeks has that light been lighted at nights. The lamp is now rusting away, and is useless while in its present condition. It is rusting away, and the only part of the fixture that is of any value is the pole upon which the light was placed. It seems that the railroad company, through a loose state law, is not compelled to keep lights at crossings, although there is a city ordinance in this city touching upon this point.

If the company does not propose to use the light at Ralston crossing, it would be better for the pole to be taken down, for it is no good in its present state.

Pastor Crowe Still Absent.

Owing to the absence from the city of Rev. N. M. Crowe, of the Second Presbyterian church, the services at this church tomorrow, both morning and evening, will be in charge of G. C. Fisher, a student at the Allegheny Theological seminary. A letter was received in the East End yesterday afternoon from Rev. N. M. Crowe, in which the fact was stated that he would return to the East End from his two weeks' vacation next week, and would conduct the usual services at the Second Presbyterian church one week from tomorrow.

Evening Up the Tracks.

During the past week the East Liverpool Railway company has had several men at work on the track between the Thompson pottery and the East End, raising the rail joints, and making other needed changes in the tracks. By so doing the cars were enabled to run over a portion of the road without jolting the passengers, as has been the case since the summer cars were placed on the road some months ago.

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

IMPORTANT MEETING

Of the Street Railway Employes of This City to Be Held Tonight.

A meeting of division No. 52, street railway employes, of this vity, will be held this evening in the hall on First avenue. Some very important business matters are to be considered. Some word is expected to be made known at this session relative to the conditions prevailing at Steubenville, which local there was organized by President Charles Kontnier and Mr. Calhoun, of No. 52.

Several applications for membership will be considered at this session and several applications, which were passed upon at the meeting last month, will be initiated this evening.

Back at Work.

After an absence of about 10 days, Thomas Reed, superintendent of the East Liverpool Railway company, has returned to the city and is now back at work. William Pelly, who looked after the work of Mr. Reed during his absence, has returned to his former position, that of motorman on the freight car.

Hard to Find a House.

Mr. and Mrs. Hanna, for many years residents of Marietta, will move to the East End, their household goods expecting to be received there next Wednesday. The family have spent several days in the East End looking for a house, but so far they have been unsuccessful.

Prohibition Alliance.

The regular monthly business meeting of the East End branch of the Prohibition Alliance will be held Monday evening of next week at the residence of John Schmelzenbach on Pennsylvania avenue. Members of the branch state that some important matters are to be talked over at this meeting.

Funeral of an Infant.

An infant child of Mr. and Mrs. William G. Chafin, who died Thursday, was buried at Riverview cemetery Thursday. Mr. Chafin is a brother of Alex Chafin, well known in the East End.

EAST END AFFAIRS.

A little child of Mr. and Mrs. George Martin, of Ohio avenue, is very ill.

Rev. J. N. Swan, of the East End, will occupy the pulpit of the First Baptist church, in Toronto Sunday.

Mrs. Fred Riley, of the East End, has returned to her home after a pleasant stay of two weeks at Atlantic City.

Miss Ethel Ruddick, of McDonald, Pa., is a pleasant guest at the home of Mr. and Mrs. William Brandt, of Pennsylvania avenue.

Mrs. William McCormick has left for Gallipolis, where she was called to the bedside of her sister, who is reported to be quite ill.

Mrs. M. McElhaney and daughter, of the East End, have gone to St. Mary's, W. Va., where they will remain several weeks visiting friends.

Another livery barn is to be opened in the East End. Its capacity will be eight horses and a number of rigs, and it is expected that the new business will be opened to the public within a month. Above the barn door will be a sign bearing the name, Alex Chafin.

There was no change in the condition of Harold, the little son of Mr. and Mrs. Lot Haney, of First avenue, who was taken suddenly ill yesterday with pneumonia.

MINERS' STRIKE SITUATION.

Estimates Made to the United Mine Workers' Journal.

Indianapolis, Aug. 23.—The United Mine Workers' Journal yesterday contained the following estimate of the strike situation:

Anthracite miners solid and unyielding. Prepared for a long siege.

West Virginia practically unchanged. Strikers quiet, firm and confident.

Honor Memory of McKinley.

Buffalo, N. Y., Aug. 23.—Mayor Knight has issued a proclamation suggesting that on Sunday, Sept. 14, the first anniversary of the death of President McKinley—memorial services be held in all of the churches in Buffalo and that the city be draped with the flag of our country. He has appointed a committee to arrange for other special observances fitting the occasion. He further suggests that on the day following the anniversary special exercises be held in the public schools

Dr. Martin Goes to Princeton.

M. Paxton.

A Sure Cure for Diarrhoea.

Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used, as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by Alvin H. Bulger.

Women and Jewels.

Jewels, candy, flowers, men—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insiduous consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Charles F. Craig's.

Conclusions of much interest to the workingmen in general have been reached by the commission appointed by the British Iron Trade association to visit the United States and study industrial conditions, which have been made public by the treasury bureau of statistics. Enoch James, the commissioner who paid special attention to the steel industry, after much investigation, concludes that the commonly accepted theory that American mill men work harder than the English is an error. On the contrary, he finds that the English are the men who come nearer being overworked. He also finds the American workmen steadier and better paid, as well as more ambitious. As to the cost of living, the essentials of life are as cheap in this country as in the old. The average pay of workmen at the Homestead mills, $3 per day, or 187 pounds a year, is contrasted with the average pay in Lancashire, which is 68 pounds per annum. From all of which it appears that our protective tariff, which is blamed for making the manufacturers rich, at least enables the workmen to live in about twice as much ease and comfort as their brethren across the water.

The Canadian boundary question will undoubtedly be settled some time, though perhaps the present generation will not live to see it. The boundary stood over thirty years and no serious dispute arose over it. There would have been no issue had not the discovery of gold fields made Alaska valuable. Then Canada concluded it must have a seaport. How it can have a seaport several marine leagues from shore, where the treaty fixes the boundary, is a problem, unless this government donates it, and that it does not propose to do. Ex-Senator Warner Miller of New York has just returned from a trip to Alaska. He went as far north as Skagway, which town, he says, "is the head of the canal, the point to which the Canadians have laid claim. It should never, under any circumstances, be given up. If it is, Alaska will be cut in two. It belongs to the United States as much as any portion of the territory that we obtained from Russia."

In declining to be the Democratic nominee for governor of Kentuckey, Henry Watterson said: "No unclean dollar has ever passed my hand, coming or going, and I am too old too turn rascal now. Sometimes I have declared that I should like the people to write 'Governor of Kentucky' on my tombstone; but I should rest ill in my grave if there were a suspicion of a stain upon a letter of that honorable epitaph." Some of his Democratic brethren are setting up a howl, claiming it is possible to be elected governor of Kentucky without turning rascal. But evidently they have not lived in the Blue grass country as long as Henry has.

Canada, it is said, is preparing to offer homes and a premium to the destitute workers in the anthricite region if they will settle in the British northwest. If Canada would take all the imported Hungarian and Slavonic trouble breeders out of Pennsylvania, there would doubtless be no protest on the part of the native workers.

The railroads must have more engines and more cars. The mills and shops must have more men to make them. All are finding present facilities inadequate. Better that they should be confronted with this sort of problems than to be perplexed to find enough work, as they were in the days of the Wilson tariff.

The Tom Johnson presidential boom is being pushed again. Republicans will be delighted to see the Cleveland mayor land the nomination. Such a result would rend the Democratic party worse than a third nomination for the oft-defeated Nebraskan.

The absent minded man cannot be blamed for dating his letters October. It is not he, but the weather clerk, who is rushing the fall season.

Before coming to this country to lecture Aguinaldo might hear of something to his advantage by addressing Ellen M. Stone.

The Republicans expect to gain several congressmen the coming fall. It is a blue outlook for the party without an issue.

The jail population of Ohio diminished last year. The people were busy raising more profitable crops than trouble.

Some of those 5,000 towns should still bear in mind that it takes more than population to make a city.

Neither khaki nor blue uniforms will affect the soldierly qualities of the man inside them.

FUEL SCARCITY DEPRESSED.

The Worst Feature of Week In Trade, Said Dun's Review--The Failures.

New York, Aug. 23.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

Fuel scarcity is still the one serious industrial handicap. Protracted idleness at anthracite mines increased the pressure for sofe coal and coke, and, despite new records of output, deliveries are utterly inadequate, owing to the lack of motive power. This freight blockade of coke trains has closed many furnaces, while the increasing call for transporting facilities on crop account gives little prospect of early relief. As the active blast furnace capacity of this country decreases through want of fuel, foreign pig iron is purchased more freely. Domestic needs are now far beyond all precedent, and even with the available home capacity active there would be imports. There is much that is gratifying in this state of affairs, but there is also a drawback.

Failures for the week numbered 207 in the United States, against 205 last year, and 30 in Canada, against 35 a year ago.

THE STOCK MARKET RALLIED.

Improvement, Yesterday, Over Thursday's Depression—Some of the Features.

New York Aug. 23.—Yesterday's stock market rallied from Thursday's depression and closed at materially higher prices than Thursday night. There was a considerable contraction in the volume of the trading, and it was not until late in the day that the disturbance to sentiment caused by Thursday's break in prices seemed entirely overcome. This was partly due to the evidence of continued liquidation in Colorado Fuel, which it was feared was creating a necessity to unload stocks elsewhere in the market. The appearance of support in that stock and its rally to more than a point over Thursday night was an important factor in reassuring sentiment, and its effect was emphasized by the renewed strength in Louisville and Nashville, which was supposed to be related in a speculative way to the movement in Colorado Fuel. The points of strength in the early part of the day were somewhat scattered and might be attributed to special causes. In the late dealings the strength became more general and the market broadened out under the immediate influence of a 2-point rise in Southern Pacific. The explanation of the strength of this stock was not obvious, beyond the fact that the speculative leader who has made this stock a favorite of late years is now due to arrive from Europe.

The freedom from flurry in the money market with the demand for loans to carry over until Monday had a reassuring effect and aroused hopes that the bank statement today would show a strengthened condition. If this proves to be the case, it must be by reason of loan contraction by transfer of credits to the trust companies and to foreign lenders. The interior currency movement seems still to be slightly in favor of New York.

Bonds were firm in sympathy with stocks. Total sales, par value, $1,370,000.

U. S. refunding 2s, the old 4s and the 3s advanced ¼ per cent on the last call.

GIFT TO ROOSEVELT.

Workingmen of Hartford Presented Him With a Floral Piece.

PRESIDENT REPLIED TO PRIEST.

Father Sullivan Made Presentation Speech, Which Received a Pleasing Answer—President Chatted With Workingman Mayor.

Hartford, Conn., Aug. 23.—President Roosevelt's stop in Hartford in his New England tour was marked by great enthusiasm by the crowds and he showed his pleasure at the reception he received.

In Pope park, one of the beautiful outlying recreation spots of the city, the president was greeted by 10,000 workingmen, who presented him with a magnificent floral horseshoe, inscribed: "Workingmen's Welcome to Our President."

Father Michael Sullivan made a few remarks of welcome, in which he commended the honesty and sincerity of purpose of the president in all his acts. The president responded and his remarks were frequently interrupted by applause. He said:

Reply to Father Sullivan.

"Father Sullivan: I came here to say some words this evening myself, but nothing that I can say, then, will in any way have the significance that the gift from the wage workers of Hartford has, and that the language you have used, Father Sullivan, in connection with making it use, and I am sure that Colonel Green, Senator Platt himself and all of my other hosts will pardon me for saying that no greeting that I have received or can receive in Connecticut will, or can begin to, please me so much as this one that I receive through you. (Loud applause.) Father Sullivan, I should of course be wholly unfit for the position I occupy if I did not make my best thought and best purpose to trying to serve the interests of the toiler of America (cheers)—the man who works with his hands, and of course, also the man who works with his head—if I did not try to serve each decent American citizen according to the best of my capacity, and certainly my most painstaking effort, my most resolute purpose, shall be given, and, if I may say so, is being given, to trying to do anything that can be done to help our people. Perhaps I can do this best by trying to help as well as I can their best purpose and their best thought (cries of 'good'), and that kind of representative I shall strive to be according to the light that is given me. One thing more. I should like to accept that gift as in some way personal to myself, but I would rather accept it, as I know it is meant, as a gift from Americans to the man who for the time being embodies American governmental principles—(cries of 'good' and cheers)—the principles of square and fair dealing with all men, so that all men shall have their rights under the law, that all shall be given a fair and an even chance in the struggle for life as we can best give it. I thank you." (Loud and continued applause.)

Big Crowd Was Present.

Five thousand men and women crowded the Coloseum here last night to hear the address of President Roosevelt. At least two-thirds of the audience were workingmen, and the enthusiasm manifested by them when the president alluded to the right of the toiler aroused the keenest interest. Again and again during his prefatory remarks, which were based on an incident of the afternoon—the presentation of a floral horseshoe by the workingmen—the president was interrupted by vociferous applause. Such side remarks as the following: "I do not care how honest a man may be, if he is timid he is no good," evoked prolonged laughter. Again, in speaking of the Isthmian canal, he aroused mirth by saying that one of the problems in connection with the great engineering feat would be to procure 50,000 patriotic, ambitious men to work for a ten thousand dollar fee.

President Roosevelt was introduced to the audience in the Coliseum by Colonel Jacob L. Green. Through Senator Platt he tendered his thanks to the state for the splendid reception accorded him, and to Mayor Sullivan he made his thanks to the people of the city of Hartford. Then, turning to the audience, he made a speech.

Last night after his address at the Coliseum the president was the guest of Executive Secretary John T. Robinson, on Asylum avenue. The president invited Mayor Sullivan to meet him at Mr. Robinson's home. The mayor is an ex-clerk, who was elected by the laboring men, a fact the president was familiar with, and he expressed a desire to have a personal chat with Mr. Sullivan.

President Roosevelt expressed his satisfaction at the substitution of drives for conventional handshaking. This method of entertainment seems to have given the people the opportunity desired of seeing him. It obviates the crush that has been so objectionable in previous receptions.

New Haven Was Enthusiastic.

New Haven, Conn., Aug. 23.—President Roosevelt entered upon his New England tour yesterday and New Haven was the first point visited by the nation's executive. The yacht Sylph bearing the president was sighted off New Haven harbor just before 1 o'clock. Half an hour later the vessel was lying alongside Belle dock, having made the run up New Haven harbor to the accompaniment of universal salutes.

The president acknowledged the salute from the yacht's quarter deck. He came ashore at 1:20 p. m. at a special landing constructed for the occasion. Mayor John P. Studley and a committee from the board of aldermen greeted the guest the moment he landed and conducted him to the carriage in waiting. Belle dock freight yards were roped off and the approaches were everywhere guarded by police. Troop A, Connecticut national guard, constituted the military escort. At 1:25 the procession moved. The mounted police were followed by Troop A, and then came carriages containing the president and his party and invited guests to the number of 60. The program provided for nothing but a drive and the progress of it took the distinguished visitor through the slums, the factory quarters and the center of the city. All traffic over the line of march during the hour of the president's stay was suspended and the city factories and shops were closed between 1 and 2.30 o'clock.

BRYAN'S COMMONER WARNS.

Says United States, Like Babylon, Is Destined to Fall.

Lincoln, Neb., Aug. 23.—"Like Babylon of old, the United States is destined to have its fall, with the Republican party in the role of Belshazzar." This is the pessimistic prediction of W. J. Bryan, who warns government leaders that there will be a dismal wakening if national politics are not changed. In his Commoner yesterday Mr. Bryan says:

"Just now the Republicans are rushing headlong into new conditions and are leading the country into untried paths. They are sure that we can maintain a republic here and at the same time administer a coloney in the Orient.

"They are sure that they can safely encourage the growth of private monopolies, notwithstanding the inevitable tendency of man to use power for his own selfish purposes.

"They are allowing United States judges to abuse the writ of injunction when asked against laboring men, while those who violate the anti-trust laws go free, blind to the fact that such discrimination makes more anarchists than all the speeches delivered by Herr Most."

Conclusions of much interest to the workingmen in general have been reached by the commission appointed by the British Iron Trade association to visit the United States and study industrial conditions, which have been made public by the treasury bureau of statistics. Enoch James, the commissioner who paid special attention to the steel industry, after much investigation, concludes that the commonly accepted theory that American mill men work harder than the Englisn is an error. On the contrary, he finds that the English are the men who come nearer being overworked. He also finds the American workmen steadier and better paid, as well as more ambitious. As to the cost of living, the essentials of life are as cheap in this country as in the old. The average pay of workmen at the Homestead mills, $3 per day, or 187 pounds a year, is contrasted with the average pay in Lancashire, which is 68 pounds per annum. From all of which it appears that our protective tariff, which is blamed for making the manufacturers rich, at least enables the workmen to live in about twice as much ease and comfort as their brethren across the water.

The Canadian boundary question will undoubtedly be settled some time, though perhaps the present generation will not live to see it. The boundary stood over thirty years and no serious dispute arose over it. There would have been no issue had not the discovery of gold fields made Alaska valuable. Then Canada concluded it must have a seaport. How it can have a seaport several marine leagues from shore, where the treaty fixes the boundary, is a problem, unless this government donates it, and that it does not propose to do. Ex-Senator Warner Miller of New York has just returned from a trip to Alaska. He went as far north as Skagway, which town, he says, "is the head of the canal, the point to which the Canadians have laid claim. It should never, under any circumstances, be given up. If it is, Alaska will be cut in two. It belongs to the United States as much as any portion of the territory that we obtained from Russia."

In declining to be the Democratic nominee for governor of Kentuckey, Henry Watterson said: "No unclean dollar has ever passed my hand, coming or going, and I am too old too turn rascal now. Sometimes I have declared that I should like the people to write 'Governor of Kentucky' on my tombstone; but I should rest ill in my grave if there were a suspicion of a stain upon a letter of that honorable epitaph." Some of his Democratic brethren are setting up a howl, claiming it is possible to be elected governor of Kentucky without turning rascal. But evidently they have not lived in the Blue grass country as long as Henry has.

Canada, it is said, is preparing to offer homes and a premium to the destitute workers in the anthricite region if they will settle in the British northwest. If Canada would take all the imported Hungarian and Slavonic trouble breeders out of Pennsylvania, there would doubtless be no protest on the part of the native workers.

The railroads must have more engines and more cars. The mills and shops must have more men to make them. All are finding present facilities inadequate. Better that they should be confronted with this sort of problems than to be perplexed to find enough work, as they were in the days of the Wilson tariff.

The Tom Johnson presidential boom is being pushed again. Republicans will be delighted to see the Cleveland mayor land the nomination. Such a result would rend the Democratic party worse than a third nomination for the oft-defeated Nebraskan.

The absent minded man cannot be blamed for dating his letters October. It is not he, but the weather clerk, who is rushing the fall season.

Before coming to this country to lecture Aguinaldo might hear of something to his advantage by addressing Ellen M. Stone.

The Republicans expect to gain several congressmen the coming fall. It is a blue outlook for the party without an issue.

The jail population of Ohio diminished last year. The people were busy raising more profitable crops than trouble.

Some of those 5,000 towns should still bear in mind that it takes more than population to make a city.

Neither khaki nor blue uniforms will affect the soldierly qualities of the man inside them.

FUEL SCARCITY DEPRESSED.

The Worst Feature of Week In Trade Said Dun's Review--The Failures.

New York, Aug. 23.—R. G. Dun & Co's Weekly Review of Trade, issued today, said in part:

Fuel scarcity is still the one serious industrial handicap. Protracted idleness at anthracite mines increased the pressure for sofe coal and coke, and, despite new records of output, deliveries are utterly inadequate, owing to the lack of motive power. This freight blockade of coke trains has closed many furnaces, while the increasing call for transporting facilities on crop account gives little prospect of early relief. As the active blast furnace capacity of this country decreases through want of fuel, foreign pig iron is purchased more freely. Domestic needs are now far beyond all precedent, and even with the available home capacity active there would be imports. There is much that is gratifying in this state of affairs, but there is also a draw back.

Failures for the week numbered 207 in the United States, against 205 last year, and 30 in Canada, against 35 a year ago.

THE STOCK MARKET RALLIED.

Improvement, Yesterday, Over Thursday's Depression—Some of the Features.

New York Aug. 23.—Yesterday's stock market rallied from Thursday's depression and closed at materially higher prices than Thursday night. There was a considerable contraction in the volume of the trading, and it was not until late in the day that the disturbance to sentiment caused by Thursday's break in prices seemed entirely overcome. This was partly due to the evidence of continued liquidation in Colorado Fuel, which it was feared was creating a necessity to unload stocks elsewhere in the market. The appearance of support in that stock and its rally to more than a point over Thursday night was an important factor in reassuring sentiment, and its effect was emphasized by the renewed strength in Louisville and Nashville, which was supposed to be related in a speculative way to the movement in Colorado Fuel. The points of strength in the early part of the day were somewhat scattered and might be attributed to special causes. In the late dealings the strength became more general and the market broadened out under the immediate influence of a 2-point rise in Southern Pacific. The explanation of the strength of this stock was not obvious, beyond the fact that the speculative leader who has made this stock a favorite of late years is now due to arrive from Europe.

The freedom from flurry in the money market with the demand for loans to carry over until Monday had a reassuring effect and aroused hopes that the bank statement today would show a strengthened condition. If this proves to be the case, it must be by reason of loan contraction by transfer of credits to the trust companies and to foreign lenders. The interior currency movement seems still to be slightly in favor of New York.

Bonds were firm in sympathy with stocks. Total sales, par value, $1,370,000.

U. S. refunding 2s, the old 4s and the 3s advanced ¼ per cent on the last call.

GIFT TO ROOSEVELT.

Workingmen of Hartford Presented Him With a Floral Piece.

PRESIDENT REPLIED TO PRIEST.

Father Sullivan Made Presentation Speech, Which Received a Pleasing Answer—President Chatted With Workingman Mayor.

Hartford, Conn., Aug. 23.—President Roosevelt's stop in Hartford in his New England tour was marked by great enthusiasm by the crowds and he showed his pleasure at the reception he received.

In Pope park, one of the beautiful outlying recreation spots of the city, the president was greeted by 10,000 workingmen, who presented him with a magnificent floral horseshoe, inscribed: "Workingmen's Welcome to Our President."

Father Michael Sullivan made a few remarks of welcome, in which he commended the honesty and sincerity of purpose of the president in all his acts. The president responded and his remarks were frequently interrupted by applause. He said:

Reply to Father Sullivan.

"Father Sullivan: I came here to say some words this evening myself, but nothing that I can say, then, will in any way have the significance that the gift from the wage workers of Hartford has, and that the language you have used, Father Sullivan, in connection with making it use, and I am sure that Colonel Green, Senator Platt himself and all of my other hosts will pardon me for saying that no greeting that I have received or can receive in Connecticut will, or can begin to, please me so much as this one that I receive through you. (Loud applause.) Father Sullivan, I should of course be wholly unfit for the position I occupy if I did not give my best thought and best purpose to trying to serve the interests of the toiler of America (cheers)—the man who works with his hands, and of course, also the man who works with his head—if I did not try to serve each decent American citizen according to the best of my capacity, and certainly my most painstaking effort, my most resolute purpose, shall be given, and, if I may say so, is being given, to trying to do anything that can be done to help our people. Perhaps I can do this best by trying to help as well as I can their best purpose and their best thought (cries of 'good'), and that kind of representative I shall strive to be according to the light that is given me. One thing more. I should like to accept that gift as in some way personal to myself, but I would rather accept it, as I know it is meant, as a gift from Americans to the man who for the time being embodies American governmental principles—(cries of 'good' and cheers)—the principles of square and fair dealing with all men, so that all men shall have their rights under the law, that all shall be given a fair and an even chance in the struggle for life as we can best give it. I thank you." (Loud and continued applause.)

Big Crowd Was Present.

Five thousand men and women crowded the Coloseum here last night to hear the address of President Roosevelt. At least two-thirds of the audience were workingmen, and the enthusiasm manifested by them when the president alluded to the right of the toiler aroused the keenest interest. Again and again during his prefatory remarks, which were based on an incident of the afternoon—the presentation of a floral horseshoe by the workingmen—the president was interrupted by vociferous applause. Such side remarks as the following: "I do not care how honest a man may be, if he is timid he is no good," evoked prolonged laughter. Again, in speaking of the Isthmian canal, he aroused mirth by saying that one of the problems in connection with the great engineering feat would be to procure 50,000 patriotic, ambitious men to work for a ten thousand dollar fee.

President Roosevelt was introduced to the audience in the Coliseum by Colonel Jacob L. Green. Through Senator Platt he tendered his thanks to the state for the splendid reception accorded him, and to Mayor Sullivan he made his thanks to the people of the city of Hartford. Then, turning to the audience, he made a speech.

Last night after his address at the Coliseum the president was the guest of Executive Secretary John T. Robinson, on Asylum avenue. The president invited Mayor Sullivan to meet him at Mr. Robinson's home. The mayor is an ex-clerk, who was elected by the laboring men, a fact the president was familiar with, and he expressed a desire to have a personal chat with Mr. Sullivan.

President Roosevelt expressed his satisfaction at the substitution of drives for conventional handshaking. This method of entertainment seems to have given the people the opportunity desired of seeing him. It obviates the crush that has been so objectionable in previous receptions.

New Haven Was Enthusiastic.

Neew Haven, Conn., Aug. 23.—President Roosevelt entered upon his New England tour yesterday and New Haven was the first point visited by the nation's executive. The yacht Sylph bearing the president was sighted off New Haven harbor just before 1 o'clock. Half an hour later the vessel was lying alongside Belle dock, having made the run up New Haven harbor to the accompaniment of universal salutes.

The president acknowledged the salute from the yacht's quarter deck. He came ashore at 1:20 p. m. at a special landing constructed for the occasion. Mayor John P. Studley and a committee from the board of aldermen greeted the guest the moment he landed and conducted him to the carriage in waiting. Belle dock freight yards were roped off and the approaches were everywhere guarded by police. Troop A, Connecticut national guard, constituted the military escort. At 1:25 the procession moved. The mounted police were followed by Troop A, and then came carriages containing the president and his party and invited guests to the number of 60. The program provided for nothing but a drive and the progress of it took the distinguished visitor through the slums, the factory quarters and the center of the city. All traffic over the line of march during the hour of the president's stay was suspended and the city factories and shops were closed between 1 and 2.30 o'clock.

WELLSVILLE

A BUSY SESSION HELD BY COUNCIL

County Commissioners Coming Soon to Co-Operate With the City.

AN IMPORTANT NEW ROAD

Cemetery Trustees to Pay One-Half for Paving Spring Hill Avenue—Payment of Several Bills Due Contractors Provided For.

A host of unfinished business was transacted by the Wellsville council last evening at the special meeting. In the absence of City Clerk J. W. McQueen, John F. McQueen acted as clerk pro tem.

A communication from Trades and Labor Council was read asking the solicitor and council to participate in the Labor day parade. Council thankfully accepted the invitation and placed themselves at the disposal of the Trades and Labor Council and instructed the clerk to notify Trades Council.

A communication was read to the effect that the county commissioners will be in this city in a few days for the purpose of letting the contract for a new road entering this city, a full account of which was published in this column a few days ago. In the communication it was asked that the city engineer be instructed to be at the disposal of the commissioners on that day to aid them in any way that he possibly could. The matter was brought to a motion and was finally carried.

It was reported that the cemetery trustees had a surplus fund on their hands which might go towards paying for part of the paving of Spring Hill avenue. The matter was discussed for some time, and it was found that the cemetery trustees would agree to pay for one-half the expense of paving that thoroughfare. They would rather do this than go to the expense of putting in a new sidewalk all of the way up the hill.

A motion was at once made ordering the clerk to advertise at once for bids for the paving of Spring Hill avenue a width of 15 feet.

Five resolutions were passed calling for the issuing of certificates of indebtedness for different paving work by Rinehart Bros. and E. A. Freshwater.

Resolution No. 1—For the issuing of certificates of indebtedness to E. A. Freshwater for $285.20 due and payable four months after date at 6 per cent interest. For work on Fourth street paving.

Resolution No. 2—For the issuing of certificates of indebtedness to E. A. Freshwater for $100.80 due and payable five months after date at the rate of 6 per cent. For work on Maple alley.

The other three resolutions called for the issuing of certificates of indebtedness to Rinehart Bros, due and payable five months after at the rate of 6 per cent. They are all dated August 22, and are for work on Clark avenue to the amount of $1,156.50, Commerce street to the amount of $261 and Twenty-second street to the amount of $106.80. All five of the resolutions were passed.

City Engineer Leith took the floor and objected to the grade of Clark avenue, claiming that the present grade is such that the street will be left in a peaked condition, making a bad appearance. Mr. Leith stated that the cost of changing the grade would amount to about $00, or a rate of 40 cents per yard. No action was taken because of there being only seven councilmen present, as eight are required to transact business of this character.

Objection was made by one of the councilmen about the condition of Fifteenth and Seventeenth street. He said that some action ought to be taken by council towards draining the water off these two streets, which has been standing there for some time. The matter was left in the hands of the improvement committee, which was given the power to act. The matter of clearing away the filth at the foot of Seventh street was also left in the hands of this committee.

Councilman McLain at this point called the attention of council to a very defective spot in the Kelly avenue paving. It seems that there is a small spring under the paving at the place mentioned and the only way to get out of the difficulty would be to drain this water off by sewer, as it is this water that causes the defective place.

A committee composed of Councilmen Shoub, McLain and Brennan were appointed with power to act and investigate the matter.

After many other minor matters had been discussed, but no action taken, council adjourned.

FIGHTERS DISPUTE

Over Who Gets the $300 — Another Match Is Probable.

Lawrence Lutz, the Beaver Falls pugilist, who succeeded in knocking out "Skinny" Bunting early yesterday morning, was here yesterday afternoon attempting to secure the $300 forfeit money which is at present in the hands of S. W. Connor of this city. It is contended that the money rightfully belongs to Bunting and that he will receive it in a day or two, although Mr. Connor at present is undecided as to whom it rightfully belongs.

The dispute is over the date, the articles of agreement stating that the fight was to have been on August 21 at 11 o'clock. Bunting was there at the time and ready to go into the ring, it is claimed, while Lutz did not arrive until after midnight or on August 22.

Bunting yesterday challenged Lutz to another fight under different circumstances within 60 or 90 days from date in a closed hall, allowing the Pittsburg Dispatch to appoint a referee. Lutz did not accept, but said that he would fight "Skinny" at the Nonpareil club in Beaver Falls in 60 days, providing Bunting would agree to the regular club referee. Bunting would fight Lutz in Beaver Falls for $500, providing Lutz would agree to allow the Pittsburg Dispatch to name the referee. Lutz did not state whether he would accept, but it is thought that he will and that 60 days will see them do battle once more.

Entertained Her Friends.

Miss Mary Anderson, who resides at the corner of Lisbon and Second streets, entertained about 20 lady and gentlemen frienas last evening in honor of the Misses Silver and Maddox, both of Washington, D. C., who are visiting friends in this city. Music, dancing and games were enjoyed and light refreshments were served.

Took Bunting's Wheel.

Ed Bunting, pugilist, lost a bicycle yesterday. It was seen disappearing in company with John West, who hails from Pittsburg. He is also a fighter. The tire got punctured and West had to walk. Bunting overtook him and thumped him. Officer Thorn arrested West.

Arrested and Fined.

Harry Glover was arrested yesterday morning by Chief Thorn for being drunk and disorderly. He was given a hearing before Mayor Fogo yesterday afternoon and was fined $4.60.

HIS BIRTHDAY

Handsome Presents Bestowed Upon Physical Director Stephens, of the Y. M. C. A.

The twenty-ninth anniversary of P. J. Stephens, physical director of the Y. M. C. A., was remembered by members of his classes in a manner most complimentary to the professor. Several of them pooled issues and gave him a handsome watchfob, with superb gold ornaments.

Another gift was a beautiful scarf pin; still another, from the juniors and intermediates, a Bagster's art Bible. A box of candy and two other books were among the presents he received.

The director's faithful work for his classes is more and more appreciated.

The Rev. James Barr, pastor of the Presbyterian church at New Wilmington, Pa., has received a call to Bloomington, Ind., and will leave for that place about the first of September.

Ten thousand persons attended the eleventh annual reunion of the people of the Ligonier valley at Idlewild park. Large delegations were also present from Greensburg, Irwin, Scottdale, Johnstown, Altoona and Pittsburg.

Michael Morton, 15 years old, was whirled around a shaft 125 times in three minutes, at a Suterville, Pa., brick works, but escaped with a few bruises and the loss of almost all his clothing.

At York, Pa., Mrs. Annie Rebman, a well-to-do widow, has elected to remain in jail rather than obey the court's order to pay $1 a week toward the support of her 96-year-old father. She says the money is spent for liquor.

NEW BALL FIELD WAS PUT TO USE

The Y. M. C. A. Athletic Grounds Opened With a Game Yesterday.

HOME TEAM VICTORIOUS

By Just One Score, Made in the Final Inning—Plenty of Talent Apparent in the Contest—Patterson Pitched Well.

The new Y. M. C. A. Athletic grounds were formerly opened yesterday afternoon by a base ball game between the H. P. Ford club, of Pittsburg, and the Y. M. C. A. team, of this city. Had it not been for the one inning the game would have been cleverly played. As it was, no cleaner ball playing has been seen in this part of the country. The attendance was not large, although there were a few in the grand stand, and treble the number sat on the railroad tracks and watched the game.

The grounds are somewhat rough at present, but after a little use and with the aid of a heavy roller, the field will be best in this part of the state.

Patterson, of Wellsville, pitched a good game for the local team, while McNutt, who played his first game in eight years, landed on the ball several times and made three hits during the game, one of which was for three sacks, and resulted in the scoring of two runs.

Then there was "Bobby" Smurthwaite, one of the old-time professional players. Bobby had not been in a game for two years, so he said, and felt a little stiff. However, he demonstrated clearly that he is just as good a player today as he ever was, not excepting the days when he played short for the old Steubenville Champions, a team that was known all through eastern Ohio for its fast fielding. Joe Carey also showed that there was still some base ball blood left in him. He also made a three-base hit and fielded everything that came his way.

Through rank decisions on balls and strikes, Umpire Hester gave the visitors two runs in the sixth inning. It was also in this inning that Hufnagle, who played center field for the Fords, clearly demonstrated that he could play baby ball. His actions caused him to be hooted by the crowd. It was all caused because Umpire Hester called a strike on him which Hufnagle though should be a ball. "I won't play," said the big fielder, and then sat down on his bat. It is to be hoped that his actions will not be repeated again today. This crack was the only thing that marred the pleasure of the game, and taking it all through the game was a good one.

Lawrence, the pitcher for the Ford's is an old Homestead player, and defeated the East Liverpool team during its recent visit to that town, and he also defeated the All-Cubans.

The score:

Y. M. C. A. .....0 0 0 5 1 0 0 0 1—7
H. P. Fords .....0 0 0 1 0 3 1 0 1—6

Hits, Y. M. C. A., 9; H. P. Fords, 6. Errors, Y. M. C. A., 6; H. P. Fords, 4. Batteries, Patterson and David; Lawrence and McDermott. Two-base hits, McNutt, Patterson. Three-base hits, McNutt, Carey. Struck out, by Patterson, 13; by Lawrence, 4. Umpire, Hester.

GAS EXPLOSION

Inflicts Painful Burns On Benjamin Deame, a Mill Worker.

Benjamin Deame, residing in the Shrader block, on Virginia avenue, was badly burned about the face and neck this morning. Deame is employed at the mill, and his duties require him to feed a gas producer. He was in the act of emptying a hopper of coal into the apparatus, when the flames shot out from a peep hole and ignited a quantity of superfluous gas above the machine.

An explosion followed, and the man was painfully burned. He was taken to his home and medical aid summoned. The burns were dressed, and the injured man is now resting easy. It will require several weeks for the wounds to heal.

Building is Brisk.

Building operations are being pushed in Chester, and contractors are winding up the work in hand in order to have it all completed before cold weather sets in. The foundation for the Faulk Bros.' mill has been finished and carpenters will begin their work without delay. The King business block in Carolina avenue is almost ready for the plasterers, while the large Allison building near the park will be fully completed in a few days.

Plumbers Picnic Today.

The excursion and picnic of the master plumbers of Pittsburg is being held at Rock Springs today. This is one of the few outings to be held at the resort this season where those in charge have purchased all the privileges, and the entire crowd will enjoy the numerous amusements free of all charge. Arrangements have been made for the accomodation of 1,200 picnickers.

Mrs. Banfield's Suit Settled.

The forcible detention case of Mrs. W. A. Banfield against Mary Riley has been settled. The interested parties met at the office of Justice Johnston in company with thir attorneys, and a settlement was effected without taking the case to trial. Mrs. Riley will pay $12.50 and vacate the premises next Monday.

Attachment Suits.

Mrs. J. B. Molen has begun two attachment suits in Justice Johnston's court against Roy McCalmont and Ed. Stoffel, employes of the Chester tin mill. Both claims are for board, that against the former for $22.80 and the latter for $25. The cases are being tried this afternoon.

Loop Into the Park.

The grading preparatory to putting in a loop at the park will be completed today, and the tracks will be laid early next week. It is thought the entire job can be completed by the first of the month.

Baseball Contest.

The fourth game of the series between the New Cumberland and Toronto baseball team is being played at the former place this afternoon. A number of Chester people are in attendance.

CHESTER NOTES.

Sheriff C. E. Allison, was in Chester today visiting friends.

Harry Chapman has resigned his position as oddman at the Taylor, Smith & Taylor pottery.

James Dawson and Thomas Oakes hold the record for squirrel shooting. They got eight in one day.

Miss Bessie Swearingen has severed her connection with the firm of Allison & Hoobs, and returned home.

WELLSVILLE

A BUSY SESSION HELD BY COUNCIL

County Commissioners Coming Soon to Co-Operate With the City.

AN IMPORTANT NEW ROAD

Cemetery Trustees to Pay One-Half for Paving Spring Hill Avenue—Payment of Several Bills Due Contractors Provided For.

A host of unfinished business was transacted by the Wellsville council last evening at the special meeting. In the absence of City Clerk J. W. McQueen, John F. McQueen acted as clerk pro tem.

A communication from Trades and Labor Council was read asking the solicitor and council to participate in the Labor day parade. Council thankfully accepted the invitation and placed themselves at the disposal of the Trades and Labor Council and instructed the clerk to notify Trades Council.

A communication was read to the effect that the county commissioners will be in this city in a few days for the purpose of letting the contract for a new road entering this city, a full account of which was published in this column a few days ago. In the communication it was asked that the city engineer be instructed to be at the disposal of the commissioners on that day to aid them in any way that he possibly could. The matter was brought to a motion and was finally carried.

It was reported that the cemetery trustees had a surplus fund on their hands which might go towards paying for part of the paving of Spring Hill avenue. The matter was discussed for some time, and it was found that the cemetery trustees would agree to pay for one-half the expense of paving that thoroughfare. They would rather do this than go to the expense of putting in a new sidewalk all of the way up the hill.

A motion was at once made ordering the clerk to advertise at once for bids for the paving of Spring Hill avenue a width of 15 feet.

Five resolutions were passed calling for the issuing of certificates of indebtedness for different paving work by Rinehart Bros. and E. A. Freshwater.

Resolution No. 1—For the issuing of certificates of indebtedness to E. A. Freshwater for $285.20 due and payable four months after date at 6 per cent interest. For work on Fourth street paving.

Resolution No. 2—For the issuing of certificates of indebtedness to E. A. Freshwater for $100.80 due and payable five months after date at the rate of 6 per cent. For work on Maple alley.

The other three resolutions called for the issuing of certificates of indebtedness to Rinehart Bros, due and payable five months after at the rate of 6 per cent. They are all dated August 22, and are for work on Clark avenue to the amount of $1,156.50, Commerce street to the amount of $261 and Twenty-second street to the amount of $106.80. All five of the resolutions were passed.

City Engineer Leith took the floor and objected to the grade of Clark avenue, claiming that the present grade is such that the street will be left in a peaked condition, making a bad appearance. Mr. Leith stated that the cost of changing the grade would amount to about $00, or a rate of 40 cents per yard. No action was taken because of there being only seven councilmen present, as eight are required to transact business of this character.

Objection was made by one of the councilmen about the condition of Fifteenth and Seventeenth street. He said that some action ought to be taken by council towards draining the water off these two streets, which has been standing there for some time. The matter was left in the hands of the improvement committee, which was given the power to act. The matter of clearing away the filth at the foot of Seventh street was also left in the hands of this committee.

Councilman McLain at this point called the attention of council to a very defective spot in the Kelly avenue paving. It seems that there is a small spring under the paving at the place mentioned and the only way to get out of the difficulty would be to drain this water off by sewer, as it is this water that causes the defective place.

A committee composed of Councilmen Shoub, McLain and Brennan were appointed with power to act and investigate the matter.

After many other minor matters had been discussed, but no action taken, council adjourned.

FIGHTERS DISPUTE

Over Who Gets the $300 — Another Match Is Probable.

Lawrence Lutz, the Beaver Falls pugilist, who succeeded in knocking out "Skinny" Bunting early yesterday morning, was here yesterday afternoon attempting to secure the $300 forfeit money which is at present in the hands of S. W. Connor of this city. It is contended that the money rightfully belongs to Bunting and that he will receive it in a day or two, although Mr. Connor at present is undecided as to whom it rightfully belongs.

The dispute is over the date, the articles of agreement stating that the fight was to have been on August 21 at 11 o'clock. Bunting was there at the time and ready to go into the ring, it is claimed, while Lutz did not arrive until after midnight or on August 22.

Bunting yesterday challenged Lutz to another fight under different circumstances within 60 or 90 days from date in a closed hall, allowing the Pittsburg Dispatch to appoint a referee. Lutz did not accept, but said that he would fight "Skinny" at the Nonpareil club in Beaver Falls in 60 days, providing Bunting would agree to the regular club referee. Bunting would fight Lutz in Beaver Falls for $500, providing Lutz would agree to allow the Pittsburg Dispatch to name the referee. Lutz did not state whether he would accept, but it is thought that he will and that 60 days will see them do battle once more.

Entertained Her Friends.

Miss Mary Anderson, who resides at the corner of Lisbon and Second streets, entertained about 20 lady and gentlemen friends last evening in honor of the Misses Silver and Maddox, both of Washington, D. C., who are visiting friends in this city. Music, dancing and games were enjoyed and light refreshments were served.

Took Bunting's Wheel.

Ed Bunting, pugilist, lost a bicycle yesterday. It was seen disappearing in company with John West, who hails from Pittsburg. He is also a fighter. The tire got punctured and West had to walk. Bunting overtook him and thumped him. Officer Thorn arrested West.

Arrested and Fined.

Harry Glover was arrested yesterday morning by Chief Thorn for being drunk and disorderly. He was given a hearing before Mayor Fogo yesterday afternoon and was fined $4.60.

HIS BIRTHDAY

Handsome Presents Bestowed Upon Physical Director Stephens, of the Y. M. C. A.

The twenty-ninth anniversary of P. J. Stephens, physical director of the Y. M. C. A., was remembered by members of his classes in a manner most complimentary to the professor. Several of them pooled issues and gave him a handsome watchfob, with superb gold ornaments.

Another gift was a beautiful scarf pin; still another, from the juniors and intermediates, a Bagster's art Bible. A box of candy and two other books were among the presents he received.

The director's faithful work for his classes is more and more appreciated.

SCHEME TO SETTLE STRIKE.

Rev. S. Edward Young, of Pittsburg, Working to This End.

Shenandoah, Pa., Aug. 23.—Rev. S. Edward Young, pastor of the Second Presbyterian church, of Pittsburg, has a plan for the settlement of the coal strike which he will submit to President Mitchell and the operators within the next few days. Mr. Young has spent the last 10 days in this region during which time he has made a thorough investigation of the cause which led up to the strike.

His plan has already received the approval of the strike leaders, to whom it was submitted, and if President Mitchell endorses it upon his return to strike headquarters, Mr. Young will proceed at once to New York to confer with the operators and outline plans for them. The details of the plans have not been given out, but it is known that it consists of arbitration along lines that have never before been suggested, and that it would require the co-operation of President Roosevelt.

Mr. Young has implicit confidence in the success of his scheme.

CONFLICTING TESTIMONY GIVEN.

Some of Witnesses Testificed Ronemus, Not McElmoyle, Killed Strike Leader Sharpe.

Tamaqua, Pa., Aug. 23.—Conflicting testimony was given yesterday at the inquest held to place the responsibility for the death of Patrick Sharpe, who was killed during a clash between strikers and deputies at Mesquehoning on Monday evening. Twelve witnesses swore that Sharpe had been killed by Harry McElmoyle, while five others hold that the fatal shot had been fired by William Ronemus. One witness said Ronemus admitted that he shot him. Some of the witnesses claimed that Sharpe had not struck or abused any of the deputies, while others said that he had.

After hearing the testimony af the deputies the jury adjourned for deliberation. A verdict will be rendered this afternoon.

Yesterday morning Ezekiel John, the lieutenant of the deputies, was arrested, charged with complicity in the murder of Sharpe. He is now in the Mauch Chunk jail.

ELEVEN INNINGS TO DECIDE GAME

Homestead Then Came Out Ahead Owing to the Locals' Errors.

IT WAS A FINE CONTEST

Neither Side Scored During the First Four Innings And the Score Stood 3 to 3 in the Ninth—A Hard Fight And Hard Luck for Our Boys.

Well, we'll have to try it over again Saturday afternoon with Homestead. After having the game won yesterday it was given to the visitors on errors. The locals made a hard fight to regain the ground they had lost, and it was not until after 11 innings of play that the visitors were able to wrest victory from them.

The Homestead boys did it to perfection, however, and in the eleventh inning Winters was touched up for three hits and four runs which cinched the game. "Old Man" Reark wears a downcast look. He dropped another. And it was one which told, for otherwise the game would have gone to East Liverpool by a score of 3 to 2 at least.

The visitors had not been able to score until in the fifth inning Reark dropped Bennett's long fly to center field. There were a number of the fans that were unable to realize that Reark had dropped the ball, as it bounced back up in his hands again. But he did, and Bennett scored on a long hit to right field by Torreyson.

When the visitors came in for the first half of the ninth the score was 3 to 1 in favor of the locals and everything looked well. Osbourn was the first up, but Jones, who is scheduled to pitch today, was substituted for him, and made a clean hit. Bennett then followed with another single.

Nagle and Torreyson followed with singles and Bennett and Jones scored, making a tie. Neither side scored until in the eleventh the visitors opened up their arsenal and took a lead that overshadowed the locals and they were unable to make even an attempt to overcome it.

Jones, who had taken Osbourn's place in the game, was the first man up in the eleventh and he reached first on an error by Maag. He was advanced and Bennett reached first on the second hit by the latter. Winters then became wild and Torreyson was hit by a pitched ball and the bases were filled.

Marshall was then up. Nothing was expected of him, for the reason that he had not made a single hit in the two games. But the unexpected always happens and Marshall picked out a nice one for two bags and Bennett and Jones scored. Both Torreyson and Marshall scored a moment later on a long single by Mullen.

East Liverpool made its runs in the sixth and seventh. Bennett was all that could be expected of a pitcher, and the locals were unable to do much with his delivery. No hits or runs had been scored up to the sixth inning when L. Emmerling lined out a safe one. Winters then hit safe and Emmerling went to third and home on an error by Marshall at second.

Again in the seventh Davis hit safe and Heckathorn picked out four bad ones. Both players scored on a long hit by Webb. After this the locals never had a chance of scoring and the game ended with the score 7 to 3.

NOTES OF THE GAME.

Maley will probably be in the box against Jones.

It was no fault of Winters that he did not win his game.

Just to think! Reark dropped another. But then just think of the number of hard chances he has had and improved.

A number of local sports who backed Homestead for the two games are thanking themselves that they have been able to split even.

Finch umpired another good game. There has as yet been no cause for complaint, although the usual kickers have the occasional groan when things do not go to suit them.

Jones was put in to bat for Osbourn in the ninth and he had to be kept in the game. The visitors had no cause to worry over this fact, as he secured one hit and two runs in the three innings.

Lafe Emmerling received a bad jolt to the thumb on his right hand in the first part of the seventh. An effort was made to get the injured member in shape so that he could continue in the game, but his brother Duff was compelled to take his place. Both played a good game back of the bat.

ACT QUICKLY

Delay Has Been Dangerous in East Liverpool.

Do the right thing at the right time.
Act quickly in times of danger.
Backache is kidney danger.
Doan's Kidney Pills act quickly.
Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this.

Mrs. Caroline White of 225 Railroad street, East End, says: "I used Doan's Kidney Pills and found great relief from the treatment, although I am 70 years of age, and had about given up all hope of ever being helped. I took medicine and my back ached just the same, grew stiff and lame when sitting long or when lying in bed and sharp twinges of pain and other symptoms convinced me my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of, I got a box at the W. & W. Pharmacy. After using that for a short time I could plainly notice the good effects they were causing. I continued some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advise others to try them feeling confident if they do so they will have no cause to regret it."

WAR GAME GOES ON.

Higginson Still Continued to Watch For the "Enemy's Fleet.

ATTACK WAS HOURLY EXPECTED

Under the Rules of the Contest Pillsbury Was Due Near the Coast. Movements of the Ships That Were Watching.

Rockport, Mass., Aug. 23.—When the sun came up yesterday the atmosphere was as clear as it could be, and extended observations were made from all signal and lookout stations. Each reported that all was well and that there was no sign of the enemy. The receipt of these early messages interrupted the quiet which had prevailed at the naval headquarters here since 2 a. m., unbroken save by one report received from Portland at 3:45 a. m. This report was like most others sent in, that all was quiet. The report added that scout boats were sighted outside the harbor.

It was not long after sunrise that the fog set in. It was a dense cloud and first impenetrable to the eye beyond a distance of 10 or 12 feet. Just before 9 o'clock there were indications that the sun was burning through the mist on shore.

Little Known on Shore.

Aside from the fact that the Kearsarge, at least, was still at anchor off this place, little was acthally known here as to the positions of the ships of Admiral Higginson's squadron. Scouts had been reported off Portland. The cruiser Brooklyn skirted the end of Cape Cod early in the forenoon and went across to Plymouth. Thus both ends of the line of defense were found to be well guarded, and as the naval experts here felt reasonably sure that the Alabama and Massachusetts were with the Kearsarge off Straits Mouth Point, the center was thought to be safe. The station keepers here have been advised that the lookout line has been extended to Sankaty Head, on Nantucket, where the wireless telegraph station is located. From there all incoming ships will be queried as to whether or not they have seen any of Commander Pillsbury's ships and the results of these investigations will be signalled to the scout boats of the land stations.

By 11 o'clock the fog had lifted and the battleships were seen in their usual positions. Observation in the distance, however, was impossible, owing to a haze which hung low over the water. All the signal and lookout stations reported during the forenoon, showing that the message system was intact. All the scout boats were heard from before 11 o'clock, either at the station here or on board the Kearsarge.

It is larned that the rules of the manoeuvres permit the destruction of the ships of the opposing squadron and it appears that the fear that Pillsbury may dash in and "disable" one of his vessels is one reason why the defending fleet is kept so compact by Admiral Higginson.

Weather Conditions Were Changeable.

In the afternoon the weather conditions again were changeable. At 3 o'clock the fog deserted Rockport and passed far out beyond the battleships, hanging away in the east more in the form of smoke.

From Straits Mouth Point the trio of warships could be discerned very plainly. Then suddenly it seemed as if the bank of fog were engaged in a race to the coast line again. The battleships could now no longer signal each other and the stations on Pigeon Hill and Straits Mouth were rendered for the time being out of action.

During the time that the fog prevailed the steel fighters remained motionless. Then confronting Admiral Higginson and his co-workers was the danger in navigating their vessels.

One Killed In Incline Accident.

Kansas City, Aug. 22.—A cable train crowded with passengers escaped from the control of the gripman in charge at the top of the Ninth street incline early yesterday morning, crashed into a train standing at the bottom. W. L. Taylor, gripman on the descending car, was killed, and a score or more passengers were passengers were bruised. The incline is 300 yards in length and descends at an angle of 45 degrees.

Relations With Turkey Resumed.

Washington, Aug. 23.—The state department has received a dispatch from Minister Leishman, at Constantinople, saying that amicable relations have been re-established between the legation and the porte. The sultan has directed that a portion of the agreement reached between Minister Leishman and the secretary of foreign affairs be carried out.

Receiver For an Ohio Corporation.

Columbus, O., Aug. 23.—A. L. Thurman was yesterday appointed receiver of the Mercantile Assurance company, an Ohio corporation. Three suits have been brought by stockholders, charging misrepresentation in the sale of stock. The company has been establishing branches in other states.

HACKING.

That word hacking is expressive to those who have experienced the aggravating constant cough, which is called a hacking cough. Sometimes it is the result of a cold, or of grip, and sometimes it is a consequence of catarrh,

which unchecked has gradually involved the lungs in disease. Such a cough finds its cure in Dr. Pierce's Golden Medical Discovery which cures bronchitis, obstinate coughs, lung disease, hemorrhage, and conditions which, if neglected or unskilfully treated, lead to consumption.

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the State of North Carolina, who said the trouble had reached my lungs," writes Mr. J. M. Patton, of Clotho, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicines. Will say Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me, and to-day I am well and hearty, and I will say further that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicines to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all.",

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

SCHEME TO SETTLE STRIKE.

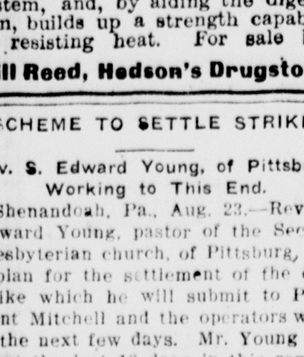

Rev. S. Edward Young, of Pittsburg, Working to This End.

Shenandoah, Pa., Aug. 23.—Rev. S. Edward Young, pastor of the Second Presbyterian church, of Pittsburg, has a plan for the settlement of the coal strike which he will submit to President Mitchell and the operators within the next few days. Mr. Young has spent the last 10 days in this region during which time he has made a thorough investigation of the cause which led up to the strike.

His plan has already received the approval of the strike leaders, to whom it was submitted, and if President Mitchell endorses it upon his return to strike headquarters, Mr. Young will proceed at once to New York to confer with the operators and outline plans for them. The details of the plans have not been given out, but it is known that it consists of arbitration along lines that have never before been suggested, and that it would require the co-operation of President Roosevelt.

Mr. Young has implicit confidence in the success of his scheme.

CONFLICTING TESTIMONY GIVEN.

Some of Witnesses Testificed Ronemus, Not McElmoyle, Killed Strike Leader Sharpe.

Tamaqua, Pa., Aug. 23.—Conflicting testimony was given yesterday at the inquest held to place the responsibility for the death of Patrick Sharpe, who was killed during a clash between strikers and deputies at Mesquehoning on Monday evening. Twelve witnesses swore that Sharpe had been killed by Harry McElmoyle, while five others hold that the fatal shot had been fired by William Ronemus. One witness said Ronemus admitted that he shot him. Some of the witnesses claimed that Sharpe had not struck or abused any of the deputies, while others said that he had.

After hearing the testimony af the deputies the jury adjourned for deliberation. A verdict will be rendered this afternoon.

Yesterday morning Ezekiel John, the lieutenant of the deputies, was arrested, charged with complicity in the murder of Sharpe. He is now in the Mauch Chunk jail.

Finch umpired another good game. There has as yet been no cause for complaint, although the usual kickers have the occasional groan when things do not go to suit them.

Jones was put in to bat for Osbourn in the ninth and he had to be kept in the game. The visitors had no cause to worry over this fact, as he secured one hit and two runs in the three innings.

Lafe Emmerling received a bad jolt to the thumb on his right hand in the first part of the seventh. An effort was made to get the injured member in shape so that he could continue in the game, but his brother Duff was compelled to take his place. Both played a good game back of the bat.

WRIGHT MEDICAL CO., Columbus, Ohio.

ACT QUICKLY

Delay Has Been Dangerous in East Liverpool.

Do the right thing at the right time.
Act quickly in times of danger.
Backache is kidney danger.
Doan's Kidney Pills act quickly.
Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this.

Mrs. Caroline White of 225 Railroad street, East End, says: "I used Doan's Kidney Pills and found great relief from the treatment, although I am 70 years of age, and had about given up all hope of ever being helped. I took medicine and my back ached just the same, grew stiff and lame when sitting long or when lying in bed and sharp twinges of pain and other symptoms convinced me my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of, I got a box at the W. & W. Pharmacy. After using that for a short time I could plainly notice the good effects they were causing. I continued some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advise others to try them feeling confident if they do so they will have no cause to regret it."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no other.

Sold by W. & W. pharmacy.

WAR GAME GOES ON.

Higginson Still Continued to Watch For the "Enemy's Fleet.

ATTACK WAS HOURLY EXPECTED

Under the Rules of the Contest Pillsbury Was Due Near the Coast. Movements of the Ships That Were Watching.

Rockport, Mass., Aug. 23.—When the sun came up yesterday the atmosphere was as clear as it could be, and extended observations were made from all signal and lookout stations. Each reported that all was well and that there was no sign of the enemy. The receipt of these early messages interrupted the quiet which had prevailed at the naval headquarters here since 2 a. m., unbroken save by one report received from Portland at 3:45 a. m. This report was like most others sent in, that all was quiet. The report added that scout boats were sighted outside the harbor.

It was not long after sunrise that the fog set in. It was a dense cloud and first impenetrable to the eye beyond a distance of 10 or 12 feet. Just before 9 o'clock there were indications that the sun was burning through the mist on shore.

Little Known on Shore.

Aside from the fact that the Kearsarge, at least, was still at anchor off this place, little was acthally known here as to the positions of the ships of Admiral Higginson's squadron. Scouts had been reported off Portland. The cruiser Brooklyn skirted the end of Cape Cod early in the forenoon and went across to Plymouth. Thus both ends of the line of defense were found to be well guarded, and as the naval experts here felt reasonably sure that the Alabama and Massachusetts were with the Kearsarge off Straits Mouth Point, the center was thought to be safe. The station keepers here have been advised that the lookout line has been extended to Sankaty Head, on Nantucket, where the wireless telegraph station is located. From there all incoming ships will be queried as to whether or not they have seen any of Commander Pillsbury's ships and the results of these investigations will be signalled to the scout boats of the land stations.

By 11 o'clock the fog had lifted and the battleships were seen in their usual positions. Observation in the distance, however, was impossible, owing to a haze which hung low over the water. All the signal and lookout stations reported during the forenoon, showing that the message system was intact. All the scout boats were heard from before 11 o'clock, either at the station here or on board the Kearsarge.

It is larned that the rules of the manoeuvres permit the destruction of the ships of the opposing squadron and it appears that the fear that Pillsbury may dash in and "disable" one of his vessels is one reason why the defending fleet is kept so compact by Admiral Higginson.

Weather Conditions Were Changeable.

In the afternoon the weather conditions again were changeable. At 3 o'clock the fog deserted Rockport and passed far out beyond the battleships, hanging away in the east more in the form of smoke.

From Straits Mouth Point the trio of warships could be discerned very plainly. Then suddenly it seemed as if the bank of fog were engaged in a race to the coast line again. The battleships could now no longer signal each other and the stations on Pigeon Hill and Straits Mouth were rendered for the time being out of action.

During the time that the fog prevailed the steel fighters remained motionless. Then confronting Admiral Higginson and his co-workers was the danger in navigating their vessels.

One Killed In Incline Accident.

Kansas City, Aug. 22.—A cable train crowded with passengers escaped from the control of the gripman in charge at the top of the Ninth street incline early yesterday morning, crashed into a train standing at the bottom. W. L. Taylor, gripman on the descending car, was killed, and a score or more passengers were bruised. The incline is 300 yards in length and descends at an angle of 45 degrees.

Relations With Turkey Resumed.

Washington, Aug. 23.—The state department has received a dispatch from Minister Leishman, at Constantinople, saying that amicable relations have been re-established between the legation and the porte. The sultan has directed that a portion of the agreement reached between Minister Leishman and the secretary of foreign affairs be carried out.

Receiver For an Ohio Corporation.

Columbus, O., Aug. 23.—A. L. Thurman was yesterday appointed receiver of the Mercantile Assurance company, an Ohio corporation. Three suits have been brought by stockholders, charging misrepresentation in the sale of stock. The company has been establishing branches in other states.

HACKING.

That word hacking is expressive to those who have experienced the aggravating constant cough, which is called a hacking cough. Sometimes it is the result of a cold, or of grip, and sometimes it is a consequence of catarrh, which unchecked has gradually involved the lungs in disease. Such a cough finds its cure in Dr. Pierce's Golden Medical Discovery which cures bronchitis, obstinate coughs, lung disease, hemorrhage, and conditions which, if neglected or unskilfully treated, lead to consumption.

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the State of North Carolina, who said the trouble had reached my lungs," writes Mr. J. M. Patton, of Clotho, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicines. Will say Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me, and to-day I am well and hearty, and I will say further that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicines to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Cholera Morbus.

This is an extremely dangerous disease. In almost every neighborhood some one has died from it, and in many instances before a physician could be summoned or medicine obtained. Mrs. E. H. Delano, of Durant, Mich., is subject to severe attacks of cholera morbus. During the past four years she has kept at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and says it has always given her quick relief. During this time she has used two bottles of it. This remedy can be depended upon in the most severe and dangerous cases. The safe way is to keep it at hand ready for instant use. For sale by Alvin H. Bulger.

There's no soaking required if you use Mrs. Austin's Quick Lunch Tapioca. Ready in a minute. Your grocer can supply you. 9

Cholera Morbus.

This is an extremely dangerous disease. In almost every neighborhood some one has died from it, and in many instances before a physician could be summoned or medicine obtained. Mrs. E. H. Delano, of Durant, Mich., is subject to severe attacks of cholera morbus. During the past four years she has kept at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoca Remedy, and says it has always given her quick relief. During this time she has used two bottles of it. This remedy can be depended upon in the most severe and dangerous cases. The safe way is to keep it at hand ready for instant use. For sale by Alvin H. Bulger.

There's no soaking required if you use Mrs. Austin's Quick Lunch Tapioca. Ready in a minute. Your grocer can supply you. 9

Every 100 bands from above named cigars will entitle you to four estimates.

(One "Florodora" band counting as two bands from the 5 cent cigars mentioned; and no less than 100 bands will be received at any one time for estimates.)

Information which may be of value in making estimates:—the number of Cigars now bearing $3.00 Tax per thousand, for which Stamps were purchased, appears below:

In December, 1900,	467,092,208 Cigars.	In March, 1902,	516,599,027 Cigars.
" December, 1901,	479,312,170 "	" April, 1902,	516,835,163 "
" January, 1902,	496,983,717 "	" May, 1902,	523,035,907 "
" February, 1902,	445,495,483 "		

In case of a tie in estimates, the amount offered will be divided equally among those entitled to it. Distribution of the awards will be made as soon after January 1st, 1903 as the figures are obtainable from the Internal Revenue Department of the United States for December.

Write your full name and Post Office Address plainly on packages containing bands. The Postage, or Express charges on your package, must be fully prepaid, in order for your estimate to participate.

All estimates under this offer must be forwarded before December 1st, 1902, to the FLORODORA TAG COMPANY, Jersey City, N. J.

You do not lose the value of your bands. Receipts will be sent you for your bands, and these receipts will be just as good as the bands themselves in securing Presents. One band from "Florodora," or two bands from any of the other Cigars mentioned above, will count in securing Presents the same as one tag from "Star," "Horse Shoe," "Spear Head," "Standard Navy," "Old Peach and Honey" "J. T.," "Master Workman," "Piper Heidsieck," "Jolly Tar," "Boot Jack," "Old Honesty," "Razor," or "Planet" Tobacco; or one "Sweet Caporal" Cigarette Box Front.

Send each estimate on a separate piece of paper, with your name and address plainly written on each. Blank forms for estimates will be mailed upon application.

Illustrated Catalogue of Presents for 1903 and 1904 will be ready for distribution about October 1st, 1902, and will be mailed on receipt of ten cents, or ten tobacco tags, or twenty cigar bands.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Back from Vacation—Rev. J. W. Gorrell returned from his vacation at Hebron, W. Va., his parents' home, last evening, and will preach tomorrow.

Barbers Will Parade—The Barbers' local has made final arrangements for the Labor Day demonstration. This local will have a good representation in the parade.

Licensed at Steubenville—Marriage licenses have been issued at Steubenville to Thomas E. Boyd, of East Liverpool, and Mary E. Hutton, of Brilliant; C. D. Zellars, of East Liverpool, and Ethel Hastings, of Brilliant.

Fishing is Fine—A letter was received in this city yesterday from William Leigh and Frank March, who are spending several weeks up Lake Michigan. The young men are enjoying their trip and have to the present made a number of sensational catches while fishing. The record for one day this week was 100 caught, some of them being very large. The friends of the men were a little skeptical when they heard the story, but it is probably true.

Pupils Entertained—Miss Mary Earl entertained her Sunday school class at her home on Fourth street last evening. Miss Earl is a teacher at the First M. E. church. Music and games were indulged in until a late hour when refreshments were served. A very enjoyable time was spent.

George Casey Ready to Play—Samuel Carey, of this city, is in receipt of a letter from his son, George Carey, who has been playing first base for the Washington American League club, during the season, stating that he expects to get back into the game again when the Washington club opens a season at Cleveland, on August 28. Officer Hugh McDermott will go to Cleveland to see the opening game and will present Carey a pitcher bearing an excellent likeness of the famous first baseman on its face.

ANOTHER DIVIDEND OF 3 PER CENT

The 27th Declared by the Potters Building and Savings Company.

BEST WAY OF SAVING

Is Holding Stock in Such a Thriving Institution—The Rich And Poor Have Equal Chances—All Earnings Paid in Dividends.

The Board of Directors of the Potters' Building & Savings company, at their meeting Thursday evening, declared a semi-annual dividend of 3 per cent payable September 10.

This dividend is the twenty-seventh they have declared in the 13½ years since the company was organized and will make $367,189.23 that the company has paid to its members in dividends, and well illustrates the superiority of a building and loan association over a savings bank. For, had the members of the Potters' Building & Loan Association been simply depositors as in a savings bank they would, in the same time, have only received $246,126.15, 4 per cent. The difference of over $123,000 would have gone into the pockets of the few stockholders or owners of the savings bank, it being what is known as a close corporation; that is, there is only a certain amount of stock to be had, and as a usual thing the better the stock pays the harder it is to get and the fewer the people who hold it. In fact, a workingman or woman can't get it. On the other hand if it is not worth more than par or 100 cents on the dollar there is plenty of it to be had and anyone can get it.

On the contrary a building and loan company is an open or mutual corporation; that is, you can take stock in it at any time, no matter whether you are rich and have thousands of dollars to invest or poor and have only a few cents you want to save. All of its earnings after expenses are paid in dividends and paid in the shape of a dividend on whatever amount of money a person has in.

Rich and poor share alike. If a 3 per cent dividend is declared for a six months' business as the Potters' Building & Savings company has just declared, and Joe has $100 in the company he will get $3, while Jim, who has $50 in, will get $1.50. There are no preferred people who get a dividend on what some other person's money has made for them. True cooperation or mutuality is the key note of the company and its methods.

It is true this company receives money on the savings bank plan and pays 4 per cent interest on the same, but the party putting his money in is given the privilege of the regular building and loan stock plan and chooses for him or herself. Whatever profit is made from the money left on this basis goes into a contingent or surplus fund, which can only be used to pay any losses that may occur.

This fund in the Potters now amounts to over $37,000, and in the 13½ years the company has run there has never been one cent taken out of it. As this fund grows in amount so grows the security and safety of the institution. 199-h

FAREWELL RECEPTION

To Be Tendered Rev. and Mrs. W. H. Gladden On September 11.

Rev. and Mrs. Wm. H. Gladden have issued invitations for a farewell reception to be given at the M. P. church Thursday evening, September 11. The occasion is also the twenty-eighth anniversary of their marriage which fact makes the occasion one of twofold interest.

NOWLING'S ORCHESTRA SUNDAY EVE AT ROCK SPRINGS, FREE. 199-h

PRIMARIES SATURDAY

Hancock County Democrats Will Select Candidates for County Officers.

The Democrats of the several magisterial districts of Hancock county, will meet next Saturday for the purpose of selecting district nominees and choosing delegates to the county convention to be held at New Cumberland on Monday, September 1. The following meeting places have been selected: Grant district—Chester school house; Poe—Fairview school house; Butler—Holliday's Cove school house; Clay—Court house, New Cumberland.

An unusual amount of interest is being manifested in the selection of candidates for county officers, and preparations are being made for a hard fight. The offices to fill are: Prosecuting attorney, clerk of the circuit court, clerk of the county court, representatives to the house of delegates and county superintendent of public schools. The ticket placed in the field some time ago by the Republicans is a strong one and will doubtless be elected by the usual majority.

Perhaps the hardest fight will be that for representative. The Republican nominee is Robert Newell, of Grant district, and he is considered a very strong man. Against him it is said will be pitted Robert J. Ramsey, a young attorney of New Cumberland, who is not likely to overcome the usual 300 Republican majority.

WHOLE FORCE FIRED

Proprietor of Bakery Would Not Tolerate Disorder About the Shop.

The entire working force at the Thomas bakery was discharged yesterday, and for a time at least, it looked as though operations would have to be suspended.

Arthur Thomas, owner and manager of the establishment, is responsible for the condition. At a very early hour in the morning the proprietor asserts he went to the shop on Union street and found the force, consisting of three men, acting in a disorderly manner. He ordered them to stop, and when they refused, discharged them all.

The men are members of the bakers' union, and at once threatened to make charges against the proprietor, but to the present nothing of that sort has been done. Mr. Thomas endeavored to keep his foreman, Mike Peterson, who was in no way concerned with the trouble, but he went out with the others.

The proprietor telegraphed to Pittsburg and Cleveland yesterday to the headquarters of the union in both cities, making a brief statement of the facts, and asking that men be sent here at once. A force reported before the day ended and the shop is now in charge of a union force.

Coming On Special Train.

The special train from New York which will bring the guests from that city to the Knowles-Marshall wedding, next Wednesday, will leave New York either Sunday or Monday morning. The guests on this car will be Mrs. Ida K. Stafford, Miss Rita Rodriguez, Miss Ethel Holliman and Messrs. J. D. Thompson and Col. W. C. Brown.

MOORHEAD GREETED.

Ovation Accorded President of U. P. Theological Seminary at Winona.

THE "RIGHTEOUSNESS OF GOD"

This the Subject of Mr. Address—He Criticised Twentieth Century Testament—Conference on Sunday School Work, at Bible Conference.

Warsaw, Ind., Aug. 23.—Dr. W. G. Moorhead, president of the United Presbyterian Theological seminary, was given an ovation yesterday and greeted by the largest gathering at the National Winona Bible conference. In the course of his address on the "Righteousness of God," Dr. Moorhead severely criticised the Twentieth Century Testament and took occasion to voice emphatically his sentiments against what he termed "new fangled religious methods." The day's program was opened with a conference on Sunday school work, conducted by W. C. Pearce and Mrs. Lamoreux, of Chicago, hte latter addressing the body on the "Art of Primary Teaching." Rev. John Balcolm Shaw, of New York, delivered an interesting address on the topic "Jesus' Prayer for Us." Following this Rev. A. C. enos, of the McCormick Theological seminary, Chicago, addressed the conference on "New Methods of Studying the Bible." Another address was that of Rev. E. T. Bulgin, of Chicago, on "The Motive of Service." Rev. James E. Rodgers, of Springfield, Ills., had the subject, "How to Use the Bible." Rev. George Stewart, a southern evangelist, delivered the principal address last night.

Y. W. C. A. CONFERENCE.

That For Western Field, Including Ohio, Opened.

Williams Bay, Wis., Aug. 23.—The eleventh western conference for young women opened in the Y. M. C. A. camp at Lake Geneva yesterday afternoon, the delegates covering the territory from Ohio to Colorado. This is one of a series of four conferences held by the American committee here, at Capitola, Cal., Asheville, N. C., and Silver Bay, Lake George, N. Y. It is led by Miss Elizabeth Wilson and Miss Effie Kelly Price, of Chicago. The opening address was made by S. D. Gordon, of Cleveland, O., who began his series of addresses on spiritual power.

Three classes of Bible study are being conducted by W. W. White, principal of the Bible Teachers' college, New York, who teaches the gospel of Matthew; Don C. Shelton, of the International Y. M. C. A., who leads a course on Old Testament characters, and Miss Mary L. Babcock, of New York, who teaches Bosworth's studies in the Acts and Epistles. Three conferences to discuss practical methods of work in city and student Young Women's Christian associations are held daily. The city conference is led by Miss Helen F. Poone; the student conference by Miss Effie Kelly Price, and the missionary conference by Miss Bertha Conde and Miss Mabel Milham.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Back from Vacation—Rev. J. W. Gorrell returned from his vacation at Hebron, W. Va., his parents' home, last evening, and will preach tomorrow.

Barbers Will Parade—The Barbers' local has made final arrangements for the Labor Day demonstration. This local will have a good representation in the parade.

Licensed at Steubenville—Marriage licenses have been issued at Steubenville to Thomas E. Boyd, of East Liverpool, and Mary E. Hutton, of Brilliant; C. D. Zellars, of East Liverpool, and Ethel Hastings, of Brilliant.

Fishing is Fine—A letter was received in this city yesterday from William Leigh and Frank March, who are spending several weeks up Lake Michigan. The young men are enjoying their trip and have to the present made a number of sensational catches while fishing. The record for one day this week was 100 caught, some of them being very large. The friends of the men were a little skeptical when they heard the story, but it is probably true.

Pupils Entertained—Miss Mary Earl entertained her Sunday school class at her home on Fourth street last evening. Miss Earl is a teacher at the First M. E. church. Music and games were indulged in until a late hour when refreshments were served. A very enjoyable time was spent.

George Casey Ready to Play—Samuel Carey, of this city, is in receipt of a letter from his son, George Carey, who has been playing first base for the Washington American League club, during the season, stating that he expects to get back into the game again when the Washington club opens a season at Cleveland, on August 28. Officer Hugh McDermott will go to Cleveland to see the opening game and will present Carey a pitcher bearing an excellent likeness of the famous first baseman on its face.

IF I FAIL to fit your eyes it costs you nothing—If I succeed it costs you but the price of glasses.

ANOTHER DIVIDEND OF 3 PER CENT

The 27th Declared by the Potters Building and Savings Company.

BEST WAY OF SAVING

Is Holding Stock in Such a Thriving Institution—The Rich And Poor Have Equal Chances—All Earnings Paid in Dividends.

The Board of Directors of the Potters' Building & Savings company, at their meeting Thursday evening, declared a semi-annual dividend of 3 per cent payable September 10.

This dividend is the twenty-seventh they have declared in the 13½ years since the company was organized and will make $367,189.23 that the company has paid to its members in dividends, and well illustrates the superiority of a building and loan association over a savings bank. For, had the members of the Potters' Building & Loan Association been simply depositors as in a savings bank they would, in the same time, have only received $246,126.15, 4 per cent. The difference of over $123,000 would have gone into the pockets of the few stockholders or owners of the sayings bank, it being what is known as a close corporation; that is, there is only a certain amount of stock to be had, and as a usual thing the better the stock pays the harder it is to get and the fewer the people who hold it. In fact, a workingman or woman can't get it. On the other hand if it is not worth more than par or 100 cents on the dollar there is plenty of it to be had and anyone can get it.

On the contrary a building and loan company is an open or mutual corporation; that is, you can take stock in it at any time, no matter whether you are rich and have thousands of dollars to invest or poor and have only a few cents you want to save. All of its earnings after expenses are paid in dividends and paid in the shape of a dividend on whatever amount of money a person has in.

Rich and poor share alike. If a 3 per cent dividend is declared for a six months' business as the Potters' Building & Savings company has just declared, and Joe has $100 in the company he will get $3, while Jim, who has $50 in, will get $1.50. There are no preferred people who get a dividend on what some other person's money has made for them. True cooperation of mutuality is the key note of the company and its methods.

It is true this company receives money on the savings bank plan and pays 4 per cent interest on the same, but the party putting his money in is given the privilege of the regular building and loan stock plan and chooses for him or herself. Whatever profit is made from the money left on this basis goes into a contingent or surplus fund, which can only be used to pay any losses that may occur.

This fund in the Potters now amounts to over $37,000, and in the 13½ years the company has run there has never been one cent taken out of it. As this fund grows in amount so grows the security and safety of the institution. 199-h

PRIMARIES SATURDAY

Hancock County Democrats Will Select Candidates for County Officers.

The Democrats of the several magisterial districts of Hancock county, will meet next Saturday for the purpose of selecting district nominees and choosing delegates to the county convention to be held at New Cumberland on Monday, September 1. The following meeting places have been selected: Grant district—Chester school house; Poe—Fairview school house; Butler—Holliday's Cove school house; Clay—Court house, New Cumberland.

An unusual amount of interest is being manifested in the selection of candidates for county officers, and preparations are being made for a hard fight. The offices to fill are: Prosecuting attorney, clerk of the circuit court, clerk of the county court, representatives to the house of delegates and county superintendent of public schools. The ticket placed in the field some time ago by the Republicans is a strong one and will doubtless be elected by the usual majority.

Perhaps the hardest fight will be that for representative. The Republican nominee is Robert Newell, of Grant district, and he is considered a very strong man. Against him it is said will be pitted Robert J. Ramsey, a young attorney of New Cumberland, who is not likely to overcome the usual 300 Republican majority.

WHOLE FORCE FIRED

Proprietor of Bakery Would Not Tolerate Disorder About the Shop.

The entire working force at the Thomas bakery was discharged yesterday, and for a time at least, it looked as though operations would have to be suspended.

Arthur Thomas, owner and manager of the establishment, is responsible for the condition. At a very early hour in the morning the proprietor asserts he went to the shop on Union street and found the force, consisting of three men, acting in a disorderly manner. He ordered them to stop, and when they refused, discharged them all.

The men are members of the bakers' union, and at once threatened to make charges against the proprietor, but to the present nothing of that sort has been done. Mr. Thomas endeavored to keep his foreman, Mike Peterson, who was in no way concerned with the trouble, but he went out with the others.

The proprietor telegraphed to Pittsburg and Cleveland yesterday to the headquarters of the union in both cities, making a brief statement of the facts, and asking that men be sent here at once. A force reported before the day ended and the shop is now in charge of a union force.

Coming On Special Train.

The special train from New York which will bring the guests from that city to the Knowles-Marshall wedding, next Wednesday, will leave New York either Sunday or Monday morning. THE "RIGHTEOUSNESS OF GOD"

This the Subject of Mr. Address—He Criticised Twentieth Century Testament—Conference on Sunday School Work, at Bible Conference.

Warsaw, Ind., Aug. 23.—Dr. W. G. Moorhead, president of the United Presbyterian Theological seminary, was given an ovation yesterday and greeted by the largest gathering at the National Winona Bible conference. In the course of his address on the "Righteousness of God," Dr. Moorhead severely criticised the Twentieth Century Testament and took occasion to voice emphatically his sentiments against what he termed "new fangled religious methods." The day's program was opened with a conference on Sunday school work, conducted by W. C. Pearce and Mrs. Lamoreux, of Chicago, hte latter addressing the body on the "Art of Primary Teaching." Rev. John Balcolm Shaw, of New York, delivered an interesting address on the topic "Jesus' Prayer for Us." Following this Rev. A. C. enos, of the McCormick Theological seminary, Chicago, addressed the conference on "New Methods of Studying the Bible." Another address was that of Rev. E. T. Bulgin, of Chicago, on "The Motive of Service." Rev. James E. Rodgers, of Springfield, Ills., had the subject, "How to Use the Bible." Rev. George Stewart, a southern evangelist, delivered the principal address last night.

That For Western Field, Including Ohio, Opened.

Williams Bay, Wis., Aug. 23.—The eleventh western conference for young women opened in the Y. M. C. A. camp at Lake Geneva yesterday afternoon, the delegates covering the territory from Ohio to Colorado. This is one of a series of four conferences held by the American committee here, at Capitola, Cal., Asheville, N. C., and Silver Bay, Lake George, N. Y. It is led by Miss Elizabeth Wilson and Miss Effie Kelly Price, of Chicago. The opening address was made by S. D. Gordon, of Cleveland, O., who began his series of addresses on spiritual power.

Three classes of Bible study are being conducted by W. W. White, principal of the Bible Teachers' college, New York, who teaches the gospel of Matthew; Don C. Shelton, of the International Y. M. C. A., who leads a course on Old Testament characters, and Miss Mary L. Babcock, of New York, who teaches Bosworth's studies in the Acts and Epistles. Three conferences to discuss practical methods of work in city and student Young Women's Christian associations are held daily. The city conference is led by Miss Helen F. Poone; the student conference by Miss Effie Kelly Price, and the missionary conference by Miss Bertha Conde and Miss Mabel Milham.

19TH YEAR. NO. 199. EAST LIVERPOOL, O., SATURDAY, AUGUST 23, 1902. TWO CENTS.

THE LABOR PEOPLE ARE IN CONFERENCE AT ALLIANCE TODAY

Thomas J. Duffy, East Liverpool's Sole Representative There—Bell Is the Favorite For Congress.

Alliance, August 23.—(Special)—The convention being held at Alliance today by representatives of labor throughout the Eighteenth district was called to order in Bradbury hall at 10:30 this morning, with Fred A. Johnson, of Alliance, as temporary chairman.

Mr. Johnson stated the object of the meeting, and Ed Hageman, of Canton, was made temporary secretary.

After a credential committee had been named it was decided that the committee on credentials should do its work during a short intermission, and that a permanent organization be formed during the afternoon. The motion prevailed.

At 11:15 the session reconvened and the credentials committee reported as follows:

Alliance, 23; Youngstown, 5; Wellsville, 3; Beloit, 3; Salem, 17; Massillon, 2; Washingtonville, 2; Canton, 1; Sebring, 6; East Liverpool, 1; a total of 72.

The delegates were armed with a considerable number of proxies, but as the credentials presented by them did not entitle them to cast the vote, it was decided to allow the convention to decide the question later on.

The credentials committee recommended that T. J. Duffy, of East Liverpool, be allowed a voice in the convention. Mr. Duffy is the only man present from East Liverpool, the strongest union town in the district. This fact is frequently remarked upon. R. H. McDowell, of Salem, prepared a motion that, inasmuch as Mr. Duffy carried no credentials, but was present as the seceretary of the N. B. of O. P., he be seated as a delegate.

Mr. Duffy secured the floor and stated that he had no desire to be present as a delegate, but thought he was entitled to a voice as the representative of labor. The motion was adopted.

On motion of S. S. Carnahan, of Wellsville, the temporary officers were made permanent. A motion prevailed that the sessions be open to the public. At this point the primary object of the convention, the consideration of the advisability of placing a congressional candidate in the field, was brought up. A motion carried that each of the 72 delegates express their opinion on the subject, and vote to determine the course of the convention. At 12:10 two Wellsville delegates had been heard, both favoring making a nomination. The convention then adjourned till 1 o'clock.

The candidates so far named are: Chas. Bonsall, of Salem; T. J. Duffy, of East Liverpool, and Mayor Bernard Bell, of Massillon.

While Duffy appeared to have a majority of the delegates a week ago, at 1 o'clock today it was evident that Bernard Bell, of Massillon, had sprung into first place.

To an outsider it looks as though, should a nomination be made, Bell will be the man. Bonsall, of Salem, is probably second choice, and Duffy third.

NEW RURAL ROUTE

FREE MAIL SERVICE BETWEEN THIS CITY AND ROGERS.

Postoffice Inspector Coming to East Liverpool Next Week to Arrange For It.

The new rural mail route will soon be established from the East Liverpool postoffice. Postmaster Surles has received notification that George Pate, special agent and examiner for the postoffice department, will be in the city Tuesday for the purpose of holding an examination for a carrier on the new route.

The route will be between this city and Rogers. The carrier will leave Rogers at 9 a. m and will pass through East Camel, Clarkson, Azelda, Park and Cannon's Mills. He is expected to arrive in this city at 3 p. m., and leave with the mail on the return trip at 3 p. m. The route will be covered daily.

COMMITTED SUICIDE

Prominent Physician With Relatives Here Took His Life at Bridgeport.

Dr. E. N. Riggs, aged 60, one of the most prominent physicians of Belmont county, committed suicide by shooting at Bridgeport, where he had lately moved from Powhatan. He had been ailing for some time and it is thought he was temporary deranged. He leaves a wife and one son.

Dr. Riggs had a number of relatives in this city, who were shocked to learn of his tragic death. Dr. Riggs married a daughter of Captain William Abrams, a noted Pittsburg riverman.

LOOKING FOR A MATCH

Spike Hennessy in Town And Eager to Meet Some Pugilist.

Joe, better known as "Spike" Hennessy, of Louisville, Ky., is in the city visiting relatives. He is a machinist by trade, but he has another occupation, that of fighting. Hennessy called at this office this morning and left a challenge to fight any man in this part of the state at 110 pounds and for a purse of any size. Hennessy has quite a record. He has had 30 fights, of which he won 26, lost 1 and 3 were draws. The fight he lost was at New Orleans when he fought Walter O'Brien, about a year ago. O'Brien also recently met Terry McGovern and lost that fight.

Hennessy's fight with O'Brien lasted four rounds and was stopped by the police. Another notable fight Hennessy had was at Chicago a short time ago, when he met Jimmie Barry, who was at that time the champion bantamweight fighter of the United States. This went on for six rounds and was a draw. Hennessy has a fight on at Louisville on October 2, but desires an engagement in this part of the country before he returns to his southern home.

BRITTLE BRICK

Consignment Not Up to the Mark Which Will Not Be Used for Paving.

Contractor Thomas McLaughlin, who received the contract for the paving of College street, is having trouble in regard to the character of the brick which he has already placed on the ground for the work. The contractor has already unloaded one car of brick which does not meet with the approval of the city engineer or the street committee, and it is not probable that this brick will be used.

The contractor states that the brick are not of the class that he ordered and that he will return them to the manufacturer. Engineer Kelly was the first to discover the nature of the brick which was being placed along the street and he called the attention of the street committee to them. The brick are very brittle and give the appearance of having been fired too fast, which causes them to be very easily broken.

The manufacturer of the brick has been notified of the defect and he has an attorney looking the matter up. The street committee states that they will not allow the brick to be put in the street, as they are not according to the specifications, and the contractor will no doubt send them back to the manufacturer.

Brother Will Be Plaintiff.

Robert Slack, foreman at McNicol's pottery, has returned from Trenton, where he had been called by the death of his father. Mr. Slack states that the suit which has been instituted in regard to the division of his father's estate will be in the hands of his brother, who resides in Trenton. It was necessary for Mr. Slack to return to his work in this city, and he gave his brother the power of an attorney.

CITY WILL ACT ON IMPROVEMENT

Much Needed Work on Calcutta Road Is to Be Hastened.

SPECIAL MEETING CALLED

City Council Will Convene Monday to Legalize the Letting of Contracts in a Way That No Objection Can Be Raised.

The city will fill in the necessary amount of earth to bring the pavement in front of the Stewart property on Calcutta road up to the established grade. This decision was arrived at by City Solicitor McGarry and Engineer Kelly, at a conference held yesterday.

The taxpayers on the Calcutta road who have been assessed for the improvement of the thoroughfare have secure legal advice and refused to pay the assessment until the sidewalk in front of this property was constructed.

It was learned by the city officials that an injunction was to be asked for about the last of August, which would prevent the city clerk from certifying the amount of the assessment to the county auditors. If this were done, it would mean that the general fund of the city would have to carry the assessment for another year, as it is necessary for the assessment to be certified to the county auditor by the first of September.

The city has now taken the matter in hand and the fill on the sidewalk of the property will be put in immediately, so that the parties who are objecting to the improvement have received and are receiving the benefit of, will have no opportunity to object to the collection of the assessment for it.

It is understood that all the property owners want is that the contract be finished to the specifications and the city will overcome the difficulty of dealing with an administrator with a limited power by putting the work through and looking after the payment afterwards.

A special meeting of the city council will be held Monday afternoon for the purpose of taking legal action in regard to the letting of the contract for the filling in and paving of the sidewalk in front of the Stewart property.

Solicitor McGarry looked up the actions of the previous councils in regard to the improvement. As the other residents appear to be looking for some loop hole to escape the payment of the assessment for the improvement the solicitor has been called upon to figure the matter out for the council. The outcome of the investigation is the calling of the special meeting.

YOUNG PUGILIST

East Liverpool Pottery Worker Knocked Out Steubenville Man With Ease.

Harry Watkins, a 17-year-old employe of the Buckeye pottery, is gaining something of a reputation as a pugilist. This week, before a crowd of perhaps 800 at Steubenville, he met Schaffer, a well known boxer of that city, and knocked him out in the third round, breaking Schaffer's nose.

Watkins has fought nine bouts and has never lost one.

POTTERS VOTING ON GIVING MONEY

Question of Extending Financial Aid to Striking Miners Meets Approval.

PROSPERTY IN TRENTON

Both in Sanitary And General Ware. Factory Inspector of New Jersey Under Fire—New N. B. of O. P. Local.

From a Staff Correspondent.

Trenton, N. J., Aug. 23.—The Trenton locals of the National Brotherhood of Operative Potters this week are voting upon the request sent to President A. S. Hughes from President Mitchell, of the United Mine Workers, for financial aid for the striking miners. The request of President Mitchell, which means the appropriation of the funds of the Brotherhood to aid another organization, is a question which is not covered by the constitution. For this reason, notices were received from Secretary Duffy by the Trenton locals calling for an individual vote, the result of which, is being forwarded by each local to East Liverpool.

The question thus far has met with the approval of all the locals and Tuesday night, Sanitary workers' local No. 15, besides voting for an appropriation from the National treasury, sent $50 to President Mitchell out of its own funds. Similar requests for assistance have been received by the other labor unions in this city and last Friday night, the Mercer County Central Labor union headed the list, with a donation of $25.

The sanitary plants are experiencing the biggest boom that has been known in years.

All of the shops are working full time and many are behind in their orders. About this time of the year, beginning about September 1, reaching up to Christmas, what is known to Trenton manufacturers as the dull season, begins. For the first time in the history of the sanitary trade, this period will be passed without notice this year, as most of the plants have orders which will keep them busy during the next six months.

A similar condition but not of such great proportions exists among the potteries manufacturing general ware. These plants at present are getting out new shapes for the holiday trade. Nearly all the salesmen have returned from their vacations and will probably be put on the road not later than the middle of September. In the general ware line, there is a decided falling off in toilet articles which market is fast becoming the property for the sanitary manufacturers.

This condition, together with the increasing demand for sanitary, has been the result of the big booms in building, which have, during the past few months, been launched all over the east. In preparing for a busy season, several of the potteries have placed large orders with the Crossley Machine company for pottery machinery.

In the line of organization, Vice-President Hutchins, of the Brotherhood of Operators, is still devoting his efforts toward getting the warehousewomen into line. Several preliminary meetings have been held and a membership committee was appointed to make a canvass of all the shops with the result, that thirty additional members have been received. An attempt was made some time ago to start an organization among the warehouse girls. No attempts of late have been made in this direction as Mr. Hutchins is desirous of completing his work with the men before an attempt is made to affiliate the women.

State Factory Inspector John C. Ward, against whom the potters of this city have a grievance for permitting children to work in the local plants, was the target of the New Jersey State Federation of Labor, which held its annual sessions in this city last Monday and Tuesday. The cumulative eveidence, which the labor organizations of the state, and particularly in the South Jersey glass blowing district, have been piling up against the inspector, took definite shape in the adoption of a resolution making sweeping charges of mal-administration and demanding his removal at the hands of Governor Murphy. The governor has promised the Federation that he will submit the charges against Ward to rigid investigation.

With the $1,000 donation of John L. Cadwalader made at the time of the dedication of the Trenton Free Public Library, the directors have secured several valuable works on ceramics which were opened to the public this week.

The trustees intend to make these works a distinct help to students of the Trenton Art School, decorative potters and makers of pottery ornamentation. The plates are the perfecion of color work and many of he designs shown are world famous.

The old Greenwood pottery meets with great difficulty in getting hard coal to fire the kilns. Soft coal will not answer the purpose infiring vitrified china as it does in general ware.

Harry E. Barlow, former mayor of Wilbur and one of the superintendents of the Mercer pottery, leaves in a few days for an extended tour through Canada.

The Mercer pottery company is getting out a new toilet set which it will soon have ready for the toilet trade.

POTTERY WORKERS ELOPE AND MARRY IN YOUNGSTOWN

Lucy Todd until last Wednesday evening was employed as a rubber in the decorating department at the Wallace & Chetwynd pottery, and now she has quit working. That is not all. She has also changed her name. This was done at Youngsgtown Thursday when she told all her friends that she was going on her vacation, and proposed going to Niagara Falls to spend a few weeks. This plant was not followed, but instead Miss Todd, whose home is in Wellsville, eloped to Youngstown, where she was married to Charles Krausse, who is employed in the Canonsburg (Pa.) pottery. The young couple went to Canonsburg immediately, where they will make their home.

It is said there was some objection to the marriage on the part of the parents of the groom, as they thought he was too young to get married and so told them. However, the plans of the young man were not changed, and on Thursday he also went on a vacation which landed him at Youngstown.

While all this was going on the facts of the marriage were known to a shopmate of the bride, Miss Gertis Golding, also a resident of Wellsville and also employed at the Wallace & Chetwynd plant. Last evening Miss Golding received a letter from Mrs. Krause, announcing her marriage, and today the fact was made known all over the pottery.

AFTER SEPARATION SINCE CHILDHOOD SISTERS ARE UNITED

The Romantic Meeting of Two Women, One of Whom Had Sought the Other For Twenty Years.

Owing to the persistent efforts of Mrs. P. Lane, 5138 Parker street, Pittsburg, to locate a little sister who was separated from her nearly 20 years ago the lost one has been found and the sisters are again happy. At the time the divorce proceedings of J. H. Luker and his wife were being tried, 19 years ago, Luker left hurriedly for Scottdale, taking his younger daughter, Myrtle, with him. She was left in charge of a family named Miller, who afterwards moved to Canton, in order to adopt the child.

Myrtle lived with the Millers until a year ago, when her foster-mother died. Mrs. Lane has since searched for her, missing her in East Liverpool, as she was away on a vacation.

Miss Miller has had an experience which does not fall to the lot of one person in 10,000. She was but 2 years of age when the courts separated the parents. She was adopted by the Millers, and when they removed to Canton accompanied them. It was while a resident of Canton that Mrs. M. A. Calhoun, of this city, met Miss Miller. They became very warm friends, and when Mrs. Miller died several years ago and the girl's adopted father married again, Myrtle came to live with Mrs. Calhoun in East Liverpool.

Miss Miller secured employment in one of the local potteries as a transferer in the decalcomania department. Meantime Mrs. Lane, of Pittsburg, through a diligent search at last succeeded in locating the Millers, only to find that she had left them and come to this city. Several weeks ago Mrs. Lane took advantage of one of the excursions to come to this city. She again met with disappointment, as her sister was out of town.

As soon after as possible the two women arranged for a meeting at Pittsburg. The meeting took place, and the sisters have resolved that they will never again be separated.

PRIZE FOR C. A. R.

Handsome Flags to Be Presented Posts Showing Largest Increase.

Post Commander Daniel McLane, of the local G. A. R., is in receipt of a circular from Department Commander Walton Weber, outlining a plan for the awarding of two flags to the posts of the state.

A handsome stand of colors is to be given to the post showing the largest percentage of net increase on December 31, 1902, over its report for the term ending June 30, 1902. The other flag is to go to the post making the largest gain in the number of members in good standing for the same period.

The flags are the handsomest and most costly that can be procured. The local post will be found well up in the list when the competition ends.

AN APPEAL ENTERED

Salem Woman Objects to the Forcible Collection of a Judgment.

Lisbon, August 23. — (Special) — John and Irene Rudisill, of Salem, appealed a case to common pleas court in which Elizabeth Plohr, of Teegarden, recovered a judgment in Justice Lease's court at Salem. About 18 months ago, the Rudisills went to the home of Elizabeth Plohr and, after making a forcible entry, carried away household furniture, consisting of bedding, silver spoons, and in fact everything which they could convert to their own use.

The plaintiff entered suit for $75 damages and when the case was set for hearing the Rudisills failed to appear and judgment was entered by default.

Special Notice.

On account of the interest shown in the special church services held at Springs Park last Sabbath afternoon, it has been decided to contiue the service until the close of the season. Come and enjoy the service with us.

Wanderers' Return.

Two of the four boys who ran away from their homes in this city and took a trip to Salineville, returned to their homes last evening. It is stated that the boys had enough of begging life by the time they reached Irondale and later two of them turned back, it is reported, and the other two continued on their way to Salineville.

Out of the Hospital.

Edgar Roe, of Third street, who has been confined to a Wheeling hospital for four weeks, taking treatment for a disease that has been troubling him for quite a long time, is expected to return to his home either tomorrow or Monday. His ultimate recovery is now assured.

RED STAR COMMANDERY

Officers Elected for the New Uniform Rank K. of P. Organization.

At a meeting of the recently organized Uniform Rank, Knights of the Golden Eagles, of this city, the following officers were elected: Captain, Joseph Smith; first lieutenant, J. H. Bardow; second lieutenant, William Ellis; first sergeant, Arthur Owens; second sergeant, Thomas Simpson; third sergeant, Joseph Pollock; ensign, James Burkheimer.

A charter has been applied for and this application was forwarded yesterday to the adjutant general of the national commandery at Newark, N. J. The character is expected here in a few days. The name of the local commandery will be Red Star, but the number has not yet been assigned, and will not be known until the charter is received.

Will Filed for Probate.

Lisbon, August 23. — (Special) — The will of the late Jessie Black, of Washington township was filed for probate this morning. The application to probate will be for hearing September 2.

WITH THE WORKMEN IN THE CLAY PLANTS

LABOR OF YOUTH.

During the summer months, and especially during the vacation of the public schools there are as a rule many positions in a pottery filled by school children. Now that the school term is about to again be opened, there will be many vacancies in the potteries of this city, such as mould runners and the like. After the schools open, if any boys or girls of school age are found to be working in a pottery, they are subject to the truant officer, and their parents are liable to a fine. A well known manager of a hill pottery, speaking of the child labor question, today said: "The grandest institution in this country is compulsory education, and would you believe it there are scores of persons working in the East Liverpool potteries who are today unable to write their own names ,and many of these have resided in this city practically all of their life. A workman only the other day inquired of me:'How do you get to be a member of that bank? Will you introduce me to the president of it? I told him I could not do that, but I could arrange it so that he could meet the cashier. That was done, and now he wants me to sign his checks. I of course could not do that, but I educated him a little in the art of banking. Early education would do much to overcome all this ignorence of banking methods, and this can now be learned in the public schools. Education of the youth also tends to help the pottery workmen in his work about the shop. He is enabled to work out little details and all that sort of thing. I am firmly convinced that too many children are employed under the lawful age."

NOTES FROM SEBRING.

Ralph Coppock, a presser at the Sebring, has gone to Bunker Hill, three miles east of Snodes for a two weeks' stay with his parents "down on the farm."

Homer Tritt, liner at Sebring, is now off duty on account of sickness.

Will Murphy, of East Palestine, has taken a position as kilndrawer at the French.

Bernard Curtis has moved to East Liverpool, where he will still continue to push the saw and plane.

George Turner, who has been employed as presser in the Lisbon pottery, is now at his home in this city.

Robert Finley, the well known kilnman, who has been unable to work for quite a time on account of suffering with typhoid fever, is now able to be out. He is well known in East Liverpool, having once been a member of the police force of this city.

WHAT HE DESERVED.

Because he was a good fellow, always kind to the men under him, William Tritt, formerly a resident of this city, and until recently, one of the managers of the Sebring pottery, at Sebring, was presented a handsome gold watch a few days ago by the employes of the pottery. This certainly shows good will. Mr. Tritt, it will be remembered, had tendered his resignation with that firm, and will leave Sebring soon to associate himself with the new pottery in course of erectinon at Crooksville. His resignation took effect the day the watch was presented to him.

A NEW SAMPLE ROOM.

The Thomas china company, of Lisbon, has opened handsome sample rooms in this city, and every character of ware made at the new shop is shown there. The rooms are on the second floor of the R. Thomas & Sons' plant, on Seventh street. The samples are tastefully arranged and the display is one of the neatest to be found anywhere in the city. The room in charge of a competent salesman, who is there daily. Quite a trade is being secured by this new firm by having a sample room in this city, and the move proved to be a wise one.

QUITS RESTAURANT.

Harvey Badgley, who for a numer of years was employed as night watchman for the West End pottery company, but who during the past few months has been conducting a restaurant in the Midway, has disposed of that business. Within a week or so he will go the Thompson pottery, wher he will take charge of the decorating kilns at that plant. Mr. Badgley was formerly employed in the potteries in this department, but not of recent years.

A HIGH OFFICIAL.

Thomas Price, general manager of the Cheslea pottery at New Cumberland, was in the city yesterday for a short time, and spent a few hours at the office of the Union. He was accompanied by H. L. Snively, auditor of the Union potteries company, at Pittsburg. The visit of these gentlemen to this city had no special significance, as it was just an ordinary business trip. Frank W. Fowler, vice-president of this company, is now spending a few days in Cleveland, taking a much needed rest.

MRS. DEVON ILL.

The many friends of William Devon, kiln foreman at the D. E. McNicol pottery, will be sorry to learn of the serious illness of his wife. Mrs. Devon has been suffering at her home on Thompson Hill with muscular spasms, and her condition is such that just as soon as possible, she will be removed to Pittsburg, where, if found necessary, she will undergo an operation. Mrs. Devon has suffered four attacks within the past two weeks.

OUT AT BARBERTON.

It is evident that the Barberton pottery is almost in full operation, and that it will be but a few days until the packing department will be able to start. Within the last few days about 16 decorators were started, and that is speaking very well for a new shop. Everything at this shop is running smoothly, and the first ware will be shipped from the new factory some time next week.

BUSINESS AT SEBRING.

The several potteries operated at Sebring by the Sebring Bros. seem to be enjoying an excellent trade, and judging from reports, the factories there are being given their share of the fall trade. Numerous cars of ware are sent from this town every week, and this is speaking well for the firm, who always had the name of being among the most progressive in the business.

AN IMPORTING MEETING.

The packers and warehousemen of the Trenton potteries were to have held an important meeting in the Eastern headquarters last evening, when some business other than that of a routine nature was to be considered. This is one of the latest locals to be organized in Trenton since the convention held there last May, and it is in a flourishing condition.

BUSINESS ALL RIGHT.

Eugene Bradshaw, of the Bradshaw pottery company, at Niles, has been spending a few days in this city on business. Mr. Bradshaw stated today that business with his firm was better than ever, and that orders were coming in as fast as they could fill them.

INCREASING THEIR LIST.

At the meeting of Warehousewomens 'local No. 62, which was held Thursday evening, eight new members were received. The membership of this local is now over 300, and is constantly increasing. A number of applications will also be presented at the next meeting of this local.

BACK TO WORK.

Jack Hancock, Charles Martin and Ralph Turner, who have been spending about ten days at Buffalo and other New York towns on a vacation trip, have returned to the city, and are now to be found at their benches on the glost end at the D. E. McNicol pottery.

EXPECTED HOME SOON.

Will L. Smith and Daniel E. McNicol, of the pottery firm of that name, who have been spending a fortnight in the east visiting several summer resorts, are expected to return to this city next week. They are now reported at New York.

PROBABLY A MISTAKE.

A Sebring paper stated last week that Local No. 44, of that town, had voted $1,000 from the defense fund to the striking miners. The writer probably meant either $10 or $100.

RESIGNED POSITION.

Miss May Terrence, who has been employed as a rubber at the Wallace & Chetwynd, for many months, working for Edward Hatton, has resigned her position. She will enter another branch of the decorating department, that of filling in.

TO BE MARRIED.

It was stated last evening that a popular finisher employed at the Union pottery would soon be married to a well known kilndrawer employed at the same plant. The date of the wedding has not been set.

LITTLE PAY.

Today was little pay, and quite a large amount of money was distributed by the plants among their workmen. Little pay is beginning to become a sort of big pay.

TAFT WELCOMED

GOVERNOR GIVEN WARM RECEPTION AT MANILA.

Received an Enthusiastic Popular Demonstration — Many Natives From Provinces Participated.

Manila, Aug. 23.—Civil Governor Taft reached here yesterday morning at daylight on board the United States gunboat General Alava, from Singapore, Straits Settlement. He was welcomed with an enthusiastic popular demonstration.

The day had been made a holiday and the city was decorated. Eight large arches had been erected on the streets. Twenty thousand natives from adjoining provinces participated in the demonstrations in honor of the governor's arrival. There was a parade of vessels in the bay and 30 decorated craft carrying members of the civil commission, military officers and the reception committee, met the General Alava down the bay and escorted Governor Taft to the entrance of the Pasig river. The governor was escorted by a large procession to the palace in the walled city, where a public reception was held.

Responding to an address of welcome Governor Taft outlined the progress and the result of his negotiations at Rome in the matter of the Philippine friars, and said that all church questions were progressing toward a satisfactory settlement. The governor said the action taken by congress concerning the Philippine islands showed that the American people honestly desired to help the Filipinos. The Americans were determined the islands should not be exploited by Americans at the expense of the Filipinos. Governor Taft predicted that eventually the archipelago would have practically free trade, and he congratulated the Filipino people upon the restoration of peace. He advised the Filipinos to till the soil and restore their country rather than wsate time in useless political agitation. He promised personally to labor for the natives and asked for their confidence and support.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

MATTERS MUCH TO EAST LIVERPOOL

City Should Have Representatives at River Improvement Meeting.

BENEFITS WILL BE GREAT

To This Town When Navigation Is Possible at All Seasons And Every Effort Should Be Used to Bring About This Result.

To the Editor of the News Review.

There is a matter to which I wish to call attention, which, it seems to me, strongly appeals to the interests of East Liverpool's business men and to every public spirited citizen for that matter. That is the proposed governmental improvement of the Ohio river. These improvements contemplate the establishment of a nine-foot stage of water from Pittsburg to Cairo all the year around by the construction of 11 dams, two of which are to be located within a radius of less than half a dozen miles of our city.

The annual convention of the Ohio River Improvement association will be held in Parkersburg early in October, and it is proposed that the chambers of commerce and boards of trade of all the more important cities and towns along the river send delegates to the convention to urge the immediate inauguration of the work and that the work be done continuously and simultaneously unth its completion.

It is proverbial that government contracts are never completed. It is proposed to make this a notable exception. A number of cities have already taken action with reference to the matter. Pittsburg's chamber of commerce at a recent session decided to send a strong delegation both in numbers and ability, the same to include Congressman John Dalzell.

If there is any city along the Ohio river that ought to be interested in this enterprise it is East Liverpool. She is about the only important city between Pittsburg and Cairo that has no competing line of railway. The opening of the Ohio river to continual navigation for ten or eleven months of the year would afford a competing commercial thoroughfare the importance of which to East Liverpool's manufacturing and other interests it would be hard to overestimate. Why then should our city not take some action in the matter of the proposed convention? It seems we have no board of trade—more's the pity—but this need not prevent the city from being represented.

City councils are expected to look after the interests of the city. Why could they not in conjunction with the mayor send able representatives to the Parkersburg convention, or in some way make their influence felt in so important a matter? If our city could be represented at the Parkersburg meeting by at least three strong men—six or more would be better—she would not only make her influence felt, but would only be doing what as a matter of justice eshe owes to so important a cause.

Let us keep it before the world that we are a wideawake city, alive to our own interests and know a good thing when we see it.

PIN YOUR FAITH TO ENK'S

TO PROLONG HUMAN LIFE

Albert Matthews, Ph. D., assistant professor of Physiological Chemistry in the University of Chicago, in summing up the practical results of the discoveries of Prof. Jacques Loeb and himself, says: "There is apparently no inherent reason why a man should die, except our ignorance of the conditions governing the reaction going on in his protoplasm."

When Dr. Joseph Enk, nine years ago, reached this conclusion as the result of scientific pathological experiments, he did not desire to run the risk of being considered a mad man or a fool, and kept his opinion to himself. But, in preparing the Enk Preparations for the cure of disease, the startling facts which he had uncovered were incorporated in the theory upon which the remedies are based.

The possibility of prolonging the life of the cells has become a certainty, and the substances which will accomplish this best are known to Dr. Enk; also, the secret of presenting them in a form acceptable to the human body, which is most important. The people who use Enk Preparations for their ailments have no need for other medicines, and even now we can insure longevity and good health.

Research into the problem of life is going on steadily in the Enk laboratory and is rapidly dissolving the clouds which cover this most momentous question.

For information about the Enk Preparations, write for our booklets or obtain them of your druggist.

J. A. SIMPSON.
[Sec'y B'd of Education, San Francisco.]

Hon. J. A. Simpson, Secretary of the Board of Education of San Francisco, Cal., writes:

"I have found Peruna an ideal tonic. Some months ago I suffered with neurasthenia (systemic catarrh), caused by too close application to office work. My system seemed worn out and I felt far from well. I found Peruna benefited me very much. It built up the entire system and made me feel like a new man. I believe it is well worthy the high praise bestowed upon it."---J. A. SIMPSON.

Systemic catarrh always gives fair warning of its approach, and can be easily warded off by the proper treatment. Floating brown specks before the eyes, mental confusion, fits of nervous headache, sleeplessness, flashes of heat, chilly sensations, palpitation, irritability, despondency; any of these symptoms or all of them should be promptly met by the use of Peruna.

Congressman E. V. Brookshire, from Indiana, in a recent letter from Washington, D. C., says:

"From what my friends say, Peruna is a good tonic and a safe catarrh cure."—E. V. Brookshire.

SEBRING RACE TRACK

A Fine Half Mile Course to Be Laid Out Near the Town.

Sebring is to have a race track of her own, the plat for the purpose having already been selected and surveyed. It is located just north of the city, out Fifteenth street, and will be a half mile course. The location selected for the purpose is said to be an ideal one. B. F. James has been chosen as president of the association, A. E. Mitzel, secretary, and H. R. Ewing treasurer. It is the intention to have the track completed by September 15.

The base ball ground which is now located south of the potteries will then be removed to these grounds and the lovers of the race and the leagues will have a fine place for amusements of every kind. A tri-county fair will probably come next.

Red Cross Ball Blue has the largest sale of any blue in the world. Highest quality at a reasonable price the reason. 9

EAST END

SIX NEW HOUSES

Modern in Every Particular to Be Erected on Pennsylvania Avenue, East End.

Quite an improvement will be commenced in the East End Monday morning when a company which has been formed in the East End recently will commence the erection of six new residences. In this company is Dr. R. J. Marshall and several other prominent business men of that part of the city. These houses will be erected on Pennsylvania avenue on the north side of the street, and almost opposite the alley leading to Chafinville.

These houses will be modern in every particular, and each will cost from $1,500 to $2,000. Work excavating for the foundation for these houses will commence Monday morning, and it is thought the contract will be completed within 90 days. These houses will be for rent, and will doubtless be quickly taken. There never was such a scarcity of houses in the East End as at present.

LIGHT DOES NOT SHINE

Pennsylvania Company Leaves the Lamp at Ralston Crossing to Rust Away.

Many months ago the Pennsylvania Railroad company placed a light at the Ralston crossing, but not for weeks has that light been lighted at nights. The lamp is now rusting away, and is useless while in its present condition. It is rusting away, and the only part of the fixture that is of any value is the pole upon which the light was placed. It seems that the railroad company, through a loose state law, is not compelled to keep lights at crossings, although there is a city ordinance in this city touching upon this point.

If the company does not propose to use the light at Ralston crossing, it would be better for the pole to be taken down, for it is no good in its present state.

Pastor Crowe Still Absent.

Owing to the absence from the city of Rev. N. M. Crowe, of the Second Presbyterian church, the services at this church tomorrow, both morning and evening, will be in charge of G. C. Fisher, a student at the Allegheny Theological seminary. A letter was received in the East End yesterday afternoon from Rev. N. M. Crowe, in which the fact was stated that he would return to the East End from his two weeks' vacation next week, and would conduct the usual services at the Second Presbyterian church one week from tomorrow.

Evening Up the Tracks.

During the past week the East Liverpool Railway company has had several men at work on the track between the Thompson pottery and the East End, raising the rail joints, and making other needed changes in the tracks. By so doing the cars were enabled to run over a portion of the road without jolting the passengers, as has been the case since the summer cars were placed on the road some months ago.

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

A Sure Cure for Diarrhoea.

Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used, as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by Alvin H. Bulger.

Women and Jewels.

Jewels, candy, flowers, men—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insiduous consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Charles F. Craig's.

Conclusions of much interest to the workingmen in general have been reached by the commission appointed by the British Iron Trade association to visit the United States and study industrial conditions, which have been made public by the treasury bureau of statistics. Enoch James, the commissioner who paid special attention to the steel industry, after much investigation, concludes that the commonly accepted theory that American mill men work harder than the English is an error. On the contrary, he finds that the English are the men who come nearer being overworked. He also finds the American workmen steadier and better paid, as well as more ambitious. As to the cost of living, the essentials of life are as cheap in this country as in the old. The average pay of workmen at the Homestead mills, $3 per day, or 187 pounds a year, is contrasted with the average pay in Lancashire, which is 68 pounds per annum. From all of which it appears that our protective tariff, which is blamed for making the manufacturers rich, at least enables the workmen to live in about twice as much ease and comfort as their brethren across the water.

The Canadian boundary question will undoubtedly be settled some time, though perhaps the present generation will not live to see it. The boundary stood over thirty years and no serious dispute arose over it. There would have been no issue had not the discovery of gold fields made Alaska valuable. Then Canada concluded it must have a seaport. How it can have a seaport several marine leagues from shore, where the treaty fixes the boundary, is a problem, unless this government donates it, and that it does not propose to do. Ex-Senator Warner Miller of New York has just returned from a trip to Alaska. He went as far north as Skagway, which town, he says, "is the head of the canal, the point to which the Canadians have laid claim. It should never, under any circumstances, be given up. If it is, Alaska will be cut in two. It belongs to the United States as much as any portion of the territory that we obtained from Russia."

In declining to be the Democratic nominee for governor of Kentuckey, Henry Watterson said: "No unclean dollar has ever passed my hand, coming or going, and I am too old too turn rascal now. Sometimes I have declared that I should like the people to write 'Governor of Kentucky' on my tombstone; but I should rest ill in my grave if there were a suspicion of a stain upon a letter of that honorable epitaph." Some of his Democratic brethren are setting up a howl, claiming it is possible to be elected governor of Kentucky without turning rascal. But evidently they have not lived in the Blue grass country as long as Henry has.

Canada, it is said, is preparing to offer homes and a premium to the destitute workers in the anthricite region if they will settle in the British northwest. If Canada would take all the imported Hungarian and Slavonic trouble breeders out of Pennsylvania, there would doubtless be no protest on the part of the native workers.

The railroads must have more engines and more cars. The mills and shops must have more men to make them. All are finding present facilities inadequate. Better that they should be confronted with this sort of problems than to be perplexed to find enough work, as they were in the days of the Wilson tariff.

The Tom Johnson presidential boom is being pushed again. Republicans will be delighted to see the Cleveland mayor land the nomination. Such a result would rend the Democratic party worse than a third nomination for the oft-defeated Nebraskan.

The absent minded man cannot be blamed for dating his letters October. It is not he, but the weather clerk, who is rushing the fall season.

Before coming to this country to lecture Aguinaldo might hear of something to his advantage by addressing Ellen M. Stone.

The Republicans expect to gain several congressmen the coming fall. It is a blue outlook for the party without an issue.

The jail population of Ohio diminished last year. The people were busy raising more profitable crops than trouble.

Some of those 5,000 towns should still bear in mind that it takes more than population to make a city.

Neither khaki nor blue uniforms will affect the soldierly qualities of the man inside them.

FUEL SCARCITY DEPRESSED.

The Worst Feature of Week In Trade, Said Dun's Review--The Failures.

New York, Aug. 23.—R. G. Dun & Co's Weekly Review of Trade, issued today, said in part:

Fuel scarcity is still the one serious industrial handicap. Protracted idleness at anthracite mines increased the pressure for sofe coal and coke, and, despite new records of output, deliveries are utterly inadequate, owing to the lack of motive power. This freight blockade of coke trains has closed many furnaces, while the increasing call for transporting facilities on crop account gives little prospect of early relief. As the active blast furnace capacity of this country decreases through want of fuel, foreign pig iron is purchased more freely. Domestic needs are now far beyond all precedent, and even with the available home capacity active there would be imports. There is much that is gratifying in this state of affairs, but there is also a drawback.

Failures for the week numbered 207 in the United States, against 205 last year, and 30 in Canada, against 35 a year ago.

THE STOCK MARKET RALLIED.

Improvement, Yesterday, Over Thursday's Depression—Some of the Features.

New York, Aug. 23.—Yesterday's stock market rallied from Thursday's depression and closed at materially higher prices than Thursday night. There was a considerable contraction in the volume of the trading, and it was not until late in the day that the disturbance to sentiment caused by Thursday's break in prices seemed entirely overcome. This was partly due to the evidence of continued liquidation in Colorado Fuel, which it was feared was creating a necessity to unload stocks elsewhere in the market. The appearance of support in that stock and its rally to more than a point over Thursday night was an important factor in reassuring sentiment, and its effect was emphasized by the renewed strength in Louisville and Nashville, which was supposed to be related in a speculative way to the movement in Colorado Fuel. The points of strength in the early part of the day were somewhat scattered and might be attributed to special causes. In the late dealings the strength became more general and the market broadened out under the immediate influence of a 2-point rise in Southern Pacific. The explanation of the strength of this stock was not obvious, beyond the fact that the speculative leader who has made this stock a favorite of late years is now due to arrive from Europe.

The freedom from flurry in the money market with the demand for loans to carry over until Monday had a reassuring effect and aroused hopes that the bank statement today would show a strengthened condition. If this proves to be the case, it must be by reason of loan contraction by transfer of credits to the trust companies and to foreign lenders. The interior currency movement seems still to be slightly in favor of New York.

Bonds were firm in sympathy with stocks. Total sales, par value, $1,370,000.

U. S. refunding 2s, the old 4s and the 3s advanced ¼ per cent on the last call.

GIFT TO ROOSEVELT.

Workingmen of Hartford Presented Him With a Floral Piece.

PRESIDENT REPLIED TO PRIEST.

Father Sullivan Made Presentation Speech, Which Received a Pleasing Answer—President Chatted With Workingman Mayor.

Hartford, Conn., Aug. 23.—President Roosevelt's stop in Hartford in his New England tour was marked by great enthusiasm by the crowds and he showed his pleasure at the reception he received.

In Pope park, one of the beautiful outlying recreation spots of the city, the president was greeted by 10,000 workingmen, who presented him with a magnificent floral horseshoe, inscribed: "Workingmen's Welcome to Our President."

Father Michael Sullivan made a few remarks of welcome, in which he commended the honesty and sincerity of purpose of the president in all his acts. The president responded and his remarks were frequently interrupted by applause. He said:

Reply to Father Sullivan.

"Father Sullivan: I came here to say some words this evening myself, but nothing that I can say, then, will in any way have the significance that the gift from the wage workers of Hartford has, and that the language you have used, Father Sullivan, in connection with making it use, and I am sure that Colonel Green, Senator Platt himself and all of my other hosts will pardon me for saying that no greeting that I have received or can receive in Connecticut will, or can begin to, please me as much as this one that I receive through you. (Loud applause.) Father Sullivan, I should of course be wholly unfit for the position I occupy if I did not give my best thought and best purpose to trying to serve the interests of the toiler of America (cheers)—the man who works with his hands, and of course, also the man who works with his head—if I did not try to serve each decent American citizen according to the best of my capacity, and certainly my most painstaking effort, my most resolute purpose, shall be given, and, if I may say so, is being given, to trying to do anything that can be done to help our people. Perhaps I can do this best by trying to help as well as I can their best purpose and their best thought (cries of 'good'), and that kind of representative I shall strive to be according to the light that is given me. One thing more. I should like to accept that gift as in some way personal to myself, but I would rather accept it, as I know it is meant, as a gift from Americans to the man who for the time being embodies American governmental principles—(cries of 'good' and cheers)—the principles of square and fair dealing with all men, so that all men shall have their rights under the law, that all shall be given a fair and an even chance in the struggle for life as we can best give it. I thank you." (Loud and continued applause.)

Big Crowd Was Present.

Five thousand men and women crowded the Coloseum here last night to hear the address of President Roosevelt. At least two-thirds of the audience were workingmen, and the enthusiasm manifested by them when the president alluded to the right of the toiler aroused the keenest interest. Again and again during his prefatory remarks, which were based on an incident of the afternoon—the presentation of a floral horseshoe by the workingmen—the president was interrupted by vociferous applause. Such side remarks as the following: "I do not care how honest a man may be, if he is timid he is no good," evoked prolonged laughter. Again, in speaking of the Isthmian canal, he aroused mirth by saying that one of the problems in connection with the great engineering feat would be to procure 50,000 patriotic, ambitious men to work for a ten thousand dollar fee.

President Roosevelt was introduced to the audience in the Coliseum by Colonel Jacob L. Green. Through Senator Platt he tendered his thanks to the state for the splendid reception accorded him, and to Mayor Sullivan he made his thanks to the people of the city of Hartford. Then, turning to the audience, he made a speech.

Last night after his address at the Coliseum the president was the guest of Executive Secretary John T. Robinson, on Asylum avenue. The president invited Mayor Sullivan to meet him at Mr. Robinson's home. The mayor is an ex-clerk, who was elected by the laboring men, a fact the president was familiar with, and he expressed a desire to have a personal chat with Mr. Sullivan.

President Roosevelt expressed his satisfaction at the substitution of drives for conventional handshaking. This method of entertainment seems to have given the people the opportunity desired of seeing him. It obviates the crush that has been so objectionable in previous receptions.

New Haven Was Enthusiastic.

New Haven, Conn., Aug. 23.—President Roosevelt entered upon his New England tour yesterday and New Haven was the first point visited by the nation's executive. The yacht Sylph bearing the president was sighted off New Haven harbor just before 1 o'clock. Half an hour later the vessel was lying alongside Belle dock, having made the run up New Haven harbor to the accompaniment of universal salutes.

The president acknowledged the salute from the yacht's quarter deck. He came ashore at 1:20 p. m. at a special landing constructed for the occasion. Mayor John P. Studley and a committee from the board of aldermen greeted the guest the moment he landed and conducted him to the carriage in waiting. Belle dock freight yards were roped off and the approaches were everywhere guarded by police. Troop A, Connecticut national guard, constituted the military escort. At 1:25 the procession moved. The mounted police were followed by Troop A, and then came carriages containing the president and his party and invited guests to the number of 60. The program provided for nothing but a drive and the progress of it took the distinguished visitor through the slums, the factory quarters and the center of the city. All traffic over the line of march during the hour of the president's stay was suspended and the city factories and shops were closed between 1 and 2.30 o'clock.

BRYAN'S COMMONER WARNS.

Says United States, Like Babylon, Is Destined to Fall.

Lincoln, Neb., Aug. 23.—"Like Babylon of old, the United States is destined to have its fall, with the Republican party in the role of Belshazzar." This is the pessimistic prediction of W. J. Bryan, who warns government leaders that there will be a dismal wakening if national politics are not changed. In his Commoner yesterday Mr. Bryan says:

"Just now the Republicans are rushing headlong into new conditions and are leading the country into untried paths. They are sure that we can maintain a republic here and at the same time administer a coloney in the Orient.

"They are sure that they can safely encourage the growth of private monopolies, notwithstanding the inevitable tendency of man to use power for his own selfish purposes.

"They are allowing United States judges to abuse the writ of injunction when asked against laboring men, while those who violate the anti-trust laws go free, blind to the fact that such discrimination makes more anarchists than all the speeches delivered by Herr Most."

WELLSVILLE

A BUSY SESSION HELD BY COUNCIL

County Commissioners Coming Soon to Co-Operate With the City.

AN IMPORTANT NEW ROAD

Cemetery Trustees to Pay One-Half for Paving Spring Hill Avenue—Payment of Several Bills Due Contractors Provided For.

A host of unfinished business was transacted by the Wellsville council last evening at the special meeting. In the absence of City Clerk J. W. McQueen, John F. McQueen acted as clerk pro tem.

A communication from Trades and Labor Council was read asking the solicitor and council to participate in the Labor day parade. Council thankfully accepted the invitation and placed themselves at the disposal of the Trades and Labor Council and instructed the clerk to notify Trades Council.

A communication was read to the effect that the county commissioners will be in this city in a few days for the purpose of letting the contract for a new road entering this city, a full account of which was published in this column a few days ago. In the communication it was asked that the city engineer be instructed to be at the disposal of the commissioners on that day to aid them in any way that he possibly could. The matter was brought to a motion and was finally carried.

It was reported that the cemetery trustees had a surplus fund on their hands which might go towards paying for part of the paving of Spring Hill avenue. The matter was discussed for some time, and it was found that the cemetery trustees would agree to pay for one-half the expense of paving that thoroughfare. They would rather do this than go to the expense of putting in a new sidewalk all of the way up the hill.

A motion was at once made ordering the clerk to advertise at once for bids for the paving of Spring Hill avenue a width of 15 feet.

Five resolutions were passed calling for the issuing of certificates of indebtedness for different paving work by Rinehart Bros. and E. A. Freshwater.

Resolution No. 1—For the issuing of certificates of indebtedness to E. A. Freshwater for $285.20 due and payable four months after date at 6 per cent interest. For work on Fourth street paving.

Resolution No. 2—For the issuing of certificates of indebtedness to E. A. Freshwater for $100.80 due and payable five months after date at the rate of 6 per cent. For work on Maple alley.

The other three resolutions called for the issuing of certificates of indebtedness to Rinehart Bros, due and payable five months after at the rate of 6 per cent. They are all dated August 22, and are for work on Clark avenue to the amount of $1,156.50, Commerce street to the amount of $261 and Twenty-second street to the amount of $106.80. All five of the resolutions were passed.

City Engineer Leith took the floor and objected to the grade of Clark avenue, claiming that the present grade is such that the street will be left in a peaked condition, making a bad appearance. Mr. Leith stated that the cost of changing the grade would amount to about $00, or a rate of 40 cents per yard. No action was taken because of there being only seven councilmen present, as eight are required to transact business of this character.

Objection was made by one of the councilmen about the condition of Fifteenth and Seventeenth street. He said that some action ought to be taken by council towards draining the water off these two streets, which has been standing there for some time. The matter was left in the hands of the improvement committee, which was given the power to act. The matter of clearing away the filth at the foot of Seventh street was also left in the hands of this committee.

Councilman McLain at this point called the attention of council to a very defective spot in the Kelly avenue paving. It seems that there is a small spring under the paving at the place mentioned and the only way to get out of the difficulty would be to drain this water off by sewer, as it is this water that causes the defective place.

A committee composed of Councilmen Shoub, McLain and Brennan were appointed with power to act and investigate the matter.

After many other minor matters had been discussed, but no action taken, council adjourned.

FIGHTERS DISPUTE

Over Who Gets the $300 — Another Match Is Probable.

Lawrence Lutz, the Beaver Falls pugilist, who succeeded in knocking out "Skinny" Bunting early yesterday morning, was here yesterday afternoon attempting to secure the $300 forfeit money which is at present in the hands of S. W. Connor of this city. It is contended that the money rightfully belongs to Bunting and that he will receive it in a day or two, although Mr. Connor at present is undecided as to whom it rightfully belongs.

The dispute is over the date, the articles of agreement stating that the fight was to have been on August 21 at 11 o'clock. Bunting was there at the time and ready to go into the ring, it is claimed, while Lutz did not arrive until after midnight or on August 22.

Bunting yesterday challenged Lutz to another fight under different circumstances within 60 or 90 days from date in a closed hall, allowing the Pittsburg Dispatch to appoint a referee. Lutz did not accept, but said that he would fight "Skinny" at the Nonpareil club in Beaver Falls in 60 days, providing Bunting would agree to the regular club referee. Bunting would fight Lutz in Beaver Falls for $500, providing Lutz would agree to allow the Pittsburg Dispatch to name the referee. Lutz did not state whether he would accept, but it is thought that he will and that 60 days will see them do battle once more.

Entertained Her Friends.

Miss Mary Anderson, who resides at the corner of Lisbon and Second streets, entertained about 20 lady and gentlemen frienos last evening in honor of the Misses Silver and Maddox, both of Washington, D. C., who are visiting friends in this city. Music, dancing and games were enjoyed and light refreshments were served.

Took Bunting's Wheel.

Ed Bunting, pugilist, lost a bicycle yesterday. It was seen disappearing in company with John West, who hails from Pittsburg. He is also a fighter. The tire got punctured and West had to walk. Bunting overtook him and thumped him. Officer Thorn arrested West.

Arrested and Fined.

Harry Glover was arrested yesterday morning by Chief Thorn for being drunk and disorderly. He was given a hearing before Mayor Fogo yesterday afternoon and was fined $4.60.

Robert Galvin, of the West End, has returned from an extended trip through California.

Dr. B. R. Park left yesterday for an extended trip in Canada. He will return inside of two weeks.

Misses Myrtle Clyde and Lizzie Cash will visit Mrs. Charley Hawkins at Salineville over Sunday.

Mrs. and Mrs. James Kenyon and son of Verona, Pa., are visiting at the home of Oliver Mann, on Fifteenth street.

Mr. and Mrs. W. E. Smith, of Front street, are entertaining John Paul and daughter, Mrs. F. T. Woodward, of Onslow, Iowa.

B. A. Hartshorn, of Main street, went to Canton yesterday where he will enter the Aultman hospital. He has been ill for the past few weeks.

HIS BIRTHDAY

Handsome Presents Bestowed Upon Physical Director Stephens, of the Y. M. C. A.

The twenty-ninth anniversary of P. J. Stephens, physical director of the Y. M. C. A., was remembered by members of his classes in a manner most complimentary to the professor. Several of them pooled issues and gave him a handsome watchfob, with superb gold ornaments.

Another gift was a beautiful scarf pin; still another, from the juniors and intermediates, a Bagster's art Bible. A box of candy and two other books were among the presents he received.

The director's faithful work for his classes is more and more appreciated.

NEW BALL FIELD WAS PUT TO USE

The Y. M. C. A. Athletic Grounds Opened With a Game Yesterday.

HOME TEAM VICTORIOUS

By Just One Score, Made in the Final Inning—Plenty of Talent Apparent in the Contest—Patterson Pitched Well.

The new Y. M. C. A. Athletic grounds were formerly opened yesterday afternoon by a base ball game between the H. P. Ford club, of Pittsburg, and the Y. M. C. A. team, of this city. Had it not been for the one inning the game would have been cleverly played. As it was, no cleaner ball playing has been seen in this part of the country. The attendance was not large, although there were a few in the grand stand, and treble this number sat on the railroad tracks and watched the game.

The grounds are somewhat rough at present, but after a little use and with the aid of a heavy roller, the field will be best in this part of the state.

Patterson, of Wellsville, pitched a good game for the local team, while McNutt, who played his first game in eight years, landed on the ball several times and made three hits during the game, one of which was for three sacks, and resulted in the scoring of two runs.

Then there was "Bobby" Smurthwaite, one of the old-time professional players. Bobby had not been in a game for two years, so he said, and felt a little stiff. However, he demonstrated clearly that he is just as good a player today as he ever was, not excepting the days when he played short for the old Steubenville Champions, a team that was known all through eastern Ohio for its fast fielding. Joe Carey also showed that there was still some base ball blood left in him. He also made a three-base hit and fielded everything that came his way.

Through rank decisions on balls and strikes, Umpire Hester gave the visitors two runs in the sixth inning. It was also in this inning that Hufnagle, who played center field for the Fords, clearly demonstrated that he could play baby ball. His actions caused him to be hooted by the crowd. It was all caused because Umpire Hester called a strike on him which Hufnagle though should be a ball. "I won't play," said the big fielder, and then sat down on his bat. It is to be hoped that his actions will not be repeated again today. This crack was the only thing that marred the pleasure of the game, and taking it all through the game was a good one.

Lawrence, the pitcher for the Ford's is an old Homestead player, and defeated the East Liverpool team during its recent visit to that town, and he also defeated the All-Cubans.

The score:

Y. M. C. A. .....0 0 0 0 5 1 0 0 0 1—7
H. P. Fords .....0 0 0 1 0 0 3 1 0 1—6

CAS EXPLOSION

Inflicts Painful Burns On Benjamin Deame, a Mill Worker.

Benjamin Deame, residing in the Shrader block, on Virginia avenue, was badly burned about the face and neck this morning. Deame is employed at the mill, and his duties require him to feed a gas producer. He was in the act of emptying a hopper of coal into the apparatus, when the flames shot out from a peep hole and ignited a quantity of superfluous gas above the machine.

An explosion followed, and the man was painfully burned. He was taken to his home and medical aid summoned. The burns were dressed, and the injured man is now resting easy. It will require several weeks for the wounds to heal.

Building is Brisk.

Building operations are being pushed in Chester, and contractors are winding up the work in hand in order to have it all completed before cold weather sets in. The foundation for the Faulk Bros.' mill has been finished and carpenters will begin their work without delay. The King business block in Carolina avenue is almost ready for the plasterers, while the large Allison building near the park will be fully completed in a few days.

Plumbers Picnic Today.

The excursion and picnic of the master plumbers of Pittsburg is being held at Rock Springs today. This is one of the few outings to be held at the resort this season where those in charge have purchased all the privileges, and the entire crowd will enjoy the numerous amusements free of all charge. Arrangements have been made for the accomodation of 1,200 picnickers.

Mrs. Banfield's Suit Settled.

The forcible detention case of Mrs. W. A. Banfield against Mary Riley has been settled. The interested parties met at the office of Justice Johnston in company with thir attorneys, and a settlement was effected without taking the case to trial. Mrs. Riley will pay $12.50 and vacate the premises next Monday.

Attachment Suits.

Mrs. J. B. Molen has begun two attachment suits in Justice Johnston's court against Roy McCalmont and Ed. Stoffel, employes of the Chester tin mill. Both claims are for board, that against the former for $22.80 and the latter for $25. The cases are being tried this afternoon.

Loop Into the Park.

The grading preparatory to putting in a loop at the park will be completed today, and the tracks will be laid early next week. It is thought the entire job can be completed by the first of the month.

Baseball Contest.

The fourth game of the series between the New Cumberland and Toronto baseball team is being played at the former place this afternoon. A number of Chester people are in attendance.

CHESTER NOTES.

Sheriff C. E. Allison, was in Chester today visiting friends.

Harry Chapman has resigned his position as oddman at the Taylor, Smith & Taylor pottery.

James Dawson and Thomas Oakes hold the record for squirrel shooting. They got eight in one day.

Miss Bessie Swearingen has severed her connection with the firm of Allison & Hoobs, and returned home.

SCHEME TO SETTLE STRIKE.

Rev. S. Edward Young, of Pittsburg, Working to This End.

Shenandoah, Pa., Aug. 23.—Rev. S. Edward Young, pastor of the Second Presbyterian church, of Pittsburg, has a plan for the settlement of the coal strike which he will submit to President Mitchell and the operators within the next few days. Mr. Young has spent the last 10 days in this region during which time he has made a thorough investigation of the cause which led up to the strike.

His plan has already received the approval of the strike leaders, to whom it was submitted, and if President Mitchell endorses it upon his return to strike headquarters, Mr. Young will proceed at once to New York to confer with the operators and outline plans for them. The details of the plans have not been given out, but it is known that it consists of arbitration along lines that have never before been suggested, and that it would require the co-operation of President Roosevelt.

Mr. Young has implicit confidence in the success of his scheme.

CONFLICTING TESTIMONY GIVEN.

Some of Witnesses Testificed Ronemus, Not McElmoyle, Killed Strike Leader Sharpe.

Tamaqua, Pa., Aug. 23.—Conflicting testimony was given yesterday at the inquest held to place the responsibility for the death of Patrick Sharpe, who was killed during a clash between strikers and deputies at Nesquehoning on Monday evening. Twelve witnesses swore that Sharpe had been killed by Harry McElmoyle, while five others hold that the fatal shot had been fired by William Ronemus. One witness said Ronemus admitted that he shot him. Some of the witnesses claimed that Sharpe had not struck or abused any of the deputies, while others said that he had.

After hearing the testimony of the deputies the jury adjourned for deliberation. A verdict will be rendered this afternoon.

Yesterday morning Ezekiel John, the lieutenant of the deputies, was arrested, charged with complicity in the murder of Sharpe. He is now in the Mauch Chunk jail.

ELEVEN INNINGS TO DECIDE GAME

Homestead Then Came Out Ahead Owing to the Locals' Errors.

IT WAS A FINE CONTEST

Neither Side Scored During the First Four Innings And the Score Stood 3 to 3 in the Ninth—A Hard Fight And Hard Luck for Our Boys.

Well, we'll have to try it over again Saturday afternoon with Homestead. After having the game won yesterday it was given to the visitors on errors. The locals made a hard fight to regain the ground they had lost, and it was not until after 11 innings of play that the visitors were able to wrest victory from them.

The Homestead boys did it to perfection, however, and in the eleventh inning Winters was touched up for three hits and four runs which cinched the game. "Old Man" Reark wears a downcast look. He dropped another. And it was one which told, for otherwise the game would have gone to East Liverpool by a score of 3 to 2 at least.

The visitors had not been able to score until in the fifth inning Reark dropped Bennett's long fly to center field. There were a number of the fans that were unable to realize that Reark had dropped the ball, as it bounced back up in his hands again. But he did, and Bennett scored on a long hit to right field by Torreyson.

When the visitors came in for the first half of the ninth the score was 3 to 1 in favor of the locals and everything looked well. Osbourn was the first up, but Jones, who is scheduled to pitch today, was substituted for him, and made a clean hit. Bennett then followed with another single.

Nagle and Torreyson followed with singles and Bennett and Jones scored, making a tie. Neither side scored until in the eleventh the visitors opened up their arsenal and took a lead that overshadowed the locals and they were unable to make even an attempt to overcome it.

Jones, who had taken Osbourn's place in the game, was the first man up in the eleventh and he reached first on an error by Maag. He was advanced and Bennett reached first on the second hit by the latter. Winters then became wild and Torreyson was hit by a pitched ball and the bases were filled.

Marshall was then up. Nothing was expected of him, for the reason that he had not made a single hit in the two games. But the unexpected always happens and Marshall picked out a nice one for two bags and Bennett and Jones scored. Both Torreyson and Marshall scored a moment later on a long single by Mullen.

East Liverpool made its runs in the sixth and seventh. Bennett was all that could be expected of a pitcher, and the locals were unable to do much with his delivery. No hits or runs had been scored up to the sixth inning when L. Emmerling lined out a safe one. Winters then hit safe and Emmerling went to third and home on an error by Marshall at second.

Again in the seventh Davis hit safe and Heckathorn picked out four bad ones. Both players scored on a long hit by Webb. After this the locals never had a chance of scoring and the game ended with the score 7 to 3.

NOTES OF THE GAME.

Maley will probably be in the box against Jones.

It was no fault of Winters that he did not win his game.

Just to think! Reark dropped another. But then just think of the number of hard chances he has had and improved.

A number of local sports who backed Homestead for the two games are thanking themselves that they have been able to split even.

Finch umpired another good game. There has as yet been no cause for complaint, although the usual kickers have the occasional groan when things do not go to suit them.

Jones was put in to bat for Osbourn in the ninth and he had to be kept in the game. The visitors had no cause to worry over this fact, as he secured one hit and two runs in the three innings.

Lafe Emmerling received a bad jolt to the thumb on his right hand in the first part of the seventh. An effort was made to get the injured member in shape so that he could continue in the game, but his brother Duff was compelled to take his place. Both played a good game back of the bat.

ACT QUICKLY

Delay Has Been Dangerous in East Liverpool.

Do the right thing at the right time.
Act quickly in times of danger.
Backache is kidney danger.
Doan's Kidney Pills act quickly.
Cure all distressing, dangerous kidney ills.
Plenty of evidence to prove this.

Mrs. Caroline White of 225 Railroad street, East End, says: "I used Doan's Kidney Pills and found great relief from the treatment, although I am 70 years of age, and had about given up all hope of ever being helped. I took medicine and my back ached just the same, grew stiff and lame when sitting long or when lying in bed and sharp twinges of pain and other symptoms convinced me my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of, I got a box at the W. & W. Pharmacy. After using that for a short time I could plainly notice the good effects they were causing. I continued some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advise others to try them feeling confident if they do so they will have no cause to regret it."

WAR GAME GOES ON.

Higginson Still Continued to Watch For the "Enemy's Fleet.

ATTACK WAS HOURLY EXPECTED

Under the Rules of the Contest Pillsbury Was Due Near the Coast. Movements of the Ships That Were Watching.

Rockport, Mass., Aug. 23.—When the sun came up yesterday the atmosphere was as clear as it could be, and extended observations were made from all signal and lookout stations. Each reported that all was well and that there was no sign of the enemy. The receipt of these early messages interrupted the quiet which had prevailed at the naval headquarters here since 2 a. m., unbroken save by one report received from Portland at 3:45 a. m. This report was like most others sent in, that all was quiet. The report added that scout boats were sighted outside the harbor.

It was not long after sunrise that the fog set in. It was a dense cloud and first impenetrable to the eye beyond a distance of 10 or 12 feet. Just before 9 o'clock there were indications that the sun was burning through the mist on shore.

Little Known on Shore.

Aside from the fact that the Kearsarge, at least, was still at anchor off this place, little was acthally known here as to the positions of the ships of Admiral Higginson's squadron. Scouts had been reported off Portland. The cruiser Brooklyn skirted the end of Cape Cod early in the forenoon and went across to Plymouth. Thus both ends of the line of defense were found to be well guarded, and as the naval experts here felt reasonably sure that the Alabama and Massachusetts were with the Kearsarge off Straits Mouth Point, the center was thought to be safe. The station keepers here have been advised that the lookout line has been extended to Sankaty Head, on Nantucket, where the wireless telegraph station is located. From there all incoming ships will be queried as to whether or not they have seen any of Commander Pillsbury's ships and the results of these investigations will be signalled to the scout boats of the land stations.

By 11 o'clock the fog had lifted and the battleships were seen in their usual positions. Observation in the distance, however, was impossible, owing to a haze which hung low over the water. All the signal and lookout stations reported during the forenoon, showing that the message system was intact. All the scout boats were heard from before 11 o'clock, either at the station here or on board the Kearsarge.

It is larned that the rules of the manoeuvres permit the destruction of the ships of the opposing squadron and it appears that the fear that Pillsbury may dash in and "disable" one of his vessels is one reason why the defending fleet is kept so compact by Admiral Higginson.

Weather Conditions Were Changeable.

In the afternoon the weather conditions again were changeable. At 3 o'clock the fog deserted Rockport and passed far out beyond the battleships, hanging away in the east more in the form of smoke.

From Straits Mouth Point the trio of warships could be discerned very plainly. Then suddenly it seemed as if the bank of fog were engaged in a race to the coast line again. The battleships could now no longer signal each other and the stations on Pigeon Hill and Straits Mouth were rendered for the time being out of action.

During the time that the fog prevailed the steel fighters remained motionless. Then confronting Admiral Higginson and his co-workers was the danger in navigating their vessels.

One Killed In Incline Accident.

Kansas City, Aug. 22.—A cable train crowded with passengers escaped from the control of the gripman in charge at the top of the Ninth street incline early yesterday morning, crashed into a train standing at the bottom. W. L. Taylor, gripman on the descending car, was killed, and a score or more passengers were passengers were bruised. The incline is 300 yards in length and descends at an angle of 45 degrees.

Relations With Turkey Resumed.

Washington, Aug. 23.—The state department has received a dispatch from Minister Leishman, at Constantinople, saying that amicable relations have been re-established between the legation and the porte. The sultan has directed that a portion of the agreement reached between Minister Leishman and the secretary of foreign affairs be carried out.

Receiver For an Ohio Corporation.

Columbus, O., Aug. 23.—A. L. Thurman was yesterday appointed receiver of the Mercantile Assurance company, an Ohio corporation. Three suits have been brought by stockholders, charging misrepresentation in the sale of stock. The company has been establishing branches in other states.

HACKING.

That word hacking is expressive to those who have experienced the aggravating constant cough, which is called a hacking cough. Sometimes it is the result of a cold, or of grip, and sometimes it is a consequence of catarrh, which unchecked has gradually involved the lungs in disease. Such a cough finds its cure in Dr. Pierce's Golden Medical Discovery which cures bronchitis, obstinate coughs, lung disease, hemorrhage, and conditions which, if neglected or unskilfully treated, lead to consumption.

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the State of North Carolina, who said the trouble had reached my lungs," writes Mr. J M. Patton, of Clotho, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicines. Will say Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me, and to-day I am well and hearty, and I will say further that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicines to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Cholera Morbus.

This is an extremely dangerous disease. In almost every neighborhood some one has died from it, and in many instances before a physician could be summoned or medicine obtained. Mrs. E. H. Delano, of Durant, Mich., is subject to severe attacks of cholera morbus. During the past four years she has kept at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and says it has always given her quick relief. During this time she has used two bottles of it. This remedy can be depended upon in the most severe and dangerous cases. The safe way is to keep it at hand ready for instant use. For sale by Alvin H. Bulger.

There's no soaking required if you use Mrs. Austin's Quick Lunch Tapioca. Ready in a minute. Your grocer can supply you. 9

In case of a tie in estimates, the amount offered will be divided equally among those entitled to it. Distribution of the awards will be made as soon after January 1st, 1903 as the figures are obtainable from the Internal Revenue Department of the United States for December.

Write your full name and Post Office Address plainly on packages containing bands. The Postage, or Express charges on your package, must be fully prepaid, in order for your estimate to participate.

All estimates under this offer must be forwarded before December 1st, 1902, to the FLORODORA TAG COMPANY, Jersey City, N. J.

You do not lose the value of your bands. Receipts will be sent you for your bands, and these receipts will be just as good as the bands themselves in securing Presents. One band from "Florodora," or two bands from any of the other Cigars mentioned above, will count in securing Presents the same as one tag from "Star," "Horse Shoe," "Spear Head," "Standard Navy," "Old Peach and Honey" "J. T.," "Master Workman," "Piper Heidsieck," "Jolly Tar," "Boot Jack," "Old Honesty," "Razor," or "Planet" Tobacco; or one "Sweet Caporal" Cigarette Box Front.

Send each estimate on a separate piece of paper, with your name and address plainly written on each. Blank forms for estimates will be mailed upon application.

Illustrated Catalogue of Presents for 1903 and 1904 will be ready for distribution about October 1st, 1902, and will be mailed on receipt of ten cents, or ten tobacco tags, or twenty cigar bands.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Back from Vacation—Rev. J. W. Gorrell returned from his vacation at Hebron, W. Va., his parents' home, last evening, and will preach tomorrow.

Barbers Will Parade—The Barbers' local has made final arrangements for the Labor Day demonstration. This local will have a good representation in the parade.

Licensed at Steubenville—Marriage licenses have been issued at Steubenville to Thomas E. Boyd, of East Liverpool, and Mary E. Hutton, of Brilliant; C. D. Zellars, of East Liverpool, and Ethel Hastings, of Brilliant.

Fishing is Fine—A letter was received in this city yesterday from William Leigh and Frank March, who are spending several weeks up Lake Michigan. The young men are enjoying their trip and have to the present made a number of sensational catches while fishing. The record for one day this week was 100 caught, some of them being very large. The friends of the men were a little skeptical when they heard the story, but it is probably true.

Pupils Entertained—Miss Mary Earl entertained her Sunday school class at her home on Fourth street last evening. Miss Earl is a teacher at the First M. E. church. Music and games were indulged in until a late hour when refreshments were served. A very enjoyable time was spent.

George Casey Ready to Play—Samuel Carey, of this city, is in receipt of a letter from his son, George Carey, who has been playing first base for the Washington American League club, during the season, stating that he expects to get back into the game again when the Washington club opens a season at Cleveland, on August 28. Officer Hugh McDermott will go to Cleveland to see the opening game and will present Carey a pitcher bearing an excellent likeness of the famous first baseman on its face.

ANOTHER DIVIDEND OF 3 PER CENT

The 27th Declared by the Potters Building and Savings Company.

BEST WAY OF SAVING

Is Holding Stock in Such a Thriving Institution—The Rich And Poor Have Equal Chances—All Earnings Paid in Dividends.

The Board of Directors of the Potters' Building & Savings company, at their meeting Thursday evening, declared a semi-annual dividend of 3 per cent payable September 10.

This dividend is the twenty-seventh they have declared in the 13½ years since the company was organized and will make $367,189.23 that the company has paid to its members in dividends, and well illustrates the superiority of a building and loan association over a savings bank. For, had the members of the Potters' Building & Loan Association been simply depositors as in a savings bank they would, in the same time, have only received $246,126.15, 4 per cent. The difference of over $123,000 would have gone into the pockets of the few stockholders or owners of the savings bank, it being what is known as a close corporation; that is, there is only a certain amount of stock to be had, and as a usual thing the better the stock pays the harder it is to get and the fewer the people who hold it. In fact, a workingman or woman can't get it. On the other hand if it is not worth more than par or 100 cents on the dollar there is plenty of it to be had and anyone can get it.

On the contrary a building and loan company is an open or mutual corporation; that is, you can take stock in it at any time, no matter whether you are rich and have thousands of dollars to invest or poor and have only a few cents you want to save. All of its earnings after expenses are paid in dividends and paid in the shape of a dividend on whatever amount of money a person has in.

Rich and poor share alike. If a 3 per cent dividend is declared for a six months' business as the Potters' Building & Savings company has just declared, and Joe has $100 in the company he will get $3, while Jim, who has $50 in, will get $1.50. There are no preferred people who get a dividend on what some other person's money has made for them. True co-operation or mutuality is the key note of the company and its methods.

It is true this company receives money on the savings bank plan and pays 4 per cent interest on the same, but the party putting his money in is given the privilege of the regular building and loan stock plan and chooses for him or herself. Whatever profit is made from the money left on this basis goes into a contingent or surplus fund, which can only be used to pay any losses that may occur.

This fund in the Potters now amounts to over $37,000, and in the 13½ years the company has run there has never been one cent taken out of it. As this fund grows in amount so grows the security and safety of the institution. 199-h

FAREWELL RECEPTION

To Be Tendered Rev. and Mrs. W. H. Gladden On September 11.

Rev. and Mrs. Wm. H. Gladden have issued invitations for a farewell reception to be given at the M. P. church Thursday evening, September 11. The occasion is also the twenty-eighth anniversary of their marriage which fact makes the occasion one of twofold interest.

NOWLING'S ORCHESTRA SUNDAY EVE AT ROCKSPRINGS, FREE. 199-h

PRIMARIES SATURDAY

Hancock County Democrats Will Select Candidates for County Officers.

The Democrats of the several magisterial districts of Hancock county, will meet next Saturday for the purpose of selecting district nominees and choosing delegates to the county convention to be held at New Cumberland on Monday, September 1. The following meeting places have been selected: Grant district—Chester school house; Poe—Fairview school house; Butler—Holliday's Cove school house; Clay—Court house, New Cumberland.

An unusual amount of interest is being manifested in the selection of candidates for county officers, and preparations are being made for a hard fight. The offices to fill are: Prosecuting attorney, clerk of the circuit court, clerk of the county court, representatives to the house of delegates and county superintendent of public schools. The ticket placed in the field some time ago by the Republicans is a strong one and will doubtless be elected by the usual majority.

Perhaps the hardest fight will be that for representative. The Republican nominee is Robert Newell, of Grant district, and he is considered a very strong man. Against him it is said will be pitted Robert J. Ramsey, a young attorney of New Cumberland, who is not likely to overcome the usual 300 Republican majority.

WHOLE FORCE FIRED

Proprietor of Bakery Would Not Tolerate Disorder About the Shop.

The entire working force at the Thomas bakery was discharged yesterday, and for a time at least, it looked as though operations would have to be suspended.

Arthur Thomas, owner and manager of the establishment, is responsible for the condition. At a very early hour in the morning the proprietor asserts he went to the shop on Union street and found the force, consisting of three men, acting in a disorderly manner. He ordered them to stop, and when they refused, discharged them all.

The men are members of the bakers' union, and at once threatened to make charges against the proprietor, but to the present nothing of that sort has been done. Mr. Thomas endeavored to keep his foreman, Mike Peterson, who was in no way concerned with the trouble, but he went out with the others.

The proprietor telegraphed to Pittsburg and Cleveland yesterday to the headquarters of the union in both cities, making a brief statement of the facts, and asking that men be sent here at once. A force reported before the day ended and the shop is now in charge of a union force.

Coming On Special Train.

The special train from New York which will bring the guests from that city to the Knowles-Marshall wedding, next Wednesday, will leave New York either Sunday or Monday morning. The guests on this car will be Mrs. Ida K. Stafford, Miss Rita Rodriguez, Miss Ethel Holliman and Messrs. J. D. Thompson and Col. W. C. Brown.

MOORHEAD GREETED.

Ovation Accorded President of U. P. Theological Seminary at Winona.

THE "RIGHTEOUSNESS OF GOD."

This the Subject of Mr. Address—He Criticised Twentieth Century Testament—Conference on Sunday School Work, at Bible Conference.

Warsaw, Ind., Aug. 23.—Dr. W. G. Moorhead, president of the United Presbyterian Theological seminary, was given an ovation yesterday and greeted by the largest gathering at the National Winona Bible conference. In the course of his address on the "Righteousness of God," Dr. Moorhead severely criticised the Twentieth Century Testament and took occasion to voice emphatically his sentiments against what he termed "new fangled religious methods." The day's program was opened with a conference on Sunday school work, conducted by W. C. Pearce and Mrs. Lamoreux, of Chicago, hte latter addressing the body on the "Art of Primary Teaching." Rev. John Balcolm Shaw, of New York, delivered an interesting address on the topic "Jesus' Prayer for Us." Following this Rev. A. C. enos, of the McCormick Theological seminary, Chicago, addressed the conference on "New Methods of Studying the Bible." Another address was that of Rev. E. T. Bulgin, of Chicago, on "The Motive of Service." Rev. James E. Rodgers, of Springfield, Ills., had the subject, "How to Use the Bible." Rev. George Stewart, a southern evangelist, delivered the principal address last night.

Y. W. C. A. CONFERENCE.

That For Western Field, Including Ohio, Opened.

Williams Bay, Wis., Aug. 23.—The eleventh western conference for young women opened in the Y. M. C. A. camp at Lake Geneva yesterday afternoon, the delegates covering the territory from Ohio to Colorado. This is one of a series of four conferences held by the American committee here, at Capitola, Cal., Asheville, N. C., and Silver Bay, Lake George, N. Y. It is led by Miss Elizabeth Wilson and Miss Effie Kelly Price, of Chicago. The opening address was made by S. D. Gordon, of Cleveland, O., who began his series of addresses on spiritual power.

Three classes of Bible study are being conducted by W. W. White, principal of the Bible Teachers' college, New York, who teaches the gospel of Matthew; Don C. Shelton, of the International Y. M. C. A., who leads a course on Old Testament characters, and Miss Mary L. Babcock, of New York, who teaches Bosworth's studies in the Acts and Epistles. Three conferences to discuss practical methods of work in city and student Young Women's Christian associations are held daily. The city conference is led by Miss Helen F. Poone; the student conference by Miss Effie Kelly Price, and the missionary conference by Miss Bertha Conde and Miss Mabel Milham.

19TH YEAR. NO. 199. EAST LIVERPOOL, O., SATURDAY, AUGUST 23, 1902. TWO CENTS.

THE LABOR PEOPLE ARE IN CONFERENCE AT ALLIANCE TODAY

Thomas J. Duffy, East Liverpool's Sole Representative There—Bell Is the Favorite For Congress.

Alliance, August 23.—(Special)—The convention being held at Alliance today by representatives of labor throughout the Eighteenth district was called to order in Bradbury hall at 10:30 this morning, with Fred A. Johnson, of Alliance, as temporary chairman.

Mr. Johnson stated the object of the meeting, and Ed Hageman, of Canton, was made temporary secretary.

After a credential committee had been named it was decided that the committee on credentials should do its work during a short intermission, and that a permanent organization be formed during the afternoon. The motion prevailed.

At 11:15 the session reconvened and the credentials committee reported as follows:

Alliance, 23; Youngstown, 5; Wellsville, 3; Beloit, 3; Salem, 17; Massillon, 2; Washingtonville, 2; Canton, 4; Sebring, 6; East Liverpool, 1; a total of 72.

The delegates were armed with a considerable number of proxies, but as the credentials presented by them did not entitle them to cast the vote, it was decided to allow the convention to decide the question later on.

The credentials committee recommended that T. J. Duffy, of East Liverpool, be allowed a voice in the convention. Mr. Duffy is the only man present from East Liverpool, the strongest union town in the district. This fact is frequently remarked upon. R. H. McDowell, of Salem, prepared a motion that, inasmuch as Mr. Duffy carried no credentials, but was present as the seceretary of the N. B. of O. P., he be seated as a delegate.

Mr. Duffy secured the floor and stated that he had no desire to be present as a delegate, but thought he was entitled to a voice as the representative of labor. The motion was adopted.

On motion of S. S. Carnahan, of Wellsville, the temporary officers were made permanent. A motion prevailed that the sessions be open to the public. At this point the primary object of the convention, the consideration of the advisability of placing a congressional candidate in the field, was brought up. A motion carried that each of the 72 delegates express their opinion on the subject, and vote to determine the course of the convention. At 12:10 two Wellsville delegates had been heard, both favoring making a nomination. The convention then adjourned till 1 o'clock.

The candidates so far named are: Chas. Bonsall, of Salem; T. J. Duffy, of East Liverpool, and Mayor Bernard Bell, of Massillon.

While Duffy appeared to have a majority of the delegates a week ago, at 1 o'clock today it was evident that Bernard Bell, of Massillon, had sprung into first place.

To an outsider it looks as though, should a nomination be made, Bell will be the man. Bonsall, of Salem, is probably second choice, and Duffy third.

NEW RURAL ROUTE

FREE MAIL SERVICE BETWEEN THIS CITY AND ROGERS.

Postoffice Inspector Coming to East Liverpool Next Week to Arrange For It.

The new rural mail route will soon be established from the East Liverpool postoffice. Postmaster Surles has received notification that George Pate, special agent and examiner for the postoffice department, will be in the city Tuesday for the purpose of holding an examination for a carrier on the new route.

The route will be between this city and Rogers. The carrier will leave Rogers at 9 a. m and will pass through East Camel, Clarkson, Azelda, Park and Cannon's Mills. He is expected to arrive in this city at 3 p. m., and leave with the mail on the return trip at 3 p. m. The route will be covered daily.

COMMITTED SUICIDE

Prominent Physician With Relatives Here Took His Life at Bridgeport.

Dr. E. N. Riggs, aged 60, one of the most prominent physicians of Belmont county, committed suicide by shooting at Bridgeport, where he had lately moved from Powhatan. He had been ailing for some time and it is thought he was temporary deranged. He leaves a wife and one son.

Dr. Riggs had a number of relatives in this city, who were shocked to learn of his tragic death. Dr. Riggs married a daughter of Captain William Abrams, a noted Pittsburg riverman.

LOOKING FOR A MATCH

Spike Hennessy in Town And Eager to Meet Some Pugilist.

Joe, better known as "Spike" Hennessy, of Louisville, Ky., is in the city visiting relatives. He is a machinist by trade, but he has another occupation, that of fighting. Hennessy called at this office this morning and left a challenge to fight any man in this part of the state at 110 pounds and for a purse of any size. Hennessy has quite a record. He has had 30 fights, of which he won 26, lost 1 and 3 were draws. The fight he lost was at New Orleans when he fought Walter O'Brien, about a year ago. O'Brien also recently met Terry McGovern and lost that fight.

Hennessy's fight with O'Brien lasted four rounds and was stopped by the police. Another notable fight Hennessy had was at Chicago a short time ago, when he met Jimmie Barry, who was at that time the echampion bantamweight fighter of the United States. This went on for six rounds and was a draw. Hennessy has a fight on at Louisville on October 2, but desires an engagement in this part of the country before he returns to his southern home.

BRITTLE BRICK

Consignment Not Up to the Mark Which Will Not Be Used for Paving.

Contractor Thomas McLaughlin, who received the contract for the paving of College street, is having trouble in regard to the character of the brick which he has already placed on the ground for the work. The contractor has already unloaded one car of brick which does not meet with the approval of the city engineer or the street committee, and it is not probable that this brick will be used.

The contractor states that the brick are not of the class that he ordered and that he will return them to the manufacturer. Engineer Kelly was the first to discover the nature of the brick which was being placed along the street and he called the attention of the street committee to them. The brick are very brittle and give the appearance of having been fired too fast, which causes them to be very easily broken.

The manufacturer of the brick has been notified of the defect and he has an attorney looking the matter up. The street committee states that they will not allow the brick to be put in the street, as they are not according to the specifications, and the contractor will no doubt send them back to the manufacturer.

Brother Will Be Plaintiff.

Robert Slack, foreman at McNicol's pottery, has returned from Trenton, where he had been called by the death of his father. Mr. Slack states that the suit which has been instituted in regard to the division of his father's estate will be in the hands of his brother, who resides in Trenton. It was necessary for Mr. Slack to return to his work in this city, and he gave his brother the power of an attorney.

CITY WILL ACT ON IMPROVEMENT

Much Needed Work on Calcutta Road Is to Be Hastened.

SPECIAL MEETING CALLED

City Council Will Convene Monday to Legalize the Letting of Contracts in a Way That No Objection Can Be Raised.

The city will fill in the necessary amount of earth to bring the pavement in front of the Stewart property on Calcutta road up to the established grade. This decision was arrived at by City Solicitor McGarry and Engineer Kelly, at a conference held yesterday.

The taxpayers on the Calcutta road who have been assessed for the improvement of the thoroughfare have secure legal advice and refused to pay the assessment until the sidewalk in front of this property was constructed.

It was learned by the city officials that an injunction was to be asked for about the last of August, which would prevent the city clerk from certifying the amount of the assessment to the county auditors. If this were done, it would mean that the general fund of the city would have to carry the assessment for another year, as it is necessary for the assessment to be certified to the county auditor by the first of September.

The city has now taken the matter in hand and the fill on the sidewalk of the property will be put in immediately, so that the parties who are objecting to the improvement have received and are receiving the benefit of, will have no opportunity to object to the collection of the assessment for it.

It is understood that all the property owners want is that the contract be finished to the specifications and the city will overcome, the difficulty of dealing with an administrator with a limited power by putting the work through and looking after the payment afterwards.

A special meeting of the city council will be held Monday afternoon for the purpose of taking legal action in regard to the letting of the contract for the filling in and paving of the sidewalk in front of the Stewart property.

Solicitor McGarry looked up the actions of the previous councils in regard to the improvement. As the other residents appear to be looking for some loop hole to escape the payment of the assessment for the improvement the solicitor has been called upon to figure the matter out for the council. The outcome of the investigation is the calling of the special meeting.

YOUNG PUGILIST

East Liverpool Pottery Worker Knocked Out Steubenville Man With Ease.

Harry Watkins, a 17-year-old employe of the Buckeye pottery, is gaining something of a reputation as a pugilist. This week, before a crowd of perhaps 800 at Steubenville, he met Schaffer, a well known boxer of that city, and knocked him out in the third round, breaking Schaffer's nose.

Watkins has fought nine bouts and has never lost one.

POTTERS VOTING ON GIVING MONEY

Question of Extending Financial Aid to Striking Miners Neets Approval.

PROSPERTY IN TRENTON

Both in Sanitary And General Ware. Factory Inspector of New Jersey Under Fire—New N. B. of O. P. Local.

From a Staff Correspondent.

Trenton, N. J., Aug. 23.—The Trenton locals of the National Brotherhood of Operative Potters this week are voting upon the request sent to President A. S. Hughes from President Mitchell, of the United Mine Workers, for financial aid for the striking miners. The request of President Mitchell, which means the appropriation of the funds of the Brotherhood to aid another organization, is a question which is not covered by the constitution. For this reason, notices were received from Secretary Duffy by the Trenton locals calling for an individual vote, the result of which, is being forwarded by each local to East Liverpool.

The question thus far has met with the approval of all the locals and Tuesday night, Sanitary workers' local No. 15, besides voting for an appropriation from the National treasury, sent $50 to President Mitchell out of its own funds. Similar requests for assistance have been received by the other labor unions in this city and last Friday night, the Mercer County Central Labor union headed the list, with a donation of $25.

The sanitary plants are experiencing the biggest boom that has been known in years.

All of the shops are working full time and many are behind in their orders. About this time of the year, beginning about September 1, reaching up to Christmas, what is known to Trenton manufacturers as the dull season, begins. For the first time in the history of the sanitary trade, this period will be passed without notice this year, as most of the plants have orders which will keep them busy during the next six months.

A similar condition but not of such great proportions exists among the potteries manufacturing general ware. These plants at present are getting out new shapes for the holiday trade. Nearly all the salesmen have returned from their vacations and will probably be put on the road not later than the middle of September. In the general ware line, there is a decided falling off in toilet articles which market is fast becoming the property for the sanitary manufacturers.

This condition, together with the increasing demand for sanitary, has been the result of the big booms in building, which have, during the past few months, been launched all over the east. In preparing for a busy season, several of the potteries have placed large orders with the Crossley Machine company for pottery machinery.

In the line of organization, Vice-President Hutchins, of the Brotherhood of Operators, is still devoting his efforts toward getting the warehousewomen into line. Several preliminary meetings have been held and a membership committee was appointed to make a canvass of all the shops with the result, that thirty additional members have been received. An attempt was made some time ago to start an organization among the warehouse girls. No attempts of late have been made in this direction as Mr. Hutchins is desirous of completing his work with the men before an attempt is made to affiliate the women.

State Factory Inspector John C. Ward, against whom the potters of this city have a grievance for permitting children to work in the local plants, was the target of the New Jersey State Federation of Labor, which held its annual sessions in this city last Monday and Tuesday. The cumulative eveidence, which the labor organizations of the state, and particularly in the South Jersey glass blowing district, have been piling up against the inspector, took definite shape in the adoption of a resolution making sweeping charges of mal-administration and demanding his removal at the hands of Governor Murphy. The governor has promised the Federation that he will submit the charges against Ward to rigid investigation.

With the $1,000 donation of John L. Cadwalader made at the time of the dedication of the Trenton Free Public Library, the directors have secured several valuable works on ceramics which were opened to the public this week.

The trustees intend to make these works a distinct help to students of the Trenton Art School, decorative potters and makers of pottery ornamentation. The plates are the perfecion of color work and many of he designs shown are world famous.

The old Greenwood pottery meets with great difficulty in getting hard coal to fire the kilns. Soft coal will not answer the purpose infiring vitrified china as it does in general ware.

Harry E. Barlow, former mayor of Wilbur and one of the superintendents of the Mercer pottery, leaves in a few days for an extended tour through Canada.

The Mercer pottery company is getting out a new toilet set which it will soon have ready for the toilet trade.

POTTERY WORKERS ELOPE AND MARRY IN YOUNGSTOWN

Lucy Todd until last Wednesday evening was employed as a rubber in the decorating department at the Wallace & Chetwynd pottery, and now she has quit working. That is not all. She has also changed her name. This was done at Youngsgtown Thursday when she told all her friends that she was going on her vacation, and proposed going to Niagara Falls to spend a few weeks. This plant was not followed, but instead Miss Todd, whose home is in Wellsville, eloped to Youngstown, where she was married to Charles Krausse, who is employed in the Canonsburg (Pa.) pottery. The young couple went to Canonsburg immediately, where they will make their home.

It is said there was some objection to the marriage on the part of the parents of the groom, as they thought he was too young to get married and so told them. However, the plans of the young man were not changed, and on Thursday he also went on a vacation which landed him at Youngstown.

While all this was going on the facts of the marriage were known to a shopmate of the bride, Miss Gertis Golding, also a resident of Wellsville and also employed at the Wallace & Chetwynd plant. Last evening Miss Golding received a letter from Mrs. Krause, announcing her marriage, and today the fact was made known all over the pottery.

AFTER SEPARATION SINCE CHILDHOOD SISTERS ARE UNITED

The Romantic Meeting of Two Women, One of Whom Had Sought the Other For Twenty Years.

Owing to the persistent efforts of Mrs. P. Lane, 5138 Parker street, Pittsburg, to locate a little sister who was separated from her nearly 20 years ago the lost one has been found and the sisters are again happy. At the time the divorce proceedings of J. H. Luker and his wife were being tried, 19 years ago, Luker left hurriedly for Scottdale, taking his younger daughter, Myrtle, with him. She was left in charge of a family named Miller, who afterwards moved to Canton, in order to adopt the child.

Myrtle lived with the Millers until a year ago, when her foster-mother died. Mrs. Lane has since searched for her, missing her in East Liverpool, as she was away on a vacation.

Miss Miller has had an experience which does not fall to the lot of one person in 10,000. She was but 2 years of age when the courts separated the parents. She was adopted by the Millers, and when they removed to Canton accompanied them. It was while a resident of Canton that Mrs. M. A. Calhoun, of this city, met Miss Miller. They became very warm friends, and when Mrs. Miller died several years ago and the girl's adopted father married again, Myrtle came to live with Mrs. Calhoun in East Liverpool.

Miss Miller secured employment in one of the local potteries as a transferer in the decalcomania department. Meantime Mrs. Lane, of Pittsburg, through a diligent search at last succeeded in locating the Millers, only to find that she had left them and come to this city. Several weeks ago Mrs. Lane took advantage of one of the excursions to come to this city. She again met with disappointment, as her sister was out of town.

As soon after as possible the two women arranged for a meeting at Pittsburg. The meeting took place, and the sisters have resolved that tney will never again be separated.

PRIZE FOR G. A. R.

Handsome Flags to Be Presented Posts Showing Largest Increase.

Post Commander Daniel McLane, of the local G. A. R., is in receipt of a circular from Department Commander Walton Weber, outlining a plan for the awarding of two flags to the posts of the state.

A handsome stand of colors is to be given to the post showing the largest percentage of net increase on December 31, 1902, over its report for the term ending June 30, 1902. The other flag is to go to the post making the largest gain in the number of members in good standing for the same period.

The flags are the handsomest and most costly that can be procured. The local post will be found well up in the list when the competition ends.

AN APPEAL ENTERED

Salem Woman Objects to the Forcible Collection of a Judgment.

Lisbon, August 23. — (Special) — John and Irene Rudisill, of Salem, appealed a case to common pleas court in which Elizabeth Plohr, of Teegarden, recovered a judgment in Justice Lease's court at Salem. About 18 months ago, the Rudisills went to the home of Elizabeth Plohr and, after making a forcible entry, carried away household furniture, consisting of bedding, silver spoons, and in fact everything which they could convert to their own use.

The plaintiff entered suit for $75 damages and when the case was set for hearing the Rudisills failed to appear and judgment was entered by default.

Special Notice.

On account of the interest shown in the special church services held at Springs Park last Sabbath afternoon, it has been decided to contiue the service until the close of the season. Service tomorrow afternoon at 3 conducted by Rev. Edwin Weary, of the Episcopal church. Special song service by the vestry choir. The pavilion will be seated. You are welcome. Come and enjoy the service with us.

Wanderers' Return.

Two of the four boys who ran away from their homes in this city and took a trip to Salineville, returned to their homes last evening. It is stated that the boys had enough of begging life by the time they reached Irondale and later two of them turned back, it is reported, and the other two continued on their way to Salineville.

Out of the Hospital.

Edgar Roe, of Third street, who has been confined to a Wheeling hospital for four weeks, taking treatment for a disease that has been troubling him for quite a long time, is expected to return to his home either tomorrow or Monday. His ultimate recovery is now assured.

RED STAR COMMANDERY

Officers Elected for the New Uniform Rank K. of P. Organization.

At a meeting of the recently organized Uniform Rank, Knights of the Golden Eagles, of this city, the following officers were elected: Captain, Joseph Smith; first lieutenant, J. H. Bardow; second lieutenant, William Ellis; first sergeant, Arthur Owens; second sergeant, Thomas Simpson; third sergeant, Joseph Pollock; ensign, James Burkheimer.

A charter has been applied for and this application was forwarded yesterday to the adjutant general of the national commandery at Newark, N. J. The character is expected here in a few days. The name of the local commandery will be Red Star, but the number has not yet been assigned, and will not be known until the charter is received.

Will Filed for Probate.

Lisbon, August 23. — (Special) — The will of the late Jessie Black, of Washington township was filed for probate this morning. The application to probate will be for hearing September 2.

WITH THE WORKMEN IN THE CLAY PLANTS

LABOR OF YOUTH.

During the summer months, and especially during the vacation of the public schools there are as a rule many positions in a pottery filled by school children. Now that the school term is about to again be opened, there will be many vacancies in the potteries of this city, such as mould runners and the like. After the schools open, if any boys or girls of school age are found to be working in a pottery, they are subject to the truant officer, and their parents are liable to a fine. A well known manager of a hill pottery, speaking of the child labor question, today said: "The grandest institution in this country is compulsory education, and would you believe it there are scores of persons working in the East Liverpool potteries who are today unable to write their own names ,and many of these have resided in this city practically all of their life. A workman only the other day inquired of me:'How do you get to be a member of that bank? Will you introduce me to the president of it? I told him I could not do that, but I could arrange it so that he could meet the cashier. That was done, and now he wants me to sign his checks. I of course could not do that, but I educated him a little in the art of banking. Early education would do much to overcome all this ignorence of banking methods, and this can now be learned in the public schools. Education of the youth also tends to help the pottery workmen in his work about the shop. He is enabled to work out little details and all that sort of thing. I am firmly convinced that too many children are employed under the lawful age."

NOTES FROM SEBRING.

Ralph Coppock, a presser at the Sebring, has gone to Bunker Hill, three miles east of Snodes for a two weeks' stay with his parents "down on the farm."

Homer Tritt, liner at Sebring, is now off duty on account of sickness.

Will Murphy, of East Palestine, has taken a position as kilndrawer at the French.

Bernard Curtis has moved to East Liverpool, where he will still continue to push the saw and plane.

George Turner, who has been employed as presser in the Lisbon pottery, is now at his home in this city.

Robert Finley, the well known kilnman, who has been unable to work for quite a time on account of suffering with typhoid fever, is now able to be out. He is well known in East Liverpool, having once been a member of the police force of this city.

WHAT HE DESERVED.

Because he was a good fellow, always kind to the men under him, William Tritt, formerly a resident of this city, and until recently, one of the managers of the Sebring pottery, at Sebring, was presented a handsome gold watch a few days ago by the employes of the pottery. This certainly shows good will. Mr. Tritt, it will be remembered, had tendered his resignation with that firm, and will leave Sebring soon to associate himself with the new pottery in course of erectinon at Crooksville. His resignation took effect the day the watch was presented to him.

A NEW SAMPLE ROOM.

The Thomas china company, of Lisbon, has opened handsome sample rooms in this city, and every character of ware made at the new shop is shown there. The rooms are on the second floor of the R. Thomas & Sons' plant, on Seventh street. The samples are tastefully arranged and the display is one of the neatest to be found anywhere in the city. The room in charge of a competent salesman, who is there daily. Quite a trade is being secured by this new firm by having a sample room in this city, and the move proved to be a wise one.

QUITS RESTAURANT.

Harvey Badgley, who for a numer of years was employed as night watchman for the West End pottery company, but who during the past few months has been conducting a restaurant in the Midway, has disposed of that business. Within a week or so he will go the Thompson pottery, wher he will take charge of the docorating kilns at that plant. Mr. Badgley was formerly employed in the potteries in this department, but not of recent years.

A HIGH OFFICIAL.

Thomas Price, general manager of the Cheslea pottery at New Cumberland, was in the city yesterday for a short time, and spent a few hours at the office of the Union. He was accompanied by H. L. Snively, auditor of the Union potteries company, at Pittsburg. The visit of these gentlemen to this city had no special significance, as it was just an ordinary business trip. Frank W. Fowler, vice-president of this company, is now spending a few days in Cleveland, taking a much needed rest.

MRS. DEVON ILL.

The many friends of William Devon, kiln foreman at the D. E. McNicol pottery, will be sorry to learn of the serious illness of his wife. Mrs. Devon has been suffering at her home on Thompson Hill with muscular spasms, and her condition is such that just as soon as possible, she will be removed to Pittsburg, where, if found necessary, she will undergo an operation. Mrs. Devon has suffered four attacks within the past two weeks.

OUT AT BARBERTON.

It is evident that the Barberton pottery is almost in full operation, and that it will be but a few days until the packing department will be able to start. Within the last few days about 16 decorators were started, and that is speaking very well for a new shop. Everything at this shop is running smoothly, and the first ware will be shipped from the new factory some time next week.

BUSINESS AT SEBRING.

The several potteries operated at Sebring by the Sebring Bros. seem to be enjoying an excellent trade, and judging from reports, the factories there are being given their share of the fall trade. Numerous cars of ware are sent from this town every week, and this is speaking well for the firm, who always had the name of being among the most progressive in the business.

AN IMPORTING MEETING.

The packers and warehousemen of the Trenton potteries were to have held an important meeting in the Eastern headquarters last evening, when some business other than that of a routine nature was to be considered. This is one of the latest locals to be organized in Trenton since the convention held there last May, and it is in a flourishing condition.

BUSINESS ALL RIGHT.

Eugene Bradshaw, of the Bradshaw pottery company, at Niles, has been spending a few days in this city on business. Mr. Bradshaw stated today that business with his firm was better than ever, and that orders were coming in as fast as they could fill them.

INCREASING THEIR LIST.

At the meeting of Warehousewomens 'local No. 62, which was held Thursday evening, eight new members were received. The membership of this local is now over 300, and is constantly increasing. A number of applications will also be presented at the next meeting of this local.

BACK TO WORK.

Jack Hancock, Charles Martin and Ralph Turner, who have been spending about ten days at Buffalo and other New York towns on a vacation trip, have returned to the city, and are now to be found at their benches on the glost end at the D. E. McNicol pottery.

EXPECTED HOME SOON.

Will L. Smith and Daniel E. McNicol, of the pottery firm of that name, who have been spending a fortnight in the east visiting several summer resorts, are expected to return to this city next week. They are now reported at New York.

PROBABLY A MISTAKE.

A Sebring paper stated last week that Local No. 44, of that town, had voted $1,000 from the defense fund to the striking miners. The writer probably meant either $10 or $100.

RESIGNED POSITION.

Miss May Terrence, who has been employed as a rubber at the Wallace & Chetwynd, for many months, working for Edward Hatton, has resigned her position. She will enter another branch of the decorating department, that of filling in.

TO BE MARRIED.

It was stated last evening that a popular finisher employed at the Union pottery would soon be married to a well known kilndrawer employed at the same plant. The date of the wedding has not been set.

LITTLE PAY.

Today was little pay, and quite a large amount of money was distributed by the plants among their workmen. Little pay is beginning to become a sort of big pay.

General Debility

Day in and out there is that feeling of weakness that makes a burden of itself.

Food does not strengthen.

Sleep does not refresh.

It is hard to do, hard to bear, what should be easy,—vitality is on the ebb, and the whole system suffers.

For this condition take

TAFT WELCOMED

GOVERNOR GIVEN WARM RECEPTION AT MANILA.

Received an Enthusiastic Popular Demonstration — Many Natives From Provinces Participated.

Manila, Aug. 23.—Civil Governor Taft reached here yesterday morning at daylight on board the United States gunboat General Alava, from Singapore, Straits Settlement. He was welcomed with an enthusiastic popular demonstration.

The day had been made a holiday and the city was decorated. Eight large arches had been erected on the streets. Twenty thousand natives from adjoining provinces participated in the demonstrations in honor of the governor's arrival. There was a parade of vessels in the bay and 30 decorated craft carrying members of the civil commission, military officers and the reception committee, met the General Alava down the bay and escorted Governor Taft to the entrance of the Pasig river. The governor was escorted by a large procession to the palace in the walled city, where a public reception was held.

Responding to an address of welcome Governor Taft outlined the progress and the result of his negotiations at Rome in the matter of the Philippine friars, and said that all church questions were progressing toward a satisfactory settlement. The governor said the action taken by congress concerning the Philippine islands showed that the American people honestly desired to help the Filipinos. The Americans were determined the islands should not be exploited by Americans at the expense of the Filipinos. Governor Taft predicted that eventually the archipelago would have practically free trade, and he congratulated the Filipino people upon the restoration of peace. He advised the Filipinos to till the soil and restore their country rather than wsate time in useless political agitation. He promised personally to labor for the natives and asked for their confidence and support.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

MATTERS MUCH TO EAST LIVERPOOL

City Should Have Representatives at River Improvement Meeting.

BENEFITS WILL BE GREAT

To This Town When Navigation Is Possible at All Seasons And Every Effort Should Be Used to Bring About This Result.

To the Editor of the News Review.

There is a matter to which I wish to call attention, which, it seems to me, strongly appeals to the interests of East Liverpool's business men and to every public spirited citizen for that matter. That is the proposed governmental improvement of the Ohio river. These improvements contemplate the establishment of a nine-foot stage of water from Pittsburg to Cairo all the year around by the construction of 11 dams, two of which are to be located within a radius of less than half a dozen miles of our city.

The annual convention of the Ohio River Improvement association will be held in Parkersburg early in October, and it is proposed that the chambers of commerce and boards of trade of all the more important cities and towns along the river send delegates to the convention to urge the immediate inauguration of the work and that the work be done continuously and simultaneously unth its completion.

It is proverbial that government contracts are never completed. It is proposed to make this a notable exception. A number of cities have already taken action with reference to the matter. Pittsburg's chamber of commerce at a recent session decided to send a strong delegation both in numbers and ability, the same to include Congressman John Dalzell.

If there is any city along the Ohio river that ought to be interested in this enterprise it is East Liverpool. She is about the only important city between Pittsburg and Cairo that has no competing line of railway. The opening of the Ohio river to continual navigation for ten or eleven months of the year would afford a competing commercial thoroughfare the importance of which to East Liverpool's manufacturing and other interests it would be hard to overestimate. Why then should our city not take some action in the matter of the proposed convention? It seems we have no board of trade—more's the pity—but this need not prevent the city from being represented.

City councils are expected to look after the interests of the city. Why could they not in conjunction with the mayor send able representatives to the Parkersburg convention, or in some way make their influence felt in so important a matter? If our city could be represented at the Parkersburg meeting by at least three strong men—six or more would be better—she would not only make her influence felt, but would only be doing what as a matter of justice oshe owes to so important a cause.

Let us keep it before the world that we are a wideawake city, alive to our own interests and know a good thing when we see it.

PIN YOUR FAITH TO ENK'S

TO PROLONG HUMAN LIFE

Albert Matthews, Ph. D., assistant professor of Physiological Chemistry in the University of Chicago, in summing up the practical results of the discoveries of Prof. Jacques Loeb and himself, says: "There is apparently no inherent reason why a man should die, except our ignorance of the conditions governing the reaction going on in his protoplasm."

When Dr. Joseph Enk, nine years ago, reached this conclusion as the result of scientific pathological experiments, he did not desire to run the risk of being considered a mad man or a fool, and kept his opinion to himself. But in preparing the Enk Preparations for the cure of disease, the startling facts which he had uncovered were incorporated in the theory upon which the remedies are based.

The possibility of prolonging the life of the cells has become a certainty, and the substances which will accomplish this best are known to Dr. Enk; also, the secret of presenting them in a form acceptable to the human body, which is most important. The people who use Enk Preparations for their ailments have no need for other medicines, and even now we can insure longevity and good health.

Research into the problem of life is going on steadily in the Enk laboratory and is rapidly dissolving the clouds which cover this most momentous question.

For information about the Enk Preparations, write for our booklets or obtain them of your druggist.

J. A. SIMPSON.
[Sec'y B'd of Education, San Francisco.]

Hon. J. A. Simpson, Secretary of the Board of Education of San Francisco, Cal., writes:

"I have found Peruna an ideal tonic. Some months ago I suffered with neurasthenia (systemic catarrh), caused by too close application to office work. My system seemed worn out and I felt far from well. I found Peruna benefited me very much. It built up the entire system and made me feel like a new man. I believe it is well worthy the high praise bestowed upon it."--- J. A. SIMPSON.

Systemic catarrh always gives fair warning of its approach, and can be easily warded off by the proper treatment. Floating brown specks before the eyes, mental confusion, fits of nervous headache, sleeplessness, flashes of heat, chilly sensations, palpitation, irritability, despondency; any of these symptoms or all of them should be promptly met by the use of Peruna.

Congressman E. V. Brookshire, from Indiana, in a recent letter from Washington, D. C., says:

"From what my friends say, Peruna is a good tonic and a safe catarrh cure."—E. V. Brookshire.

SEBRING RACE TRACK

A Fine Half Mile Course to Be Laid Out Near the Town.

Sebring is to have a race track of her own, the plat for the purpose having already been selected and surveyed. It is located just north of the city, out Fifteenth street, and will be a half mile course. The location selected for the purpose is said to be an ideal one. B. F. James has been chosen as president of the association, A. E. Mitzel, secretary, and H. R. Ewing treasurer. It is the intention to have the track completed by September 15.

The base ball ground which is now located south of the potteries will then be removed to these grounds and the lovers of the race and the leagues will have a fine place for amusements of every kind. A tri-county fair will probably come next.

Red Cross Ball Blue has the largest sale of any blue in the world. Highest quality at a reasonable price the reason. 9

EAST END

SIX NEW HOUSES

Modern in Every Particular to Be Erected on Pennsylvania Avenue, East End.

Quite an improvement will be commenced in the East End Monday morning when a company which has been formed in the East End recently will commence the erection of six new residences. In this company is Dr. R. J. Marshall and several other prominent business men of that part of the city. These houses will be erected on Pennsylvania avenue on the north side of the street, and almost opposite the alley leading to Chafinville.

These houses will be modern in every particular, and each will cost from $1,500 to $2,000. Work excavating for the foundation for these houses will commence Monday morning, and it is thought the contract will be completed within 90 days. These houses will be for rent, and will doubtless be quickly taken. There never was such a scarcity of houses in the East End as at present.

LIGHT DOES NOT SHINE

Pennsylvania Company Leaves the Lamp at Ralston Crossing to Rust Away.

Many months ago the Pennsylvania Railroad company placed a light at the Ralston crossing, but not for weeks has that light been lighted at nights. The lamp is now rusting away, and is useless while in its present condition. It is rusting away, and the only part of the fixture that is of any value is the pole upon which the light was placed. It seems that the railroad company, through a loose state law, is not compelled to keep lights at crossings, although there is a city ordinance in this city touching upon this point.

If the company does not propose to use the light at Ralston crossing, it would be better for the pole to be taken down, for it is no good in its present state.

Pastor Crowe Still Absent.

Owing to the absence from the city of Rev. N. M. Crowe, of the Second Presbyterian church, the services at this church tomorrow, both morning and evening, will be in charge of G. C. Fisher, a student at the Allegheny Theological seminary. A letter was received in the East End yesterday afternoon from Rev. N. M. Crowe, in which the fact was stated that he would return to the East End from his two weeks' vacation next week, and would conduct the usual services at the Second Presbyterian church one week from tomorrow.

Evening Up the Tracks.

During the past week the East Liverpool Railway company has had several men at work on the track between the Thompson pottery and the East End, raising the rail joints, and making other needed changes in the tracks. By so doing the cars were enabled to run over a portion of the road without jolting the passengers, as has been the case since the summer cars were placed on the road some months ago.

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

A Sure Cure for Diarrhoea.

Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used, as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by Alvin H. Bulger.

Women and Jewels.

Jewels, candy, flowers, men—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insiduous consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Charles F. Craig's.

Conclusions of much interest to the workingmen in general have been reached by the commission appointed by the British Iron Trade association to visit the United States and study industrial conditions, which have been made public by the treasury bureau of statistics. Enoch James, the commissioner who paid special attention to the steel industry, after much investigation, concludes that the commonly accepted theory that American mill men work harder than the English is an error. On the contrary, he finds that the English are the men who come nearer being overworked. He also finds the American workmen steadier and better paid, as well as more ambitious. As to the cost of living, the essentials of life are as cheap in this country as in the old. The average pay of workmen at the Homestead mills, $3 per day, or 187 pounds a year, is contrasted with the average pay in Lancashire, which is 68 pounds per annum. From all of which it appears that our protective tariff, which is blamed for making the manufacturers rich, at least enables the workmen to live in about twice as much ease and comfort as their brethren across the water.

The Canadian boundary question will undoubtedly be settled some time, though perhaps the present generation will not live to see it. The boundary stood over thirty years and no serious dispute arose over it. There would have been no issue had not the discovery of gold fields made Alaska valuable. Then Canada concluded it must have a seaport. How it can have a seaport several marine leagues from shore, where the treaty fixes the boundary, is a problem, unless this government donates it, and that it does not propose to do. Ex-Senator Warner Miller of New York has just returned from a trip to Alaska. He went as far north as Skagway, which town, he says, "is the head of the canal, the point to which the Canadians have laid claim. It should never, under any circumstances, be given up. If it is, Alaska will be cut in two. It belongs to the United States as much as any portion of the territory that we obtained from Russia."

In declining to be the Democratic nominee for governor of Kentuckey, Henry Watterson said: "No unclean dollar has ever passed my hand, coming or going, and I am too old too turn rascal now. Sometimes I have declared that I should like the people to write 'Governor of Kentucky' on my tombstone; but I should rest ill in my grave if there were a suspicion of a stain upon a letter of that honorable epitaph." Some of his Democratic brethren are setting up a howl, claiming it is possible to be elected governor of Kentucky without turning rascal. But evidently they have not lived in the Blue grass country as long as Henry has.

Canada, it is said, is preparing to offer homes and a premium to the destitute workers in the anthricite region if they will settle in the British northwest. If Canada would take all the imported Hungarian and Slavonic trouble breeders out of Pennsylvania, there would doubtless be no protest on the part of the native workers.

The railroads must have more engines and more cars. The mills and shops must have more men to make them. All are finding present facilities inadequate. Better that they should be confronted with this sort of problems than to be perplexed to find enough work, as they were in the days of the Wilson tariff.

The Tom Johnson presidential boom is being pushed again. Republicans will be delighted to see the Cleveland mayor land the nomination. Such a result would rend the Democratic party worse than a third nomination for the oft-defeated Nebraskan.

The absent minded man cannot be blamed for dating his letters October. It is not he, but the weather clerk, who is rushing the fall season.

Before coming to this country to lecture Aguinaldo might hear of something to his advantage by addressing Ellen M. Stone.

The Republicans expect to gain several congressmen the coming fall. It is a blue outlook for the party without an issue.

The jail population of Ohio diminished last year. The people were busy raising more profitable crops than trouble.

Some of those 5,000 towns should still bear in mind that it takes more than population to make a city.

Neither khaki nor blue uniforms will affect the soldierly qualities of the man inside them.

FUEL SCARCITY DEPRESSED.

The Worst Feature of Week In Trade Said Dun's Review--The Failures.

New York, Aug. 23.—R. G. Dun & Co's Weekly Review of Trade, issued today, said in part:

Fuel scarcity is still the one serious industrial handicap. Protracted idleness at anthracite mines increased the pressure for sofe coal and coke, and, despite new records of output, deliveries are utterly inadequate, owing to the lack of motive power. This freight blockade of coke trains has closed many furnaces, while the increasing call for transporting facilities on crop account gives little prospect of early relief. As the active blast furnace capacity of this country decreases through want of fuel, foreign pig iron is purchased more freely. Domestic needs are now far beyond all precedent, and even with the available home capacity active there would be imports. There is much that is gratifying in this state of affairs, but there is also a draw back.

Failures for the week numbered 207 in the United States, against 205 last year, and 30 in Canada, against 35 a year ago.

THE STOCK MARKET RALLIED.

Improvement, Yesterday, Over Thursday's Depression—Some of the Features.

New York Aug. 23.—Yesterday's stock market rallied from Thursday's depression and closed at materially higher prices than Thursday night. There was a considerable contraction in the volume of the trading, and it was not until late in the day that the disturbance to sentiment caused by Thursday's break in prices seemed entirely overcome. This was partly due to the evidence of continued liquidation in Colorado Fuel, which it was feared was creating a necessity to unload stocks elsewhere in the market. The appearance of support in that stock and its rally to more than a point over Thursday night was an important factor in reassuring sentiment, and its effect was emphasized by the renewed strength in Louisville and Nashville, which was supposed to be related in a speculative way to the movement in Colorado Fuel. The points of strength in the early part of the day were somewhat scattered and might be attributed to special causes. In the late dealings the strength became more general and the market broadened out under the immediate influence of a 2-point rise in Southern Pacific. The explanation of the strength of this stock was not obvious, beyond the fact that the speculative leader who has made this stock a favorite of late years is now due to arrive from Europe.

The freedom from flurry in the money market with the demand for loans to carry over until Monday had a reassuring effect and aroused hopes that the bank statement today would show a strengthened condition. If this proves to be the case, it must be by reason of loan contraction by transfer of credits to the trust companies and to foreign lenders. The interior currency movement seems still to be slightly in favor of New York.

Bonds were firm in sympathy with stocks. Total sales, par value, $1,370,000.

U. S. refunding 2s, the old 4s and the 3s advanced ¼ per cent on the last call.

GIFT TO ROOSEVELT.

Workingmen of Hartford Presented Him With a Floral Piece.

PRESIDENT REPLIED TO PRIEST.

Father Sullivan Made Presentation Speech, Which Received a Pleasing Answer—President Chatted With Workingman Mayor.

Hartford, Conn., Aug. 23.—President Roosevelt's stop in Hartford in his New England tour was marked by great enthusiasm by the crowds and he showed his pleasure at the reception he received.

In Pope park, one of the beautiful outlying recreation spots of the city, the president was greeted by 10,000 workingmen, who presented him with a magnificent floral horseshoe, inscribed: "Workingmen's Welcome to Our President."

Father Michael Sullivan made a few remarks of welcome, in which he commended the honesty and sincerity of purpose of the president in all his acts. The president responded and his remarks were frequently interrupted by applause. He said:

Reply to Father Sullivan.

"Father Sullivan: I came here to say some words this evening myself, but nothing that I can say, then, will in any way have the significance that the gift from the wage workers of Hartford has, and that the language you have used, Father Sullivan, in connection with making it use, and I am sure that Colonel Green, Senator Platt himself and all of my other hosts will pardon me for saying that no greeting that I have received, or can receive in Connecticut will, or can begin to, please me as much as this one that I receive through you. (Loud applause.) Father Sullivan, I should of course be wholly unfit for the position I occupy if I did not give my best thought and best purpose to trying to serve the interests of the toiler of America (cheers)—the man who works with his hands, and, of course, also the man who works with his head—if I did not try to serve each decent American citizen according to the best of my capacity, and certainly my most painstaking effort, my most resolute purpose, shall be given, and, if I may say so, is being given, to trying to do anything that can be done to help our people. Perhaps I can do this best by trying to help as well as I can their best purpose and their best thought (cries of 'good'), and that kind of representative I shall strive to be according to the light that is given me. One thing more. I should like to accept that gift as in some way personal to myself, but I would rather accept it, as I know it is meant, as a gift from Americans to the man who for the time being embodies American governmental principles—(cries of 'good' and cheers)—the principles of square and fair dealing with all men, so that all men shall have their rights under the law, that all shall be given a fair and an even chance in the struggle for life as we can best give it. I thank you." (Loud and continued applause.)

Big Crowd Was Present.

Five thousand men and women crowded the Coloseum here last night to hear the address of President Roosevelt. At least two-thirds of the audience were workingmen, and the enthusiasm manifested by them when the president alluded to the right of the toiler aroused the keenest interest. Again and again during his prefatory remarks, which were based on an incident of the afternoon—the presentation of a floral horseshoe by the workingmen—the president was interrupted by vociferous applause. Such side remarks as the following: "I do not care how honest a man may be, if he is timid he is no good," evoked prolonged laughter. Again, in speaking of the Isthmian canal, he aroused mirth by saying that one of the problems in connection with the great engineering feat would be to procure 50,000 patriotic, ambitious men to work for a ten thousand dollar fee.

President Roosevelt was introduced to the audience in the Coliseum by Colonel Jacob L. Green. Through Senator Platt he tendered his thanks to the state for the splendid reception accorded him, and to Mayor Sullivan he made his thanks to the people of the city of Hartford. Then, turning to the audience, he made a speech.

Last night after his address at the Coliseum the president was the guest of Executive Secretary John T. Robinson, on Asylum avenue. The president invited Mayor Sullivan to meet him at Mr. Robinson's home. The mayor is an ex-clerk, who was elected by the laboring men, a fact the president was familiar with, and he expressed a desire to have a personal chat with Mr. Sullivan.

President Roosevelt expressed his satisfaction at the substitution of drives for conventional handshaking. This method of entertainment seems to have given the people the opportunity desired of seeing him. It obviates the crush that has been so objectionable in previous receptions.

New Haven Was Enthusiastic.

New Haven, Conn., Aug. 23.—President Roosevelt entered upon his New England tour yesterday and New Haven was the first point visited by the nation's executive. The yacht Sylph bearing the president was sighted off New Haven harbor just before 1 o'clock. Half an hour later the vessel was lying alongside Belle dock, having made the run up New Haven harbor to the accompaniment of universal salutes.

The president acknowledged the salute from the yacht's quarter deck. He came ashore at 1:20 p. m. at a special landing constructed for the occasion. Mayor John P. Studley and a committee from the board of aldermen greeted the guest the moment he landed and conducted him to the carriage in waiting. Belle dock freight yards were roped off and the approaches were everywhere guarded by police. Troop A, Connecticut national guard, constituted the military escort. At 1:25 the procession moved. The mounted police were followed by Troop A, and then came carriages containing the president and his party and invited guests to the number of 60. The program provided for nothing but a drive and the progress of it took the distinguished visitor through the slums, the factory quarters and the center of the city. All traffic over the line of march during the hour of the president's stay was suspended and the city factories and shops were closed between 1 and 2.30 o'clock.

BRYAN'S COMMONER WARNS.

Says United States, Like Babylon, Is Destined to Fall.

Lincoln, Neb., Aug. 23.—"Like Babylon of old, the United States is destined to have its fall, with the Republican party in the role of Belshazzar." This is the pessimistic prediction of W. J. Bryan, who warns government leaders that there will be a dismal wakening if national politics are not changed. In his Commoner yesterday Mr. Bryan says:

"Just now the Republicans are rushing headlong into new conditions and are leading the country into untried paths. They are sure that we can maintain a republic here and at the same time administer a coloney in the Orient.

"They are sure that they can safely encourage the growth of private monopolies, notwithstanding the inevitable tendency of man to use power for his own selfish purposes.

"They are allowing United States judges to abuse the writ of injunction when asked against laboring men, while those who violate the anti-trust laws go free, blind to the fact that such discrimination makes more anarchists than all the speeches delivered by Herr Most."

WELLSVILLE

A BUSY SESSION HELD BY COUNCIL

County Commissioners Coming Soon to Co-Operate With the City.

AN IMPORTANT NEW ROAD

Cemetery Trustees to Pay One-Half for Paving Spring Hill Avenue—Payment of Several Bills Due Contractors Provided For.

A host of unfinished business was transacted by the Wellsville council last evening at the special meeting. In the absence of City Clerk J. W. McQueen, John F. McQueen acted as clerk pro tem.

A communication from Trades and Labor Council was read asking the solicitor and council to participate in the Labor day parade. Council thankfully accepted the invitation and placed themselves at the disposal of the Trades and Labor Council and instructed the clerk to notify Trades Council.

A communication was read to the effect that the county commissioners will be in this city in a few days for the purpose of letting the contract for a new road entering this city, a full account of which was published in this column a few days ago. In the communication it was asked that the city engineer be instructed to be at the disposal of the commissioners on that day to aid them in any way that he possibly could. The matter was brought to a motion and was finally carried.

It was reported that the cemetery trustees had a surplus fund on their hands which might go towards paying for part of the paving of Spring Hill avenue. The matter was discussed for some time, and it was found that the cemetery trustees would agree to pay for one-half the expense of paving that thoroughfare. They would rather do this than go to the expense of putting in a new sidewalk all of the way up the hill.

A motion was at once made ordering the clerk to advertise at once for bids for the paving of Spring Hill avenue a width of 15 feet.

Five resolutions were passed calling for the issuing of certificates of indebtedness for different paving work by Rinehart Bros. and E. A. Freshwater.

Resolution No. 1—For the issuing of certificates of indebtedness to E. A. Freshwater for $285.20 due and payable four months after date at 6 per cent interest. For work on Fourth street paving.

Resolution No. 2—For the issuing of certificates of indebtedness to E. A. Freshwater for $100.80 due and payable five months after date at the rate of 6 per cent. For work on Maple alley.

The other three resolutions called for the issuing of certificates of indebtedness to Rinehart Bros, due and payable five months after at the rate of 6 per cent. They are all dated August 22, and are for work on Clark avenue to the amount of $1,156.50, Commerce street to the amount of $261 and Twenty-second street to the amount of $106.80. All five of the resolutions were passed.

City Engineer Leith took the floor and objected to the grade of Clark avenue, claiming that the present grade is such that the street will be left in a peaked condition, making a bad appearance. Mr. Leith stated that the cost of changing the grade would amount to about $00, or a rate of 40 cents per yard. No action was taken because of there being only seven councilmen present, as eight are required to transact business of this character.

Objection was made by one of the councilmen about the condition of Fifteenth and Seventeenth street. He said that some action ought to be taken by council towards draining the water off these two streets, which has been standing there for some time. The matter was left in the hands of the improvement committee, which was given the power to act. The matter of clearing away the filth at the foot of Seventh street was also left in the hands of this committee.

Councilman McLain at this point called the attention of council to a very defective spot in the Kelly avenue paving. It seems that there is a small spring under the paving at the place mentioned and the only way to get out of the difficulty would be to drain this water off by sewer, as it is this water that causes the defective place.

A committee composed of Councilmen Shoub, McLain and Brennan were appointed with power to act and investigate the matter.

After many other minor matters had been discussed, but no action taken, council adjourned.

FIGHTERS DISPUTE

Over Who Gets the $300 — Another Match Is Probable.

Lawrence Lutz, the Beaver Falls pugilist, who succeeded in knocking out "Skinny" Bunting early yesterday morning, was here yesterday afternoon attempting to secure the $300 forfeit money which is at present in the hands of S. W. Connor of this city. It is contended that the money rightfully belongs to Bunting and that he will receive it in a day or two, although Mr. Connor at present is undecided as to whom it rightfully belongs.

The dispute is over the date, the articles of agreement stating that the fight was to have been on August 21 at 11 o'clock. Bunting was there at the time and ready to go into the ring, it is claimed, while Lutz did not arrive until after midnight or on August 22.

Bunting yesterday challenged Lutz to another fight under different circumstances within 60 or 90 days from date in a closed hall, allowing the Pittsburg Dispatch to appoint a referee. Lutz did not accept, but said that he would fight "Skinny" at the Nonpareil club in Beaver Falls in 60 days, providing Bunting would agree to the regular club referee. Bunting would fight Lutz in Beaver Falls for $500, providing Lutz would agree to allow the Pittsburg Dispatch to name the referee. Lutz did not state whether he would accept, but it is thought that he will and that 60 days will see them do battle once more.

Entertained Her Friends.

Miss Mary Anderson, who resides at the corner of Lisbon and Second streets, entertained about 20 lady and gentlemen friends last evening in honor of the Misses Silver and Maddox, both of Washington, D. C., who are visiting friends in this city. Music, dancing and games were enjoyed and light refreshments were served.

Took Bunting's Wheel.

Ed Bunting, pugilist, lost a bicycle yesterday. It was seen disappearing in company with John West, who hails from Pittsburg. He is also a fighter. The tire got punctured and West had to walk. Bunting overtook him and thumped him. Officer Thorn arrested West.

Arrested and Fined.

Harry Glover was arrested yesterday morning by Chief Thorn for being drunk and disorderly. He was given a hearing before Mayor Fogo yesterday afternoon and was fined $4.60.

HIS BIRTHDAY

Handsome Presents Bestowed Upon Physical Director Stephens, of the Y. M. C. A.

The twenty-ninth anniversary of P. J. Stephens, physical director of the Y. M. C. A., was remembered by members of his classes in a manner most complimentary to the professor. Several of them pooled issues and gave him a handsome watchfob, with superb gold ornaments.

Another gift was a beautiful scarf pin; still another, from the juniors and intermediates, a Bagster's art Bible. A box of candy and two other books were among the presents he received.

The director's faithful work for his classes is more and more appreciated.

NEW BALL FIELD WAS PUT TO USE

The Y. M. C. A. Athletic Grounds Opened With a Game Yesterday.

HOME TEAM VICTORIOUS

By Just One Score, Made in the Final Inning—Plenty of Talent Apparent in the Contest—Patterson Pitched Well.

The new Y. M. C. A. Athletic grounds were formerly opened yesterday afternoon by a base ball game between the H. P. Ford club, of Pittsburg, and the Y. M. C. A. team, of this city. Had it not been for the one inning the game would have been cleverly played. As it was, no cleaner ball playing has been seen in this part of the country. The attendance was not large, although there were a few in the grand stand, and treble the number sat on the railroad tracks and watched the game.

The grounds are somewhat rough at present, but after a little use and with the aid of a heavy roller, the field will be best in this part of the state.

Patterson, of Wellsville, pitched a good game for the local team, while McNutt, who played his first game in eight years, landed on the ball several times and made three hits during the game, one of which was for three sacks, and resulted in the scoring of two runs.

Then there was "Bobby" Smurthwaite, one of the old-time professional players. Bobby had not been in a game for two years, so he said, and felt a little stiff. However, he demonstrated clearly that he is just as good a player today as he ever was, not excepting the days when he played short for the old Steubenville Champions, a team that was known all through eastern Ohio for its fast fielding. Joe Carey also showed that there was still some base ball blood left in him. He also made a three-base hit and fielded everything that came his way.

Through rank decisions on balls and strikes, Umpire Hester gave the visitors two runs in the sixth inning. It was also in this inning that Hufnagle, who played center field for the Fords, clearly demonstrated that he could play baby ball. His actions caused him to be hooted by the crowd. It was all caused because Umpire Hester called a strike on him which Hufnagle though should be a ball. "I won't play," said the big fielder, and then sat down on his bat. It is to be hoped that his actions will not be repeated again today. This crack was the only thing that marred the pleasure of the game, and taking it all through the game was a good one.

Lawrence, the pitcher for the Ford's is an old Homestead player, and defeated the East Liverpool team during its recent visit to that town, and he also defeated the All-Cubans.

The score:

Y. M. C. A.	0	0	0	5	1	0	0	0	1	—7
H. P. Fords	0	0	0	1	0	3	1	0	1	—6

Hits, Y. M. C. A., 9; H. P. Fords, 6. Errors, Y. M. C. A., 6; H. P. Fords, 4. Batteries, Patterson and David; Lawrence and McDermott. Two-base hits, McNutt, Patterson. Three-base hits, McNutt, Carey. Struck out, by Patterson, 13; by Lawrence, 4. Umpire, Hester.

GAS EXPLOSION

Inflicts Painful Burns On Benjamin Deame, a Mill Worker.

Benjamin Deame, residing in the Shrader block, on Virginia avenue, was badly burned about the face and neck this morning. Deame is employed at the mill, and his duties require him to feed a gas producer. He was in the act of emptying a hopper of coal into the apparatus, when the flames shot out from a peep hole and ignited a quantity of superfluous gas above the machine.

An explosion followed, and the man was painfully burned. He was taken to his home and medical aid summoned. The burns were dressed, and the injured man is now resting easy. It will require several weeks for the wounds to heal.

Building is Brisk.

Building operations are being pushed in Chester, and contractors are winding up the work in hand in order to have it all completed before cold weather sets in. The foundation for the Faulk Bros.' mill has been finished and carpenters will begin their work without delay. The King business block in Carolina avenue is almost ready for the plasterers, while the large Allison building near the park will be fully completed in a few days.

Plumbers Picnic Today.

The excursion and picnic of the master plumbers of Pittsburg is being held at Rock Springs today. This is one of the few outings to be held at the resort this season where those in charge have purchased all the privileges, and the entire crowd will enjoy the numerous amusements free of all charge. Arrangements have been made for the accomodation of 1,200 picnickers.

Mrs. Banfield's Suit Settled.

The forcible detention case of Mrs. W. A. Banfield against Mary Riley has been settled. The interested parties met at the office of Justice Johnston in company with thir attorneys, and a settlement was effected without taking the case to trial. Mrs. Riley will pay $12.50 and vacate the premises next Monday.

Attachment Suits.

Mrs. J. B. Molen has begun two attachment suits in Justice Johnston's court against Roy McCalmont and Ed. Stoffel, employes of the Chester tin mill. Both claims are for board, that against the former for $22.80 and the latter for $25. The cases are being tried this afternoon.

Loop Into the Park.

The grading preparatory to putting in a loop at the park will be completed today, and the tracks will be laid early next week. It is thought the entire job can be completed by the first of the month.

Baseball Contest.

The fourth game of the series between the New Cumberland and Toronto baseball team is being played at the former place this afternoon. A number of Chester people are in attendance.

CHESTER NOTES.

SCHEME TO SETTLE STRIKE.

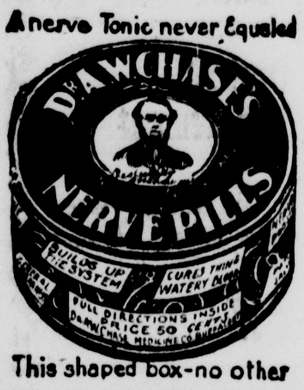

Rev. S. Edward Young, of Pittsburg, Working to This End.

Shenandoah, Pa., Aug. 23.—Rev. S. Edward Young, pastor of the Second Presbyterian church, of Pittsburg, has a plan for the settlement of the coal strike which he will submit to President Mitchell and the operators within the next few days. Mr. Young has spent the last 10 days in this region during which time he has made a thorough investigation of the cause which led up to the strike.

His plan has already received the approval of the strike leaders, to whom it was submitted, and if President Mitchell endorses it upon his return to strike headquarters, Mr. Young will proceed at once to New York to confer with the operators and outline plans for them. The details of the plans have not been given out, but it is known that it consists of arbitration along lines that have never before been suggested, and that it would require the co-operation of President Roosevelt.

Mr. Young has implicit confidence in the success of his scheme.

CONFLICTING TESTIMONY GIVEN.

Some of Witnesses Testificed Ronemus, Not McElmoyle, Killed Strike Leader Sharpe.

Tamaqua, Pa., Aug. 23.—Conflicting testimony was given yesterday at the inquest held to place the responsibility for the death of Patrick Sharpe, who was killed during a clash between strikers and deputies at Mesquehoning on Monday evening. Twelve witnesses swore that Sharpe had been killed by Harry McElmoyle, while five others hold that the fatal shot had been fired by William Ronemus. One witness said Ronemus admitted that he shot him. Some of the witnesses claimed that Sharpe had not struck or abused any of the deputies, while others said that he had.

After hearing the testimony af the deputies the jury adjourned for deliberation. A verdict will be rendered this afternoon.

Yesterday morning Ezekiel John, the lieutenant of the deputies, was arrested, charged with complicity in the murder of Sharpe. He is now in the Mauch Chunk jail.

ELEVEN INNINGS TO DECIDE GAME

Homestead Then Came Out Ahead Owing to the Locals' Errors.

IT WAS A FINE CONTEST

Neither Side Scored During the First Four Innings And the Score Stood 3 to 3 in the Ninth—A Hard Fight And Hard Luck for Our Boys.

Well, we'll have to try it over again Saturday afternoon with Homestead. After having the game won yesterday it was given to the visitors on errors. The locals made a hard fight to regain the ground they had lost, and it was not until after 11 innings of play that the visitors were able to wrest victory from them.

The Homestead boys did it to perfection, however, and in the eleventh inning Winters was touched up for three hits and four runs which cinched the game. "Old Man" Reark wears a downcast look. He dropped another. And it was one which told, for otherwise the game would have gone to East Liverpool by a score of 3 to 2 at least.

The visitors had not been able to score until in the fifth inning Reark dropped Bennett's long fly to center field. There were a number of the fans that were unable to realize that Reark had dropped the ball, as it bounced back up in his hands again. But he did, and Bennett scored on a long hit to right field by Torreyson.

When the visitors came in for the first half of the ninth the score was 3 to 1 in favor of the locals and everything looked well. Osbourn was the first up, but Jones, who is scheduled to pitch today, was substituted for him, and made a clean hit. Bennett then followed with another single.

Nagle and Torreyson followed with singles and Bennett and Jones scored, making a tie. Neither side scored until in the eleventh the visitors opened up their arsenal and took a lead that overshadowed the locals and they were unable to make even an attempt to overcome it.

Jones, who had taken Osbourn's place in the game, was the first man up in the eleventh and he reached first on an error by Maag. He was advanced and Bennett reached first on the second hit by the latter. Winters then became wild and Torreyson was hit by a pitched ball and the bases were filled.

Marshall was then up. Nothing was expected of him, for the reason that he had not made a single hit in the two games. But the unexpected always happens and Marshall picked out a nice one for two bags and Bennett and Jones scored. Both Torreyson and Marshall scored a moment later on a long single by Mullen.

East Liverpool made its runs in the sixth and seventh. Bennett was all that could be expected of a pitcher, and the locals were unable to do much with his delivery. No hits or runs had been scored up to the sixth inning when L. Emmerling lined out a safe one. Winters then hit safe and Emmerling went to third and home on an error by Marshall at second.

Again in the seventh Davis hit safe and Heckathorn picked out four bad ones. Both players scored on a long hit by Webb. After this the locals never had a chance of scoring and the game ended with the score 7 to 3.

NOTES OF THE GAME.

Maley will probably be in the box against Jones.

It was no fault of Winters that he did not win his game.

Just to think! Reark dropped another. But then just think of the number of hard chances he has had and improved.

A number of local sports who backed Homestead for the two games are thanking themselves that they have been able to split even.

Finch umpired another good game. There has as yet been no cause for complaint, although the usual kickers have the occasional groan when things do not go to suit them.

Jones was put in to bat for Osbourn in the ninth and he had to be kept in the game. The visitors had no cause to worry over this fact, as he secured one hit and two runs in the three innings.

Lafe Emmerling received a bad jolt to the thumb on his right hand in the first part of the seventh. An effort was made to get the injured member in shape so that he could continue in the game, but his brother Duff was compelled to take his place. Both played a good game back of the bat.

ACT QUICKLY

Delay Has Been Dangerous in East Liverpool.

Do the right thing at the right time.
Act quickly in times of danger.
Backache is kidney danger.
Doan's Kidney Pills act quickly.
Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this.

Mrs. Caroline White of 225 Railroad street, East End, says: "I used Doan's Kidney Pills and found great relief from the treatment, although I am 70 years of age, and had about given up all hope of ever being helped. I took medicine and my back ached just the same, grew stiff and lame when sitting long or when lying in bed and sharp twinges of pain and other symptoms convinced me my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of, I got a box at the W. & W. Pharmacy. After using that for a short time I could plainly notice the good effects they were causing. I continued some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advise others to try them feeling confident if they do so they will have no cause to regret it."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States.

WAR GAME GOES ON.

Higginson Still Continued to Watch For the "Enemy's Fleet.

ATTACK WAS HOURLY EXPECTED

Under the Rules of the Contest Pillsbury Was Due Near the Coast. Movements of the Ships That Were Watching.

Rockport, Mass., Aug. 23.—When the sun came up yesterday the atmosphere was as clear as it could be, and extended observations were made from all signal and lookout stations. Each reported that all was well and that there was no sign of the enemy. The receipt of these early messages interrupted the quiet which had prevailed at the naval headquarters here since 2 a. m., unbroken save by one report received from Portland at 3:45 a. m. This report was like most others sent in, that all was quiet. The report added that scout boats were sighted outside the harbor.

It was not long after sunrise that the fog set in. It was a dense cloud and first impenetrable to the eye beyond a distance of 10 or 12 feet. Just before 9 o'clock there were indications that the sun was burning through the mist on shore.

Little Known on Shore.

Aside from the fact that the Kearsarge, at least, was still at anchor off this place, little was acthally known here as to the positions of the ships of Admiral Higginson's squadron. Scouts had been reported off Portland. The cruiser Brooklyn skirted the end of Cape Cod early in the forenoon and went across to Plymouth. Thus both ends of the line of defense were found to be well guarded, and as the naval experts here felt reasonably sure that the Alabama and Massachusetts were with the Kearsarge off Straits Mouth Point, the center was thought to be safe. The station keepers here have been advised that the lookout line has been extended to Sankaty Head, on Nantucket, where the wireless telegraph station is located. From there all incoming ships will be queried as to whether or not they have seen any of Commander Pillsbury's ships and the results of these investigations will be signalled to the scout boats of the land stations.

By 11 o'clock the fog had lifted and the battleships were seen in their usual positions. Observation in the distance, however, was impossible, owing to a haze which hung low over the water. All the signal and lookout stations reported during the forenoon, showing that the message system was intact. All the scout boats were heard from before 11 o'clock, either at the station here or on board the Kearsarge.

It is larned that the rules of the manoeuvres permit the destruction of the ships of the opposing squadron and it appears that the fear that Pillsbury may dash in and "disable" one of his vessels is one reason why the defending fleet is kept so compact by Admiral Higginson.

Weather Conditions Were Changeable.

In the afternoon the weather conditions again were changeable. At 3 o'clock the fog deserted Rockport and passed far out beyond the battleships, hanging away in the east more in the form of smoke.

From Straits Mouth Point the trio of warships could be discerned very plainly. Then suddenly it seemed as if the bank of fog were engaged in a race to the coast line again. The battleships could now no longer signal each other and the stations on Pigeon Hill and Straits Mouth were rendered for the time being out of action.

During the time that the fog prevailed the steel fighters remained motionless. Then confronting Admiral Higginson and his co-workers was the danger in navigating their vessels.

One Killed In Incline Accident.

Kansas City, Aug. 22.—A cable train crowded with passengers escaped from the control of the gripman in charge at the top of the Ninth street incline early yesterday morning, crashed into a train standing at the bottom. W. L. Taylor, gripman on the descending car, was killed, and a score or more passengers were passengers were bruised. The incline is 300 yards in length and descends at an angle of 45 degrees.

Relations With Turkey Resumed.

Washington, Aug. 23.—The state department has received a dispatch from Minister Leishman, at Constantinople, saying that amicable relations have been re-established between the legation and the porte. The sultan has directed that a portion of the agreement reached between Minister Leishman and the secretary of foreign affairs be carried out.

Receiver For an Ohio Corporation.

Columbus, O., Aug. 23.—A. L. Thurman was yesterday appointed receiver of the Mercantile Assurance company, an Ohio corporation. Three suits have been brought by stockholders, charging misrepresentation in the sale of stock. The company has been establishing branches in other states.

HACKING.

That word hacking is expressive to those who have experienced the aggravating constant cough, which is called a hacking cough. Sometimes it is the result of a cold, or of grip, and sometimes it is a consequence of catarrh, which unchecked has gradually involved the lungs in disease. Such a cough finds its cure in Dr. Pierce's Golden Medical Discovery which cures bronchitis, obstinate coughs, lung disease, hemorrhage, and conditions which, if neglected or unskilfully treated, lead to consumption.

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the State of North Carolina, who said the trouble had reached my lungs," writes Mr. J. M. Patton, of Clotho, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicines. Will say Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me, and to-day I am well and hearty, and I will say further that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicines to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Cholera Morbus.

This is an extremely dangerous disease. In almost every neighborhood some one has died from it, and in many instances before a physician could be summoned or medicine obtained. Mrs. E. H. Delano, of Durant, Mich., is subject to severe attacks of cholera morbus. During the past four years she has kept at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and says it has always given her quick relief. During this time she has used two bottles of it. This remedy can be depended upon in the most severe and dangerous cases. The safe way is to keep it at hand ready for instant use. For sale by Alvin H. Bulger.

There's no soaking required if you use Mrs. Austin's Quick Lunch Tapioca. Ready in a minute. Your grocer can supply you. 9

35,213 persons		$142,500.00

Every 100 bands from above named cigars will entitle you to four estimates.

(One "Florodora" band counting as two bands from the 5 cent cigars mentioned; and no less than 100 bands will be received at any one time for estimates.)

Information which may be of value in making estimates:—the number of Cigars now bearing $3.00 Tax per thousand, for which Stamps were purchased, appears below:

In December, 1900,	467,092,208 Cigars.	In March, 1902,	516,599,027 Cigars.
" December, 1901,	479,312,170 "	" April, 1902,	516,535,163 "
" January, 1902,	496,983,717 "	" May, 1902,	523,035,907 "
" February, 1902,	445,495,483 "		

In case of a tie in estimates, the amount offered will be divided equally among those entitled to it. Distribution of the awards will be made as soon after January 1st, 1903 as the figures are obtainable from the Internal Revenue Department of the United States for December.

Write your full name and Post Office Address plainly on packages containing bands. The Postage, or Express charges on your package, must be fully prepaid, in order for your estimate to participate.

All estimates under this offer must be forwarded before December 1st, 1902, to the FLORODORA TAG COMPANY, Jersey City, N. J.

You do not lose the value of your bands. Receipts will be sent you for your bands, and these receipts will be just as good as the bands themselves in securing Presents. One band from "Florodora," or two bands from any of the other Cigars mentioned above, will count in securing Presents the same as one tag from "Star," "Horse Shoe," "Spear Head," "Standard Navy," "Old Peach and Honey" "J. T.," "Master Workman," "Piper Heidsieck," "Jolly Tar," "Boot Jack," "Old Honesty," "Razor," or "Planet" Tobacco; or one "Sweet Caporal" Cigarette Box Front.

Send each estimate on a separate piece of paper, with your name and address plainly written on each. Blank forms for estimates will be mailed upon application.

Illustrated Catalogue of Presents for 1903 and 1904 will be ready for distribution about October 1st, 1902, and will be mailed on receipt of ten cents, or ten tobacco tags, or twenty cigar bands.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Back from Vacation—Rev. J. W. Gorrell returned from his vacation at Hebron, W. Va., his parents' home, last evening, and will preach tomorrow.

Barbers Will Parade—The Barbers' local has made final arrangements for the Labor Day demonstration. This local will have a good representation in the parade.

Licensed at Steubenville—Marriage licenses have been issued at Steubenville to Thomas E. Boyd, of East Liverpool, and Mary E. Hutton, of Brilliant; C. D. Zellars, of East Liverpool, and Ethel Hastings, of Brilliant.

Fishing is Fine—A letter was received in this city yesterday from William Leigh and Frank March, who are spending several weeks up Lake Michigan. The young men are enjoying their trip and have to the present made a number of sensational catches while fishing. The record for one day this week was 100 caught, some of them being very large. The friends of the men were a little skeptical when they heard the story, but it is probably true.

Pupils Entertained—Miss Mary Earl entertained her Sunday school class at her home on Fourth street last evening. Miss Earl is a teacher at the First M. E. church. Music and games were indulged in until a late hour when refreshments were served. A very enjoyable time was spent.

George Casey Ready to Play—Samuel Carey, of this city, is in receipt of a letter from his son, George Carey, who has been playing first base for the Washington American League club, during the season, stating that he expects to get back into the game again when the Washington club opens a season at Cleveland, on August 28. Officer Hugh McDermott will go to Cleveland to see the opening game and will present Carey a pitcher bearing an excellent likeness of the famous first baseman on its face.

ANOTHER DIVIDEND OF 3 PER CENT

The 27th Declared by the Potters Building and Savings Company.

BEST WAY OF SAVING

Is Holding Stock in Such a Thriving Institution—The Rich And Poor Have Equal Chances—All Earnings Paid in Dividends.

The Board of Directors of the Potters' Building & Savings company, at their meeting Thursday evening, declared a semi-annual dividend of 3 per cent payable September 10.

This dividend is the twenty-seventh they have declared in the 13½ years since the company was organized and will make $367,189.23 that the company has paid to its members in dividends, and well illustrates the superiority of a building and loan association over a savings bank. For, had the members of the Potters' Building & Loan Association been simply depositors as in a savings bank they would, in the same time, have only received $246,126.15, 4 per cent. The difference of over $123,000 would have gone into the pockets of the few stockholders or owners of the savings bank, it being what is known as a close corporation; that is, there is only a certain amount of stock to be had, and as a usual thing the better the stock pays the harder it is to get and the fewer the people who hold it. In fact, a workingman or woman can't get it. On the other hand if it is not worth more than par or 100 cents on the dollar there is plenty of it to be had and anyone can get it.

On the contrary a building and loan company is an open or mutual corporation; that is, you can take stock in it at any time, no matter whether you are rich and have thousands of dollars to invest or poor and have only a few cents you want to save. All of its earnings after expenses are paid in dividends and paid in the shape of a dividend on whatever amount of money a person has in.

Rich and poor share alike. If a 3 per cent dividend is declared for a six months' business as the Potters' Building & Savings company has just declared, and Joe has $100 in the company he will get $3, while Jim, who has $50 in, will get $1.50. There are no preferred people who get a dividend on what some other person's money has made for them. True co-operation of mutuality is the key note of the company and its methods.

It is true this company receives money on the savings bank plan and pays 4 per cent interest on the same, but the party putting his money in is given the privilege of the regular building and loan stock plan and chooses for him or herself. Whatever profit is made from the money left on this basis goes into a contingent or surplus fund, which can only be used to pay any losses that may occur.

This fund in the Potters now amounts to over $37,000, and in the 13½ years the company has run there has never been one cent taken out of it. As this fund grows in amount so grows the security and safety of the institution. 199-h

FAREWELL RECEPTION

To Be Tendered Rev. and Mrs. W. H. Gladden On September 11.

Rev. and Mrs. Wm. H. Gladden have issued invitations for a farewell reception to be given at the M. P. church Thursday evening, September 11. The occasion is also the twenty-eighth anniversary of their marriage which fact makes the occasion one of twofold interest.

PRIMARIES SATURDAY

Hancock County Democrats Will Select Candidates for County Officers.

The Democrats of the several magisterial districts of Hancock county, will meet next Saturday for the purpose of selecting district nominees and choosing delegates to the county convention to be held at New Cumberland on Monday, September 1. The following meeting places have been selected: Grant district—Chester school house; Poe—Fairview school house; Butler—Holliday's Cove school house; Clay—Court house, New Cumberland.

An unusual amount of interest is being manifested in the selection of candidates for county officers, and preparations are being made for a hard fight. The offices to fill are: Prosecuting attorney, clerk of the circuit court, clerk of the county court, representatives to the house of delegates and county superintendent of public schools. The ticket placed in the field some time ago by the Republicans is a strong one and will doubtless be elected by the usual majority.

Perhaps the hardest fight will be that for representative. The Republican nominee is Robert Newell, of Grant district, and he is considered a very strong man. Against him it is said will be pitted Robert J. Ramsey, a young attorney of New Cumberland, who is not likely to overcome the usual 300 Republican majority.

WHOLE FORCE FIRED

Proprietor of Bakery Would Not Tolerate Disorder About the Shop.

The entire working force at the Thomas bakery was discharged yesterday, and for a time at least, it looked as though operations would have to be suspended.

Arthur Thomas, owner and manager of the establishment, is responsible for the condition. At a very early hour in the morning the proprietor asserts he went to the shop on Union street and found the force, consisting of three men, acting in a disorderly manner. He ordered them to stop, and when they refused, discharged them all.

The men are members of the bakers' union, and at once threatened to make charges against the proprietor, but to the present nothing of that sort has been done. Mr. Thomas endeavored to keep his foreman, Mike Peterson, who was in no way concerned with the trouble, but he went out with the others.

The proprietor telegraphed to Pittsburg and Cleveland yesterday to the headquarters of the union in both cities, making a brief statement of the facts, and asking that men be sent here at once. A force reported before the day ended and the shop is now in charge of a union force.

Coming On Special Train.

The special train from New York which will bring the guests from that city to the Knowles-Marshall wedding, next Wednesday, will leave New York either Sunday or Monday morning. The guests on this car will be Mrs. Ida K. Stafford, Miss Rita Rodriguez, Miss Ethel Holliman and Messrs. J. D. Thompson and Col. W. C. Brown.

MOORHEAD GREETED.

Ovation Accorded President of U. P. Theological Seminary at Winona.

THE "RIGHTEOUSNESS OF GOD"

This the Subject of Mr. Address—He Criticised Twentieth Century Testament—Conference on Sunday School Work, at Bible Conference.

Warsaw, Ind., Aug. 23.—Dr. W. G. Moorhead, president of the United Presbyterian Theological seminary, was given an ovation yesterday and greeted by the largest gathering at the National Winona Bible conference. In the course of his address on the "Righteousness of God," Dr. Moorhead severely criticised the Twentieth Century Testament and took occasion to voice emphatically his sentiments against what he termed "new fangled religious methods." The day's program was opened with a conference on Sunday school work, conducted by W. C. Pearce and Mrs. Lamoreux, of Chicago, hte latter addressing the body on the "Art of Primary Teaching." Rev. John Balcolm Shaw, of New York, delivered an interesting address on the topic "Jesus' Prayer for Us." Following this Rev. A. C. enos, of the McCormick Theological seminary, Chicago, addressed the conference on "New Methods of Studying the Bible." Another address was that of Rev. E. T. Bulgin, of Chicago, on "The Motive of Service." Rev. James E. Rodgers, of Springfield, Ills., had the subject, "How to Use the Bible." Rev. George Stewart, a southern evangelist, delivered the principal address last night.

Y. W. C. A. CONFERENCE.

That For Western Field, Including Ohio, Opened.

Williams Bay, Wis., Aug. 23.—The eleventh western conference for young women opened in the Y. M. C. A. camp at Lake Geneva yesterday afternoon, the delegates covering the territory from Ohio to Colorado. This is one of a series of four conferences held by the American committee here, at Capitola, Cal., Asheville, N. C., and Silver Bay, Lake George, N. Y. It is led by Miss Elizabeth Wilson and Miss Effie Kelly Price, of Chicago. The opening address was made by S. D. Gordon, of Cleveland, O., who began his series of addresses on spiritual power.

Three classes of Bible study are being conducted by W. W. White, principal of the Bible Teachers' college, New York, who teaches the gospel of Matthew; Don C. Shelton, of the International Y. M. C. A., who leads a course on Old Testament characters, and Miss Mary L. Babcock, of New York, who teaches Bosworth's studies in the Acts and Epistles. Three conferences to discuss practical methods of work in city and student Young Women's Christian associations are held daily. The city conference is led by Miss Helen F. Poone; the student conference by Miss Effie Kelly Price, and the missionary conference by Miss Bertha Conde and Miss Mabel Milham.
